IS THERE SOME SPECIAL THING IN LIFE YOU NEED?

My dear friend and fellow-Student:

Since I wrote the other letter which you have in this same envelope, the thought occurs to me that perhaps there is some one thing more than another which you would like to receive from the Realm of The Spirit of God. Most people join this Movement because they have found life without authentic knowledge of God, to be a rather empty thing. Our heavy volume of personal mail is evidence of this. It is my earnest desire to reveal the Power of the Spirit of God to the best of my ability to the largest number of people in the shortest possible time.

Now if you will cooperate with me in this matter of our accounting, and send us a check or money-order in full, (after deducting one-third, of course), I'll be willing to give you some added time. If, when you send us your check or money-order for reduced bill, you will write me a personal letter, telling me just what one thing you think is necessary to make your life completely happy, I'll analyze that letter personally and send to you my best personal advice. This is just a little added gift to you by me, for cooperating with me in helping me eliminate some of the very heavy bookkeeping.

As you know, I operate this religion on a strictly non-profit basis. Often, it takes all the ingenuity I have to make both ends meet. I believe I should give a little special attention to those who show a spirit of cooperation with me. So then, with your check or money-order as per enclosed statement, ask me your question and I'll send you my personal answer.

Cordially your friend,

Frank Robinson
