OUR CREED

- 1 We believe in the present existence of the Spirit of God, which invisible Spirit created the heavens, the earth, and everything that ever was created, including the human race.
- 2 We believe that Spirit (God), omnipotent, omnipresent, and omniscient, gave life to all of us, and, moment by moment, sustains that life in each of us.
- 3 We believe and teach that the invisible life which is in us is the Spirit of God dwelling in us; and that all may draw upon that Supreme Presence for everything needed in this life and in spiritual life forever more.
- 4 We believe that God has always been united with His Creation; that the human race was born, now exists, and still stands as the very highest product of God, and continues to have all the Power of God that has always been available to Him.
- 5 We believe and teach that in the moment men and women recognize the Spirit of God in them, with all its Power available to them, this world will be saved from the forces that do not believe in the actual and literal presence of God in human lives—which forces are today attempting to bring in a rule of material power through war, bloodshed, and other means which do not take God into the question at all.
- 6 We believe that greed and a desire to have what someone else owns, which are at the bottom of the sad world conditions which are manifesting on earth right now, will disappear if men and nations realize that all they can possibly need will be supplied if they will recognize God in man; that the wars threatening civilization will not be waged; and that the Spirit of invisible Life, actually dwelling in them, will bring to the earth permanent justice, peace, happiness, joy, and love.
- 7 We believe that God, right now, is waiting for men and women to draw upon His Power in order that these individuals and nations may have this abundance of everything needed to bring to them complete happiness and the realization of the

Spirit of God on the earth—bringing perfect peace, perfect health, perfect happiness, and an abundant life, which shall recognize God dwelling on the earth in our midst.

- 8 We believe that any individual can actually and literally talk with God, and that when this is done God always responds and brings into existence whatever things are necessary for the complete material, physical, and spiritual happiness of the entire human race, without any mediator or other agency coming between man and God.
- 9 We believe that through this complete harmony and absolute unity between man and God, here and now, illness, want, poverty, fear, distress, despair, and all other allied discomforts of life can and will be banished when the fact of the presence of God, in every human life and on the earth, is recognized.
- 10 We believe that each and all who were created by God, realize that the Power which created them can take care of them, spiritually, physically, materially, and will do just this thing if they will recognize this Omnipotent Power and let that be the controlling impulse of their lives.
- 11 We believe the founder of "PSYCHIANA" has a vision inspired by God, and that the Power following this Teaching is a divine Power, operating without building, entirely by mail, and reaching tens of thousands, hundreds of thousands, and even millions who, otherwise, could not be induced to interest themselves in religion or God.
- 12 We believe that when men and women everywhere find the actual and literal Power of God, and when we have taught the whole world this fact, then the Day of God will have arrived when men and nations will beat their swords into ploughshares, and discord, crime, and all other things opposed to God will be banished once and for all.
- 13 We believe that since "PSYCHIANA" is a non-profit, religious Movement, and no one connected with it is drawing either dividend or profit from its operation, men and women, called of God at home and abroad, will welcome the opportunity to share in the spreading of this God-given, inspired Teaching throughout the world by enrolling as members, providing scholarships for others, making substantial donations, financing a new building, or endowing the Movement to spread these simple truths, which will eventually bring complete salvation to both individuals and nations.
