"PSYNA"

My dear friend:

When a person begins to grasp the staggering significance of what this newly-discovered Power of the Spirit of God can actually do, here and now, it seems to flash across the imagination like a blaze of illuminating light.

To have the absolute assurance that illness, poverty, sorrow, domestic unhappiness--all these can be banished by the superlative, divine Power of the Spirit of God is enough to stagger anyone, is it not? You and I have been taught that Almighty God was killed on a cross some 2000 years ago for the sins of YOU and ME. But we were not born that long ago, were we? That story can hardly be true, can it?

Millions think it is. But millions can be mistaken, can they not? Millions of Germans and Japs are most certainly mistaken when they believe their leaders who tell them that Almighty God put the Japanese and the German race on the earth to bring in a "new order". God help America if it ever comes under the yoke of either Germany or Japan. It would be just too bad.

Well I believe that the millions who say they believe that we cannot know God till we die, are mistaken. An analysis of the origin of that story does not prove sound. There are four gospels in the Christian bible because animals have four legs. Did you know that? Well it's true nevertheless.

No, my friend--the picture of God given to the earth today by any system of religion cannot stop either Hitler or the Jap. Their theologies are powerless. Absolutely and completely powerless when it comes to DEMONSTRATING or MANIFESTING THE POWER OF GOD ON THE EARTH. They do not believe God lives on the earth. They say he is "in heaven". But you will know better than that when you begin to study with us. If you are like thousands upon thousands of others, you will begin at once "talking with God". And when you can do that, and when you can use the Power of God in your everyday life and affairs, is there any good thing God cannot bring to you? Of course there isn't. For there can be no limitations to the Power of God. And that means personally as well as nationally.

4

Cordially yours

Frank B. Robinson
