Mrs. Elsie Nininger
McPherson, Kansas

My dear Friend and Student:

Thanks for subscription. The best way to get the names of other Students is to advertise for them.

Dr. Robinson and I are depending on each and all of you to confidently and continually recognize the Omnipotent Presence in you, which created you and still sustains you. Talk with it. Follow its lead. Depend upon it and realize what the In-dwelling Spirit, which is God, can mean to you and do for you.

Work with those who know you best, and believe in you most. Let us help spiritually. Plan now to expect and report complete recovery.

Let us know as the new hope and better days continue to come your way.

Sincerely your friend and teacher,

C. W. TENNEY
ASST. TO DR. ROBINSON

CWT:mb

May

Dear Dr. Robinson:

Will you or any of your very efficient helpers please help me out of my difficulties?

If there are any other Psychiana students at McPherson, Kans. or Hutchinson, Mo. or even Wichita, Mo. may I somehow contact them as I feel so alone in this work and wish for help in this great work of Psychiana.

A Mrs. Bossert of Austin Minn. writes me about their study group and of their progress in all undertakings.

Please tell me how to solve this: My little boy (in spite of my almost constant work against it) is a mouth breather, has adenoids and his teeth are becoming so prominent that it means braces for two years and removal of adenoids which will cost at least \$250.00. Is there a law which will give him an open clear nose with teeth in order, or am I to consent to ^{operations & braces} it and know that the expense will be rightly met?

I have been a Psychiana student for almost two years and feel that such problems should not arise. I have been able to understand the God-law and avert troubles many times, but this problem seems to grow larger and makes me unhappy.

Will you please help me?

My 18 year old daughter is having almost

serious trouble cutting her wisdom teeth, another thing which I do not meet nor she either. My ^{oldest} son sent me \$1.00 for Easter. Please send me your weekly Paper until the dollar expires. I have been needing more work to read and study and understand. I hope to live closer to God and understand his laws better, and I do want to give out more to others. If I cannot master my own difficulties how can I expect to help others?

It seems to me that a weekly message will help all of us who are working in the Great God-Rain to understand the laws of success better and accomplish more for the great principles for which Psychiana stands.

Please find stamps for a reply and the dollar inclosed. Thanks very much.

Your student,
Mrs. Elsie N. Ninger,
McPherson, Kansas.
