My dear friend and Students:

Thanks for your good letter, which we appreciate more than you know, and more than I will try to say. Of course we will do the best we can for this friend of yours.

We certainly appreciate the good work you are doing, and are going to continue to do.

Write again, when and whenever time and mood allow, and tell of the new hope and better days continue to come your way.

Sincerely your friend and teacher,

C. W. TENNEY

Ref/P.

My dear Dr. Robinsen,

One of my Psychiana-students here in town, a certain Miss C.H. Raket, who follows the lessons is very badly handicapped by illness of her eyes. She asked me if it will be allowed to call on you for help in her awful physical condition. I told her that you have been always so kind to thousands of people who were in distress, so there will be no reason <sup>to</sup> ask your assistance in this question. One of her eyes is as good as out of order and the other is very bad. Her heart-desire is to find through the Psychiana Lessons the power of the Living God to cure her blindness, which is still making more progress.

The defect is a chronic one and she has it since a long time. She has tried all and every things from the best known medicine. She is a nice and good old woman, has in a certain way a deep conviction in Psychiana. I am absolute sure that this good lady, who is unmarried, an ex-teacher with keen intellect, good education, good linguist with a great erudition, would be in whole different physical condition, if she had the luck to have been a married woman and a mother of a dozen children.

I believe that the unsatisfied womanly desire has put a bad trick on her constitution, which is the case of so many unmarried women, nervousness and all different kind of neurology is often the trouble of many old maid.

In whole her manner, action, in the way as she expresses her feelings, her will is always the great power which is the tractor of her way of proceeding, to become the things of her desire. I told her that the way to come in contact with that great omnipotent Godpower of life, is the absolute believing in that Power. She has to plant this believing deep into her heart. This believing must be the tractor and not the human will, but the human will must come behind the case and then it would be a motor of great help, not otherwise. This <sup>is</sup> to me the great hinder in her good results, what the case is with so many people, putting the will in front instead of the faith in the Godpower.

This lady is of Jewish origin, I tell you that regarding her chronic eye-disease. Hoping that these informations will give you some hints if you will answer her letter for your help. I am sure that you will try all what you are able to do for she is a very good lady and in her trouble so dependent on other assistance. I am if I can in any way willing to assist her, as a diligent pupil.

I receive the Psychiana Weekly in good order, my best wishes with your paper also for your and Mr Tenney's work and efforts.

It seems to be a great pity that you are so often on the slippery road of the politic. You brought the world a particular nice and beautiful message about the Power of the Living God. My dear Dr Robinsen, "The cobbler mustn't go beyond his last. Germany the cradle of the present world democracy founded by a German Jew Medahay, who has found even as Italy a new world-vision, seems to be not quite in your line. Youself told the world that Mezes makes such awful mistakes and do you Merdahay, even if he call himself Marx, is perfect in his world-vision? Be careful Dr on that slippery road. With friendly greetings, also to Mr Tenney, Yours very truly H. Lagge.
