

# *Announcing A*

## **NEW**

# *Psychiana Publication*

Many of our members have requested in the past that we publish a monthly magazine or bulletin. We considered these requests and then got to work on just such a publication. We have included in our new bulletin, six full pages of articles and special features which all Psychiana members will enjoy.

The new bulletin is 8½ x 11, and will include each month an article designed to show you how you may better enjoy your daily living and to give you inspirational slants from some one else's experience. Due to great demand, we have included a children's section, and now the younger set can be taught the great Laws which govern this Universe.

Another new feature will be the Question and Answer section which will be devoted to the answering of questions sent in by our members. This is your column and we do hope that you will take advantage of it.

All in all, we feel that this publication will provide each of you with a better understanding of the principles on which Psychiana is founded. A subscription form is enclosed for your convenience, and the cost of the new Psychiana Bulletin is just \$1.00 for 12 full issues. Be sure not to miss an issue--send your subscription in today!

# We Give Our Thanks!

We recently received a very nice letter from a young lady in Ireland, in which was enclosed a letter from her brother who is in prison here in the United States. The brother of this young lady is a Psychiana member.

Here is this lady's letter in part: "...Enclosed you will find my brother's letter. By it you will understand everything much better. My dad is 4 years dead and poor mother an invalid confined to her bed. I do not work as I have to stay home and take care of her. Poor brother was our whole support, but you see where he is now. He cannot help us. Any kindness showing to either of us will be highly appreciated. My brother's birthday is November 3rd. Please send him a cheery note.

God bless you all from an Irish friend,"

In her brother's letter which she sent on to us, was told the story of how the study of Psychiana helped this prisoner to adjust himself to confinement and find spiritual peace of mind. He remarked of Dr. Robinson, "He truly walked and talked with God and taught me to do the same." We sent this man a birthday greeting on November 3rd, and informed him that we were sending to his family in Ireland a complimentary set of Psychiana Lessons, which was being made possible through donations which we received from our members.

Therefore, we wish to thank each and every one of you who sent donations in to us this year as through them we were enabled to bring this family apart a greater measure of happiness and a helping hand of friendship.
