

PSYCHIANA ----- NO.2

STATION ANNOUNCER: We present, "Flashes of Truth."

ANNOUNCER: There has probably never been a program on the air for a long, long time that has caused so much comment - so much discussion-- as Dr. Robinson's last broadcast. From that one short talk, he has received countless letters from thinking people everywhere. Yet this is really not to be wondered at - when you consider that in the short space of one year, Dr. Robinson's amazing discovery flashed clear around the globe - that today he has students in every part of the world. That in itself, is evidence that he has discovered something big, something vital - something extremely important to every one of us. Before his last broadcast, I promised you that he would reveal some amazing facts - some illuminating truths. And I make that same promise again. It will be very much worth your while to listen to every word he has to say. And so once again we will hear the voice of Dr. Frank Robinson - the man whose work is one of today's international topics. And here is your guide, ready to take you to Dr. Robinson's study.

(ORGAN ALONE FOR INTERVAL - THEN BACKGROUND - "END OF A PERFECT DAY" - MS 7355 - TRACK #3 - TIME 3:42)

GUIDE: Through the magic of radio, let's take a trip away out yonder to a little home which nestles snugly among the pine-covered hills of Northern Idaho. The home of Dr. Frank Robinson. At this time of day, we will probably find him seated at the console of his magnificent pipe organ; and as we walk up the path toward the house, we pause to listen.

(SWELL MUSIC AND COMPLETE THE NUMBER)

(KNOCK. DOOR OPENS)

GUIDE: (off) How do you do, Doctor.

DR: Well! I'M certainly glad to see you back again. Won't you come in?

(DOOR CLOSES)

DR: Make yourself comfortable.

GUIDE:(fading in) Thank you, Dr. Robinson. We were just listening to you play the organ. I only wish I had the ability on the pipe organ you have.

DR: It is not so much ability as a recognition of the constant presence of the power controlling the vital things of life.

GUIDE: Is that the power you spoke of during our last little talk-- the power that a person can, as you said, tune in on - tap - use to make his own life happier, fuller, more successful? Is that what you mean?

DR: That's what I mean exactly - the power that created the universe.

GUIDE: But that's God, isn't it, Dr. Robinson.

DR: It all depends on how you think of God - how you define the word.

GUIDE: Well, the major systems of religion in this country teach that God is the infinite creator of the universe, and that he came down to earth in the form of a man. Isn't that correct?

DR: Yes - that's what they teach.

GUIDE: Then we are told, I believe, that the message of salvation brought into the world by this man, was accepted. Is that correct?

DR: That is correct.

VISITOR: We are also told that instead of his message being accepted, the One who brought it was crucified and buried, after which He arose from the grave, ascended into Heaven, where He now is. Is that a fact?

DR: That is exactly the teaching of most of the major religious systems - only it is not true.

GUIDE: You mean to tell me, Doctor, that this story is not true.

DR: Well, what I am going to say now will probably cause consternation among some religious organizations, although they themselves know me very well and they have been unable to date to successfully refute one thing I have ever written in any of my books or magazine articles. To be honest with yourself and with myself and with the one hundred and twenty million Americans in this country, I am bound to say to you that instead of the story being original it is only an absolute copy of similar stories held by other religious organizations of far greater age than this so-called Christian philosophy being advocated today. Furthermore, would it surprise you if I told you that my last book has in it a list of sixteen crucified world Saviors prior to the time of Christ? Would that surprise you?

GUIDE: Yes, it would, for I had no idea that the crucifixion story, the resurrection story and the immaculate conception story had ever been told before the time of Christ.

DR: That is exactly what millions of people think who do not know the facts and have not taken the trouble to find the facts.

GUIDE: Well, Doctor, I give you credit for knowing what you are talking about, for no man in five years time could have met with the amazing response you have had unless his philosophy of life were true and did actually answer the religious question for hundreds of thousands of people.

DR: I make no claim to possessing any superior knowledge or ability along religious lines. The only claim I make is, that after many years of honest investigation of the story told to me by my father, who is a Baptist preacher, I have found that story to be absolutely untrue.

