MOSCOW, IDAHO

My dear friend and fellow-American:

I am writing to ask you how you enjoyed the lecture I sent you two weeks ago? Did it not thrill you to the very core? Then imagine how I felt when, after 43 years of absolute failure, not knowing the Power of the God-Law, I suddenly found myself transformed from poverty to wealth, unrest to peace, and confusion to complete happiness.

Yes--it was quite a transformation. But there are alive today, hundreds of thousands of Americans, just like you and me, who too have found the same scintillating, staggering Living God-Law that I found. I am enclosing a letter from a man in Egypt. It is a photostat and certainly this man, when I met him in Egypt, literally radiated the Power he had found by following me closely in my Lessons.

Oh yes--the Power's there. It has always been there. But man has not known how or where to find it. You have this staggering Power at your disposal even now--but you don't know it. There isn't a thing you can possibly desire, that is for your own good, that you cannot secure from the invisible Realm of the invisible God-Law. Not a single thing. For the Law which is God is older than creation. It has never failed yet. It isn't very apt to fail you either.

Then also, I have enclosed just a very few copies of letters which corroborated what I am trying to say to you. They are all happy, and full of joy. They have all found the Power. And, my friend, will you believe me when I tell you that recently we burned up over 500,000 of such letters because we do not have room for them. And this in spite of the fact that only this year (1943) we were compelled to buy another large building--one of the largest buildings in Moscow, to help us accomodate the ever-growing demand for facts concerning the indwelling God-Power.

Oh yes. I want you to know the Power of Almighty God, For when I have disclosed this Power to you, nothing will ever stop you from telling others about it, and when this world finally discovers where the Power of God is, there will be no more gruesome, ghastly, wholesale murderings which are going on today. If our national leaders only had made the discovery I have made, the Axis could be brought to its knees in rapid-fire order. They'll find it someday. The whole world will have to. For such a TRUTH as this cannot remain hidden very long. As soon as you mail in your enrollment application, I'll be in a position to tell you in detail how you may find and use, not my power, but THE POWER OF ALMIGHTY GOD.

Cordially yours,

*Frank B. Robinson*
