Dr. Frank B. Robinson

MOSCOW, IDAHO

CABLE ADDRESS
"PSYNA"

My dear friend:

Thank you for your answer to our advertisement. We are bringing to the American people, knowledge of a Power so stupendous that when one begins to really consider it, the imagination is staggered at the immensity of it all.

The future does not look very bright. The way this war is going does not look too good either. But it's very significant that in this hour, when everything looks so black, that knowledge of this staggering spiritual Power has come to the human race. It makes me almost shout for joy when I think what a place of beauty this old world will be when all men and women, everywhere, come to know the staggering Power which can, here and now, do so much for them. And everyone can use this Power. Even you.

For this is not a human Power we are teaching. It is a super-human Power. It is the Power of the Spirit of God. It must not be confused however with old-fashioned ideas and theories of God which have held sway for the past 2000 years. This is a new conception of God. Moreover, it is not theory--it is fact, as thousands upon thousands of letters to us testify.

With this invisible Power, you can do what you will, for it exists for that express purpose. If there is illness, poverty, unhappiness in your life and affairs, this amazing Power of the Spirit of God can replace those undesirable things with an abundance of their very opposites. I know. For before I found out who and what God really is, I was perhaps the world's number one failure. Today? Well, This Movement is known the entire world over. I own control of the largest circulating afternoon daily newspaper in North Idaho. The Robinson Professional Building also. And the Exclusive Prescription Pharmacy. I live in a beautiful home with a lovely pipe organ in it. In fact, everything I need has been brought into existence not through any power I possess, but because I know how to draw upon the invisible Spirit of God for these things. And to know how to do that is something worth knowing.

Let me warn you however, that I personally possess no power not possessed by you or any other American. All I have done is made the discovery that every normal human being can find and personally know how to draw upon the Realm of the Spirit of God for every right thing he or she needs here and now. And that means you.

Operating as we do, exclusively by mail, we must make a charge for our Teaching. However, if you do not like the Teaching, send the Lessons back and your money will come to you in full.

1

Cordially yours

Frank B. Robinson
