

Private Study of

DR. FRANK B. ROBINSON

TO OUR "PSYCHIANA" STUDENTS THROUGHOUT THE WORLD.

As you know better than I, our brave and beloved leader, Doctor Frank B. Robinson, has been giving himself completely to the work of his California Students for the last three months.

Morning, noon and night, he has been on the go--by train, auto, taxi--in program or in conference, so each and everyone of you might meet him face to face, shake him by the hand and benefit by the very best spiritual assistance he knew how to render.

Just before Christmas, he rushed back to Moscow and almost without relaxation or rest started for Los Angeles again. Then, after fighting snow and drifts and being delayed for days by the storm, he started to speak at Trinity Auditorium, when he should have been in bed, and for the first and only time I know of, collapsed under the strain and the burden more of us should have shared.

However, you will rejoice to learn that he has been ordered to behave himself and rest completely, just outside of Los Angeles, for a time, where he will store up renewed strength, dynamic and consecration to help you and me keep "Psychiana" growing as well as going.

As you know, sometimes, "There is no place like home," so we are hoping to have him back in Moscow before long, and we will let you know more about what he has been doing and his plans for the future in our "Psychiana" magazine.

We know you will bear with us, as he regains his old-time vigor and power, and remember both him and his splendid family with your very best spiritual assistance in the same generous and sacrificial way that he has cooperated with us at just those times and places, where we did not know what to do, where to go, what to say, or which way to turn.

May the Power of the Living God be wonderfully with you and yours and allow me to personally assure you that you will have a message direct from Doctor Robinson, with all his God-given precision and inspiration, just as soon as we help him turn the better days his way again.

Sincerely and gratefully,

C. W. Tenney
Assistant to Dr. Robinson.
