

THE "PSYCHIANA" RELIGION

FRANK B. ROBINSON, D.D., Ph.D.
FOUNDER AND DIRECTOR

MOSCOW, IDAHO

OUR LAST INVITATION TO YOU

My dear friend:

It has been said the greatest fault the American people have is the fault of procrastination. They will not do today what can be done tomorrow. They seem to be careless about the things of life which matter most.

Perhaps that is the reason we have not yet received your application for membership in The Psychiana Religion. It probably is. But it still is not too late to allow us to bring into your life, the greatest spiritual Power this world has ever known. But we cannot do that unless you allow us to—can we?

We very much dislike to discontinue inviting you to find the Power of God, yet we cannot continue to invite you indefinitely. We have already spent quite a little bit on you, trying to tell you what the Power of God can do for you. We know that you want this Power in your life. You could not tell us different.

Yet you do not send us your application for membership. That is not because you do not want this new discovery of the Power of God to come into your life. Nor do I believe it is because you are not convinced of my honesty and integrity. So it must be that you are just an average American—a procrastinator—and perhaps a bit careless. Could that be it?

Well in this last invitation may I say to you that if you allow this opportunity to pass by unheeded, you will be committing the most foolish act you have ever committed. Sooner or later you will hear about us again, for this new concept of God MUST SWEEP THE WORLD. How sad it would be if say, ten years from today, you were to send for this Teaching, and then find the Power of God through it.

Do you want to miss those years which, through the Power of God, can be filled with such happiness, joy, and peace—the like of which you have never known before? I am sure you do not. So in closing this last letter to you, may I not suggest that you RIGHT NOW fill out the membership-application and get it in the mail? Remember—we are trying to help you—not us.

May the Spirit of Infinite Power be you in any event. Good-bye my friend.

Cordially yours

Frank B. Robinson
