MEMO FROM:

Alfred B. Robinson

I have just been looking over the advance copy for Sybil Stanley's article which is to appear in the March issue of *The Way*. The title for her feature article is **YOU ARE RICHER THAN YOU THINK!** and I thought it was one of the most inspiring articles I have read for some time. For instance, on page 6 of the manuscript I found this thought:

"Most of us go through life without even asking for what we want. Yet we use that same God-Power in wantonly asking--
FOR WHAT WE GET!"

"There is no large or small in the 'realm of asking.' But be careful what you want-- for you're likely to get it."

Then Sybil Stanley goes on to tell of a concrete example in her own experience whereby that which she *earnestly* desired and *needed* was provided for her through an amazingly simple but dynamic affirmation.

I know you will be pleased not only with Sybil Stanley's article but with this entire issue. So in order to make certain you won't miss out on this big March issue, simply fill out the order form and mail it in the return envelope which we enclosed. And remember --- *The Way* comes to you 4 times a year for only \$1!

Thank you for your time.

Alfred B. Robinson
