THEME UP: (ESTABLISH, FADE FOR DOCTOR:)

You will now hear Dr. Frank B. Robinson in person.

I do not know how pre-eminent a man I may have become, I assure you if I have, it has not been of my seeking. I am far more interested in YOU, than I am in myself, because no man can experience the power of the great Invisible Cosmic God Realm without experiencing a heart throbbing desire to tell others. I know too, that sooner or later Light MUST be thrown on the situation, or the candle will go out. It may be difficult for you to grasp what I mean by a "Dynamic Power" which you can direct upon your own problems. But this power does exist -

DOCTOR: 1 I am a simple man, not greatly versed in lore, and I
2 lay no claim to credit for the operation of the God
3 Laws. They have been made plain to me, and if I did
4 not tell you, I believe that I should lose sight of
5 this great power. It may be difficult for you to grasp
6 exactly what I mean by a "Dynamic Power" which you can
7 direct upon your own problems. But this power exists
8 -- has always existed e-- it is as real as radio, or
9 electricity. All that is needful is that you use it.
10 And I say this especially to a listener in Flint Michigan
11 who has written me this letter. Dear Dr. Robinson:
12 I am in serious trouble. One of life's greatest problems
13 is facing me, and I think you will be able to guide me
14 in working out the solution. My husband who is a
15 mechanic, has never made us a decent living. We have had
16 serious disagreements. I cannot make him see my way.
17 He scoffs at my beliefs, yet I know he needs the truth
18 as much as I do. I want so much to be able to show him
19 the Mighty Operating Law. But his mind does not run
20 that way. I know that if he could once feel the way I
21 do about the God Realm, we could work out of our
22 difficulties and straighten out our financial problems
23 together. Isn't there something I can tell him that
24 will satisfy his thoughts about this? - so that we will
25 both be happier? I can feel that these Laws are true,
26 but he wants proof. Thank you Doctor in advance, I am

sincerely, B. K.
