

Dear friend and student:

Here is your sixth Lesson, and in it are some of the most profound truths it has ever been your privilege to study. There are, in this Lesson, some of the most advanced scientific truths, facts, and theories, that you have ever read. They are potent--they are interesting--they are dynamic. Better than all however, you are here beginning to have your eyes opened to the staggering truths of this course of instruction.

I have very religiously shunned the use of scientific terms, for the simple reason that a large percentage of my students are men and women of quite mediocre circumstances, etc. Therefore, I have written throughout this entire course of instruction, as simple as I possibly can, and so simple that any man who can read and think even a little bit, can easily grasp the stupendous truths, heren contained, even though they be the most advanced known to either science or physics, or even metaphysics.

Study carefully---spend lots of time with me---learn this mighty LAW, for if you want the benefits of life, both material and spiritual, they are here for you through the application of this marvellous GOD-LAW.

Sincerely your friend,

*Frank B. Robinson*
