Lesson 2.
A FRIENDLY CHAT

WITH
OUR MEMBERS

• • •

A little heart-to-heart talk with all Members of The Psychiana Religion, new and old. Please keep this little message close by, and read it whenever you can. It is designed to take the place of tens of thousands of personal letters which it is impossible to write. I only wish I could answer them all. The growth of "PSYCHIANA" however is so fast that it has become a physical impossibility. So please accept this as a personal message from your friend and teacher,

Frank B. Robinson

Many of our Members have been with us since the Movement started some twenty years ago. Others have recently joined. Many have been with us say five, ten, or fifteen years. It makes no difference. This message is to everyone who has ever joined this organization and who has watched its phenomenal growth, and the achievements which have followed our simple efforts. These achievements have all been brought about, not thru any ability or business acumen possessed by me, for I do not possess either. But when any human being allows the Spirit of God to illumine his or her life, and when the one idea is to reveal the actual Power of The Spirit of God to humanity, then the fullness of the Power of God at once flies to the help of that one.

This is what we have seen happen here in Moscow, Idaho. You will recall then some twenty years ago, and for many years later, I personally answered every letter coming to us from Members. Every payment was personally acknowledged. Then came the war, and the shortage of paper and the shortage of help. That had to be discontinued, and our Members were notified accordingly. During, and after the war, men and women have been enrolling for this Teaching in numbers greater than ever before. For instance, I write this in July 1947. To date, this year, more Members have joined with us than joined in the whole year of 1946, and 1946 had about the same story over 1945. And so it goes.

There is nothing I would like better than to personally answer every letter from every Member. I would like also to personally acknowledge every dollar which is sent to us by our Members, in fulfillment of their obligations. The Adminis-

trative office does that. But I'd like to do it too. However, the time has come in this Movement when it is forging into the very forefront of the national religious picture. I am receiving call after call for personal appearances in different groups. Rotary Clubs, Kiwanis Clubs and large Universities have all seen me on their platforms during the past year. I expect to be on a great many more platforms next year.

I feel that this is something I absolutely should do. Now that other religions are beginning to understand that we really have something they do not have (The Spirit of God), naturally they are coming round to our way of thinking. It will be a long time until they throw overboard their foolish, picayunish concepts "God hanging on a cross" for the much more potent experience of The Spirit of God in their lives. But they ARE coming to see the Great Light. The Methodist Advocate, for instance, not many months ago, asked every Protestant minister to "declare a moratorium on present preachments," thundering from their pulpits instead, "I HAVE TALKED WITH GOD." Now we all know where that phrase came from. I was happy to see that.

Then again, Dr. Marcus Bach, a Professor in the Dept. of Religion at Iowa State University, one of the brightest, most up-and-coming of all young theologians, wrote a book which was published by BOBBS-MERRILL. The title of the book is "THEY HAVE FOUND A FAITH." In that book, eight of the newer major religions are analysed, and Dr. Bach's findings make very interesting reading. I suggest that you get a copy of that book if you have not already done so. We have it. It sells for \$3.00. Then again, if you read

"INSIDE THE U. S. A." by John Gunther, you saw once more that your teacher is hitting the journalistic "high-spots." In other words, while we have attracted considerable attention ever since we released this Teaching, the attention which has been paid to us is growing as the years roll by. May God in His infinite Greatness make it possible for me to see the day when the whole earth may see and know the greatness of The Spirit of God in human lives.

There is one thing you may be sure of—you may be very sure that I shall be in the thick of the fight for God, pitching with all the courage, power, and fearlessness I have. There is just one thing this world needs, and that is GOD. Not the "god" of the dark ages who damned souls into eternity who would not "believe," but the Great Wide-open God which not only created this entire universe and every human being, but who still actually lives, with all his Power, IN THOSE LIVES. That is my message to the world. I shall never have any other message. I want no other message. Given time, this one single message will wing its way round the world. We may have to go thru another war first, but the day is coming when all men and all nations shall live together on this earth, forever, in full knowledge of the Power of The Spirit of God. That day has to come. It is the only logical conclusion I can come to. Death does not belong in this picture, and when God is fully known, death cannot exist. So look up beloved. Look up.

● ● ● JUST A FEW INSTRUCTIONS

There are a few things you can do to make my journey a bit easier. Here is the first: Please

do not write to us unless you feel that you absolutely must. And do not look for a personal acknowledgment of payments from me. Our Administrative Dept. will take care of your obligations. You do your part by sending them to us absolutely on time. Do not make us spend additional money in "reminders." Remember, your failure to send your contracted payments to us, could prevent others from getting these priceless God-Truths.

Now don't misunderstand me—if you have trouble understanding the Lessons, *do not fail to write*. Either I or some of my assistants will have the time to answer your letters. But, unless it is necessary, please do not ask me for a personal answer. These Lessons are very easy to understand. The simple exercises are dynamic. So do them. If you need help, be frank to say so, but if you don't, please do not think I am unmindful of you because you do not receive personal answers any more. My assistants are quite capable. They can give you the answer you need. Wires for help in cases of illness are all right. Each one is given personal attention. I'm merely writing this little message to you in order that you will not think I have lost interest. Quite to the contrary, my interest in the things of God was never at such fever heat. The time is short. Great and grave days lie ahead of us. Believe me, I am figuring out just how I can tell more and more men and women what The Power of the Spirit of God can do for them.

There is one more thing you can do. You can help me get the names and addresses of others whom you know would like to know something factual about God. So won't you fill out and send

the "Friend List" which is sent to you several times in Lessons? Thank you very much. By the way, when writing to me, always put your Membership number on the UPPER LEFTHAND CORNER OF THE FIRST PAGE OF YOUR LETTER. That saves looking thru hundreds of thousands of files to see if you are a registered Member or not. Now in conclusion, I am sure you will understand the object of this personal circular. I am with you all 100%. I want to help you. I will acknowledge every letter which actually needs an answer from my office. But if you have no problems, please do not write. Keep your monthly remittances coming to us regularly. If you do this, then, all of us pulling together, we can light a light for God in America which will shine through all the ages. May the Spirit of The Infinite God be with you always.

Sincerely your friend and teacher,

Frank B. Robinson
