

but we will talk about
that when I come home
(I am glad ^{have got the} your money & things
all right). Father sit hay every
week & the sheep if you can
I hope I will be there to help
it but you must not wake
me, for ^{now} morning when I will come,
tell Mr. not to get in a
hurry on that half acre farm
for if he should fall down he
wouldn't get up, but he may cut
all the grass he has & then
I will buy all he has to sell,....
I am very anxious to get home to
go to work I have done no work
since I have been in the service
to mount to any thing the work
they do now don't mount to much
they work but a little in a day
it seems to me they are busying
them selves until they get tired
to be mustered out.