GUIDE: Well then, Doctor, in your opinion, might I ask you, where the truth does lie?

DR: I am glad you asked that question. Now let me answer it by asking you a question. Where do you think is the place to go to find the secrets of life? In other words, has it ever occurred to you that instead of the great God of this Universe manifesting himself to only one man two thousand years ago and then hiding himself, that this great creative Intellect might be still manifesting himself to us - and has it further occurred to you that the doctrines of God might be very effectively hidden from the human race because they are so totally different from the supposed doctrines you and I have been taught from childhood? Did that ever appeal to you?

GUIDE: Well - I - I'd never thought about it in exactly that way.

DR: You and I do not have to wait until we die and gather beyond the tomb before we can know the existence of the great God-law behind this universe. We can find out that Supreme Intelligence here and now.

GUIDE: Well, Dr. Robinson, that is a stupendous statement. Now, will you explain to me please just how we may find the actual power of this God-law, as you call it, and will you also tell me please in what way that great God-law manifests itself in the human life after you have found it?

DR: Well, I surely will! And you are going to be a different man after this interview. Instead of God coming down to this earth in the form of a man and all the rest of that, let me say to you right off that God is no personality of any kind and never was. The supreme Intelligence which caused this created Universe to be is fundamentally a spiritual law. And you asked me, I believe, what the manifestations of this Law were? Well, now, what do you think they would be? What are the things you need to make your life what you feel it should be? Isn't there a feeling within you that you are only

partially living up to the opportunities you have? Do you feel supremely happy in your accomplishments today? You certainly do not! Alright now - the spiritual God-law, when found and intelligently followed, can provide every normal human being with whatever things may be necessary to his or her health, happiness and abundant success.

GUIDE: Will you say that again, Dr. please. I did not quite get that.

DR: There exists today, and there has always existed, a spiritual power so dynamic that all other powers or forces fade into insignificance beside it. This spiritual Law is God and it exists in order that every created human being may enjoy life's pleasures and benefits to the very full. As far as I am concerned, I am not in the slightest degree interested in stories told to me about what will happen to me in Heaven if I am a good boy down here. That, when you know the origin of the teaching, is the same philosophy of life and God held by every heathen and pagan religion the world has ever seen, and I do not want any of it.

GUIDE: Well, Dr. Robinson, I certainly can see now why your philosophy has caused so much discussion. You say the things taught us by present day religions aren't true. What's the test of that?

DR: The test is - whether or not these teachings will actually work. If the story advocated and taught by present day religions is true, it will work in my life and yours. And you know, and I know, that they do NOT work. You can try from now until the crack of Doom to find God by those methods and you will never find him.

GUIDE: Well, let me put my question in a different form - what is the test of your philosophy - your teachings?

DR: The very same test - does it work? I'd like to read you a letter that I happen to have here--

"Dear Dr. Robinson:

Reporting, as I promised, that after studying your Lesson Number Sixteen, I actually HAVE come into robust health, domestic and all-around happiness.

I am succeeding nicely in two lines of money-making business, whereas, I was ill, divorced, and down and out as a business man thirty-two weeks ago when your First Lesson reached me.

On April 30, 1934, I remarried my divorced wife. Why? Well, you know why. Now we are supremely happy.

Thanks for revealing a LIVING LAW to me that DOES work,

here and now.

Sincerely your student,

C.H.W."

And this is only one of literally thousands of similar letters that are in my files - letters that anyone may come in and examine and discuss with me. I haven't any deep, mysterious secrets - any hidden magical formula - nor is my philosophy difficult to understand. On the contrary it is very easy to understand. It is simply this: - Do you not think that the law which created this Universe - and keeps it running - the force which controls everything from gigantic planetary systems down to the electron - is powerful enough to give you and me the things we need for health, happiness and success? Of course, it is. All we have to do in order to have these things - right here and now - is to know how to use this law.

GUIDE: And your philosophy teaches us how to use the law?

DR: That is it exactly.

GUIDE: Well, Doctor Robinson, you've given me a lot of things to think about - a lot of thought to take away with me. But before I go, I would like to hear you play that selection again. Will you?

DR: Why, gladly.
