

"PSYCHIANA"

MOSCOW, IDAHO

Sept. 1, 1935

To our Building Fund Subscribers:-

At this time, I think it is due to our Building Fund subscribers to let them know the progress we are making.

The building is about half completed, and by the end of November, it will be fully occupied. We were fortunate in being able to lease every suite of offices in this building to leading physicians and attorneys in Moscow and after the building is paid for the revenue obtained will help spread the gospel of "PSYCHIANA" throughout the world.

As I stated in the last issue of the magazine, I have arranged a \$25,000.00 loan, and this with about \$10,000.00 cash I have been able to put into this building will see its completion.

There will be no need for any of my students to send in any further donations, and it is my intention at some time in the not far distant future to send back a check to every student who has helped make this new building possible.

I appreciate the spirit shown, I assure you, and tender each one of you my heart felt thanks.

FRANK B. ROBINSON

P.S. If any subscriber to this fund would like his contribution returned now, we shall be happy to do this.
