My dear friend:

To say that the new conception of God being brought to the human race by "Psychiana" Inc. is revolutionary is putting it mildly. To think that we all have been living in ignorance of the most stupendous Power this world will ever know, is pitiful. Yet that is exactly what we all have been doing.

I was raised in the shadow of the church. The religion of my parents was the Christian religion. And I tried oh so earnestly to find the Power of God through the teachings of my parents. I believed everything they told me. I believed that I could be either "saved" or "damned". Yes--I tried earnestly to secure the evidence that Almighty God had spoken to me, giving me of the superlative Power that must be God.

But the heavens were closed. Years of praying brought no light to me. No Power. And I knew that where God is there must be Power and lots of it. And then one day, right here in this little City of Moscow, and after talking with God, I gave to the world what I believe to be the actual truths of God. They stagger the imagination. They seem unbelievable. BUT THEY WORK. For it was not long until letters from all over the country began to pour into my office, telling me what was happening since those who were studying with me began "talking with God".

Here--a case of incurable illness stopped by the Power of the invisible Spirit which is God. There--a case of a man broke, and down and out, He contacts and uses the Spirit of God, and lo and behold he soon is living in a beautiful home which he owns. He and his wife who were divorced live together again, happily re-married.

I could sit here for several months relating to you similar experiences of what this newly-discovered Power of God is doing. But I won't. What I am interested in now is in bringing this provable knowledge of the Power of the Spirit of God to as many people as fast as I can. I want YOU to know and be able to use this amazing Power. Then, I want you to throw this Power against the forces of death and destruction which are threatening our beloved American way of life. These forces are powerful. It may take the Power of Almighty God to stop them.

Pretty soon I expect all America to come to know the amazing brightness and Power of Almighty God--right here in our midst. I want to teach as many people I can how to use this Power. For it DOES exist. And YOU can find it, and you can use it.

Cordially Yours
