"PSYCHIANA"

A MOVEMENT OF THE SPIRIT OF GOD ON THE EARTH

LETTER OF TRANSMISSION WITH LESSON 50

Dear Fellow-Student:

This Lesson, No. 50, carries us again into the celestial sphere above, below, and all around us. It's a very interesting Lesson. Later, we shall go into far greater depths in these Lessons. But it's better to go slowly. Grasp what I am teaching you well. Write out the answers to every question at the end of every Lesson. More than all, though, allow the Spirit of God to become more and more the controlling impulse of your life. If you keep quiet, and your mind keeps expectant, then you will find that God, in some of the most unexpected ways and places, will reveal more and more to you just who and what God really is. There will be established a constant communion between you as a physical body, and you as a Spiritual body. For to know fully the Spiritual, and to keep the material subservient to it, is to discover the Pearl of Great Price. If I take a bucket of water from the ocean, and keep it in my back yard, it will not even move. It will stay there until it evaporates. But if I throw it back into the ocean, it immediately loses its "bucket" identity, and becomes once more a part of that vast ocean. And you, too, beloved, must keep constantly IN THE OCEAN OF POWER WHICH IS GOD. When you do that, you have lost your physical identity in the GREAT IDENTITY. I keep hammering at this because I am so anxious that you all come into this glorious experience where God controls. When God does control, your every need is supplied, and well supplied, too.

Cordially your friend and fellow-Student,

Frank B. Robinson

QUESTIONS

1. Approximately how many suns are floating around us?
2. Why is the literal Power of the God-Law missed by many millions of people?
3. How can you guard against making this mistake?
4. You are the one who sets the objective; what then does the God-Law do?
5. If you do not win from life the best things it holds for you, what will be the reason?
6. Practically every scientific mind today admits that the answer to the problem of the universe and its Creator lies where?
7. What is the moon?
8. What is the one Law in the universe?
9. Through what one thing can you obtain things you need in life?
10. Why is man so vastly superior to the celestial sphere?
