Dr. Frank B. Robinson,

Have been wanting to write to you since my lessons have come to a close to thank you for the most wonderful experience of my life. I can not thank you enough for setting me straight (about) this great Life Spirit. Things have begun to straighten out. Really, the unbelievable is happening.....

Believe me, from then on the better things of life for which I longed and needed are coming to me. I know the way to get the better things of life. Also the peace and joys of the Spiritual Law of Life (are) becoming clear to me.

When the connection with this Life Spirit was made, I never experienced anything like it before. Words cannot explain it to a person not knowing it.

I do not claim to know very much of it, as yet. But each day as I study those lessons over and over it seems it becomes clearer to

me. There's no need for me to tell you of the joys I experience for as you say anyone knowing this Law does not need to be told. Thanking you for those wonderful lessons I will close for now.

Respectfully your Student,

G. H.
