

A Solemn Obligation

. . .
TO MY STUDENTS
EVERYWHERE
. . .

As soon as the Power of the God-Law begins to make itself felt in your life, and as soon as you begin to realize the truths of God as this great Life-Spirit exists, I believe it to be your solemn duty to spread the message. This world is dying for a little glimpse of true God-Power, and, knowing the truth of the existence of God, and the falsity of old pagan theories concerning God, I am now asking every Student to do whatever he or she can do to spread the truth as it has been revealed to you by this Teaching.

When the United States learns the truth of the present existence of the God-Law, with all its power to bring peace, happiness, joy, and material and spiritual abundance, and when it learns the falsity of what has been taught as the truths of God, the chances are that this "PSYCHIANA" Movement will sweep into hearts of men and women throughout the nation. It will tend to abolish war, and economic security will be an assured fact. Unemployment, crime, illegal practices will become unknown when the Power of the Life-Spirit operates in human lives, throughout the nation.

So please recognize your personal responsibility and quietly, but effectively, tell others of this Teaching. Talk it wherever you go, for men and women will thank you, after they have found this God-Power, for calling it to their attention. I suggest you send for a few packages of the 6,000-word Lectures, and assist me in spreading the Truths of God. Thank you.

Frank B. Robinson
