Dear Friend and Teacher:

Now that my wonderful course of instructions is finished I want to express my great joy and gratitude for having been privileged to study with you and for the marvelous understanding I have gained.

In my application for membership I stated that I had spent twenty odd years in the studies of all the Nine Great Religions, all the isms and ologies, New Thought and Metaphysics, but through all my searching I had not found a satisfactory answer, to my mind, as to God, His Universe and our relation to it. I really had become so confused and discouraged I felt I was incapable of understanding these Mysteries which seemed so clear and accessible to others, and that I hoped with all my heart that in your lessons I might find a key which would unlock the door to this insight.

In your last lesson you say "I have put into your hands the Key that unlocks that door." Dear Teacher, my answer is—that it is a Golden Key that has at last opened the way of illumination of the God Law, the Spiritual Realm and our place in it. And while I have merely touched the hem of that understanding I know the way clearly and definitely, all the debris of creeds and dogmas swept away and a concise, intelligent knowledge fill their place.

I have enjoyed every lesson and every minute of my study beyond words to explain. My life has undergone a complete change in many ways, the greatest of which is the one described in your 18th lesson, which came first and just like a calm after a terrific storm. Then came the reunion with my family and home, which I now enjoy. Gradually my financial conditions are improving and I hope to be able to continue my studies with you.

I cannot describe the sense of freedom, peace and hope this new understanding has given me, nor can I fully express my sincere gratitude to you for your Nobility of Soul, your efforts and love for sharing with others your Spiritual Wealth.

May your blessings ever increase.

Sincerely your Student,

D—— M. B——.
