My dear friend and student:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you **once more.**

After carefully noting your brave and beautiful testimony from start to finish, I am absolutely depending on you to confidently and continually realize that the great God-Realm is right where you are and is all around about you. Then you know just as well as we do that this same Power which created you can take care of you, and will do just this thing when ample faith is manifested. Be sure to remain steadfast in your faith, for it is only through faith that the results you are seeking can be brought about through the Power of the great God-Realm. Do your very best, hopefully, trustingly, expectantly, in your home, at your work, with your associates, and with all others who are in a position to cooperate with you. Count on us to help in a spiritual way, first, last, and all the time, expect complete victory, and let us know just as soon as the new hope and better days begin to come your way.

May the Spirit of Infinite Peace and Power abide with you forever.

Sincerely your friend and teacher,

C. W. TENNEY

P. S. If I receive no objections from you, I shall pass on the message which you were kind enough to send, either in the Magazine or in some other way.

Dr. Frank B. Robinson,  
Moscow, Idaho.

My dear friend and Teacher - I, Moses White Horse Sr., a full blood Assiniboine Indian of the Fort Peck Indian Reservation, Montana, do hereby make this testimony. My father told me that my mother died when I was a small baby and he left me from this world when I was six years old. I left my people at an early age immediately after my father's death. I went <sup>to</sup> an Indian School at Carlisle, Penna. in June 1892. I stayed 9 years and forgotten my Indian language. While in school I was taught that super-natural religion never knew that I was being lead in a wrong direction. I kept on this religion of a God in Heaven up to a year ago, when I saw an advertisement in a magazine and then I got in touch with you but prior to this I had trouble with my wife, I told her of things which she must look out for as it will surely come to pass if she did not listen to me and how I come to warn her is something I do not know to this day. She left four small children and her home with out any cause to me. Here is the part where I now believe that there is no such a thing as a God in the sky. After she left my small baby

<sup>to</sup> bay, <sup>^</sup>cries in the evening and the rest of them would  
 join their brother in crying and I would break  
 down myself. I use to go to <sup>the</sup> hills with them and pray  
 to that God in the sky. Nay in the night I would ask  
 for relief and comfort and early before sun rise I  
 kept it up for several months but no response, finally  
 I wrote you in January 1938 this year and you was kind  
 to let me join with you and to day I am glad to say  
 that the Creative Intelligence has witness my thoughts  
 which I am now putting in writing. Since I have had  
 these lessons I have had visions showing my future  
 I have experienced considerable change since I tried  
 to forget the super natural religion. I have been doing  
 my part when circumstances permit, to talk to others about  
 the Great Life Spirit, and I am glad to say that there  
 are some of my Indian people beginning to see the light.  
 I'm in a material way going to the top and I hope the day  
 will come when my Indian people all over United States  
 will know the real God and which I have found with  
 my own efforts earnestly, sincerely and faithfully since I  
 have studied the lessons and help my self. just as I have

said before in my former letter that every thing is working against me but I realize that I will overcome all these things, I am letting the spirit lead me right now as I know the God Law will lead in right direction, I shall never regret that I accepted this message.

I will not be able to be at the Convention as I am not financially able to go, but I am or at least asking the Life Spirit that we shall all receive benefit and the enlargement of our movement.

May the Infinite Peace and Power abide with you all. I am your friend and student.
