Rainier, Ore.

My dear friend and Student:-

Dr. Robinson is still in California, and we are getting out our "PSYCHIANA" Quarterlies today, so just a word to thank you for your brave and beautiful letter, which is one more evidence that the Power of the Living God exists here and now and has no limit when proper faith is manifested.

Merry Christmas and a Happy New Year, and please write again when time and mood allow.

Sincerely your friend and Teacher,

C.W. TENNEY
ASSISTANT TO DR. ROBINSO

Dear Friend & Teacher.

I will now try to write you a few lines to let you know that I am feeling fine at present considering what I went through since Oct. I spent one whole month in the St Vincent Hospital in Portland with a fractured skull but I am coming out of it fairly well I think I will be alright again I sure got great help through those lessons I come pretty near going to the other side but the Life spirit nursed me along for 4 days when I was unconcious but when I came to I come

2
commenced to repeat The
Living God is making me
whole I started to feel better
right away and have
been Improving ever since
The world looks just as bright
now as it ever did By putting
Your faith into the right
place They were all surprised
at the Hospital the way I
recovered. But when the power
of God is behind it nothing can
hinder it. I think of you quite
often these days I sure wish
you lots of luck & results in your
Journey to Calif when you come
to port land ore I will try to
meet you there to see you
personally By going back over
the lessons It sure helps a lot

in my case By believing
 that the Life spirit is ever
 willing to help where ever
 needed for when ever the
 Truth is known It will never
 contradict it self like $2 \times 2 = 4$
 It cant be changed

I will come to a close
 now. Wishing you all
 the luck & success
 possible

I remain your
 Friend & Student
