

A Merry Christmas.

★ ★ ★

To wish my members a Merry Christmas at a time when we do not know whether we shall see another Christmas, may seem out of place. Nevertheless, I send these greetings to you all. Today the newspapers announced a statement from Molotov which can only be construed as meaning that Russia has the atom-bomb.

That nation, whose sole objective is to drive the name of God from off the face of the earth, and kill all who believe in God, will use that bomb if it has it. If it does not have the bomb now, it soon will. The future is not bright. I believe, with both feet firmly on the ground, that there is a battle to the death coming up between the forces which would destroy God if they could, and the Powers which God has, and will manifest soon.

That day will come as a thief in the night. But it will come. Every thinking American knows that. There is no way it can be stopped unless all who believe in God unite and get very busy very fast. A Movement for that express purpose is being planned now by your leader, and you will hear more about it before too long. So have a Merry Christmas, but keep still and quiet before God, and speak with Him often.

Sincerely your friend,

DEC. 1947
