

A WORD TO ALL INQUIRERS

Behind this Movement there lies deep down, buried in the hearts of the Directors, an infinite love for God and for humanity. If you are looking for any type of atheism, you will not find it in this Movement. Some of the things we say are quite revolutionary. In fact, the whole Movement is most revolutionary. It must be if it is to bring to this world a new conception of God. As it is bringing such a conception of God, there must be a fundamental difference somewhere in its teachings. There is. We deny many of the so-called "truths" of orthodox theology. We deny the virgin birth of Jesus Christ and of all the rest of the world's crucified "saviors." We deny the atonement. We deny the theory of inbred sin. We deny the immaculate conception of any one, rather should I say, ALL CONCEPTIONS, EVEN IN THE LOWLIEST HOVEL, are immaculate. The Spirit of God is behind them all—not just one. We deny the truth of the Bible story of Jesus Christ being one-third of God, and at the same time all of God. In fact, as you study with us, you will find us denying practically every dogma, creed, ritual of every "orthodox" church organization. We do not believe they are either original or true. We believe it will take a more potent means if this world is ever to be saved. We believe, and think we can prove all of these stories to be the product of man's own theological imagination, or copies of similar stories supposedly believed by other religions in past ages.

HOWEVER--

Let none think there is any atheism in this Movement. In denying many of the doctrines of "orthodoxy," we are not denying the existence of God. We are daily proving that in the lives of many. We believe, and unhesitatingly teach that the Spirit of God exists and can be found entirely outside of the theology or dogma of any church. It is not necessary for any to even attend a church in order to find God. For God exists—IN YOU, AND, YOU WILL PROBABLY DISCOVER, CAN BE FOUND WITHIN YOU, BY YOU. We believe that God and man, working quietly together in absolute harmony and secrecy, can get much farther than they can if a lot of theological creeds are interposed. Creeds, dogmas, theological beliefs have done nothing yet to save this world. In spite of them all, the world gets worse and worse, and not one of the score of "crucified gods" offered to the world in the past 3000 years have been able to save it, or to bring to the world any power which can drive war and allied crimes from the Earth. THE TRUE PICTURE OF GOD CAN DO THAT. We are convinced that some new conception of God MUST come, before peace can ever reign supreme on the earth. And we believe that to be entirely possible in your lifetime and ours. But present-day theology can never do it. In a nutshell, our belief is in THE ACTUAL PRESENCE OF THE INVISIBLE SPIRIT OF GOD IN EACH OF US, WAITING AND EAGER TO MAKE ITS SUPERALTERNATELY BEAUTIFUL PRESENCE KNOWN. And we believe this can be done, and we have proven it can be done entirely outside of any theology on the earth today. If you prefer church dogmas, creeds, rituals, etc., this Teaching is not for you. If, however, you want to actually find the Living Spirit of God, this Teaching IS for you. You will find no atheism in it, however.

Cordially yours,

Frank Robinson
