May 26,

Dear Ben,

Your article arrived and I am most appreciative. No one but "Who's Who" has written my life chronicle before and I never found "Who's Who" very exciting.

Although it might seem I had a hard time holding a job, I did have an interesting career and each change worked out better than could have been hoped.

Actually, the years in the Congress representing the 2d District of Idaho were the most challenging and the most enjoyable. You and the other friends I made accounted for that. Hamer

Thanks, friend Ben, very much,

[redacted]
