

# Before You Enroll Read Carefully

Every man and woman who enrolls for the Psychiana Teaching automatically becomes an Associate-Member of The Psychiana Religion. This is provided for in the by-laws of the religious corporation under which Psychiana, Inc., operates.

This Movement does not operate for profit. The only reason a charge is made for any of our Lessons, books, or other published works is that sufficient money may come in to pay our operating expenses. These expenses must be met by Members of the organization.

Our national advertising expenses are very high. Our postage bills are high. Our operating expenses are high. At no time in the history of this Movement has the income been sufficient to meet the operating expenses. It has had to be continually subsidized by wealthy friends of Dr. Robinson, and by its Associate Members. The making of money does not interest us.

If at any time during your studies of the Psychiana religion you do not find the Power of the Spirit of God in your life, or if for any other reason whatsoever you become dissatisfied with this religion, please return the Lessons to us, notify us that you are doing so, and everything you have paid us will be immediately returned to you.

If you are perfectly clear as to what Psychiana is and how it operates, we welcome your application. We want to make God real to you. And you want us to. **THERE IS NO POSSIBLE WAY YOU CAN LOSE FINANCIALLY BY ENROLLING WITH US. IF WE CAN'T HELP YOU FIND GOD WE DO NOT WANT YOU IN THIS ORGANIZATION.**

# Can God Provide Material Wealth?

Well if He can't, He cannot be God. Think for a moment. Every manifestation of everything around us is a material manifestation. This earth, and the celestial sphere about are material, physical manifestations. As a matter of fact, everything in creation is material. Yet most religions have limited Almighty God to operating exclusively after we are dead.

The Psychiana Religion, however, is not too much interested in anything that may happen after we are dead. It is, however, very much interested in what the Power of the Spirit of God can manifest here on this material earth, while we are materially alive. That Power gives us bread. It created the birds. It provided the minerals in nature, the coal in the earth, and it also created everything else which can tend to make man happy here on the earth.

When the Power of the Spirit of God is recognized in the life, that Power, being God, and being a never-failing Spiritual Law, can manifest through our lives with all the Power it has. We then, through the Power which created this earth, can secure through the Power of God, whatever necessary things we need. If we are financially poor, the Power of God can make us financially secure. If we are ill, the Power of God can make us well. If we are hopelessly lost in the maze of theologies, the Spirit of God can lead us out of the maze into the pure sunlight of the Spirit of God. Certainly God can provide material wealth.

Many people ask us why we do not amass a fortune, instead of operating at a loss. The answer is simple. Money does not interest us. All we need is sufficient to pay our operating expenses and grow, as we are growing. The person who places money first, misses the goal we believe. However, if financial security is what is needed, certainly Almighty God can provide it.
