"PSYCHIANA"

A MOVEMENT OF THE SPIRIT OF GOD ON THE EARTH

LETTER OF TRANSMISSION WITH LESSON 49

Dear Fellow-Students:

One can get a clearer conception of the magnitude of the operations of God from the celestial sphere than one can from any other source. All of God's manifestations are marvelous. How marvelous, we do not realize. But when we look up into the heavens, we are constrained to admit that God is a very big God. I pity those who tell us they hold in their hands the keys to the kingdom of God. No thinking man can believe that. It's fine to hold people in superstition and fear, but it wouldn't hold me very long, I promise you. And I don't believe it would hold you either. If God ever had "keys" made to the Kingdom of God, he made so many of them that we each can have one. For it is not the will of God, nor the desire that any miss the beauties and glories of that invisible Realm. Don't let anyone ever tell you that if you do not believe their dogmas or creeds you will be eternally lost. Such teaching as that originated in the Dark Ages, and it never should have been allowed to leave them. It does NOT belong to the twentieth century. It was used in the days when you paid religionists to forgive your sins. Now, knowing the nature of "sin," we just simply don't—that's all. Those who know the existence of God will never commit very many grievous "sins." Their minds are "single" to God, and, through that singleness of vision, they see God. Don't forget, either Dr. Tenney or I shall be happy to have you write to us. We are exceedingly busy with our unusual growth, but we always find time to answer every letter. If we have to add new stenographers, we shall do so, for we believe our Students will continue to support us to the very limit financially.

Cordially your friend and fellow-Student,

Frank Robinson

QUESTIONS

1. Why were Copernicus, Galileo, and other scientists persecuted? Were their theories correct?
2. Is this earth the center of the universe?
3. Is ours the only solar system in existence?
4. Why was the sun created? Could there be life on the earth if the sun did not exist?
5. Our immediate planetary sphere consists of how many planets?
6. What is the one outstanding characteristic of "nature"?
7. Why does Doctor Robinson call attention here to the ridiculous story of God sitting in "heaven" with Jesus at his right hand?
8. As long as we are asked to believe anything foolish or unreasonable of God, what condition will exist?
9. As men and women grasp the larger picture of God, what is the result?
10. What caused this scheme of things to come into existence?
