

YOU CAN'T TAKE IT WITH YOU

● ●

The start of "PSYCHIANA" was very humble. An unknown drug-clerk stepped out on the promises of God and released a new conception of God which, in its first year, went into 67 different countries. All denominations are watching this Movement of God now. Many thousands are denied this Teaching because of our inability to send the Teaching to all who are asking for it. It's growing too fast. Depending, as we do, on the generosity of our Students for our income, it naturally follows that they are really the ones who decide just how many people receive this Message of peace and Power. We go the very limit, and right up to our financial ability, we send these Lessons out.

This Movement, With Its Responsibilities, Is Yours

It isn't mine. And through you, and only through you, will this message be sent round the world. It is your duty, beloved, to support us to the limit of your ability. God has placed a grave responsibility on every Student. It is through you Students that our revenue comes. If you send in much, then many can hear this Message. If you send in but little, the number is reduced. If you are doing all you can do, you are doing your duty. If you could give more, and don't, remember—YOU CAN'T TAKE IT WITH YOU. Anyhow, what earthly pleasure can bring the joy of knowing that YOU are working with GOD for the ultimate salvation of the world? I am very vitally concerned about bringing this new conception, and true conception of God to the whole world in the shortest possible time. The more you send to me, the sooner will this be accomplished. If, in addition to your regular monthly gift, you can send an additional gift, or if you can increase your monthly gift—won't you do so? Your reward will be great, I assure you.

Frank B. Robinson
