"CALL TO ARMS"

ORGAN:--(MAJESTIC MOVEMENT FROM "FINLANDIA" -- establish, fade)

ANNOUNCER: 1 As an army terrible with banners, sweeping before
2 it the black shades of night, routing despair ---
3 comes the flaming truth of the God Law! Why do
4 you suffer the indignities of life, when you can
5 control life! Your fate is in your own hands now,
6 for at last the way is open, if you will but take
7 it. When Dr. Frank B. Robinson first realized the
8 dynamic implications of Psychiana, he was in debt,
9 a humble drug clerk, with no future, no hope! Now
10 he possesses all that he wants of wealth, his mind
11 is at peace, and he is accorded praise and renown
12 as an outstanding and famous psychologist. The
13 same forces that raised him out of the depths, to
14 stand on a high plane among men, can be put to work
15 for you! It doesn't matter what your condition
16 -- how much you have, how much you know --- the
17 same surging pulsing power that was unleashed when
18 Dr. Robinson first saw the power of the God Law,
19 can enter into your life and your spirit, and make
20 you whatever you want to become. [Are you poor?
21 The irresistible power of the God Realm can give
22 you abundance of material possessions. Are you
23 unhappy ---- there is a great peace in Psychiana!
24 Does the way seem confused --- does life withhold
25 its secrets. Through the power of the cosmic forces,
26 man can now talk with God. Throughout the world,

ANNOUNCER: 1 in 67 countries of the earth, the eternal truths
 2 have spread, and thousands raise their voices in
 3 blessing that at last the light has pierced through
 4 the veil of blackness, that man is at last liberated
 5 to live a life of fullness, of realization! The
 6 power that works for thousands, can work for you!
 7 It is the same dynamic power that spins the stars in
 8 their orbits -- the same power that wheels the
 9 galaxies into the birth of new worlds --- the same
 10 power that illuminated the mind of Edison, of Marconi,
 11 of Michael Angelo! With it, you can become what you
 12 will! Ask, and it shall be given! For Doctor
 13 Robinson is waiting eagerly to help you find the
 14 truth through kinship with the God Realm. ~~As the~~
 15 ~~organ plays a brief transcribed interlude,~~ Consider
 16 what you would ask of life, ^{as you} then listen ^{to} the actual
 17 voice of Dr. ^{FRANK B. ROBINSON} Robinson, founder of Psychiana. *D.V.*

DOCTOR: 18 (SHORT INSPIRATIONAL TALK) ~~X~~

ANNOUNCER: 19 There isn't a one of you listening today, who hasn't
 20 at some time stopped to wonder, what life is all
 21 about. How does it happen that we are here --- since
 22 we are --- why aren't we all supremely happy. Why
 23 do such things as poverty, disease, sickness, un-
 24 happiness, crime --- why are they permitted to exist?
 25 Simply because we do not, or will not understand the
 26 great laws that govern all creation. If we but knew,
 27 if we would but put our selves in communication

I am looking back today for a little while over a period of about nine or ten years, -- There I was, a humble drug clerk, no future, no hope, forty-three years of age and nothing to show for those forty-three years. But from very earliest childhood there had always been a desire to know the things pertaining to the great God Realm. I just instinctively seemed to know that there did exist and must exist a power here and now which could do for me the things I wanted done but yet could not do for myself. I shall never regret the day I first ^{PUT} ~~took~~ this great power to the test. What happened you say? Well, first of all I knew I was a changed man. Where before had existed in my life nothing but thoughts of failure, these were immediately replaced by thoughts of success. Then, in less than one year 67 different countries knew my message. Today, well, it is hard to estimate how many students have studied with me all over the world. I wish at this moment that I could be with you, in person that I might urge you with all the earnestness at my command to consider whether you are satisfied with life as it has existed for you today. Are you satisfied with a lack, with a shortage, with the discomforts of life, or is your life abundantly happy, healthy and prosperous. Go out under the stars some evening, surely you will recognize the fact that the stars spin in their orbits, yet never do they collide. What manner of intelligence is this, what manner of power? ~~I just wish you could see changed lives, I've seen in the past nine or ten years.~~

Well surely the intelligence which in the first place created, and which moment by moment sustains yon celestial bodies in the

celestial sphere can at least give you and me the few little things we need to make our lives full of happiness, peace and abundance here and now. What a pity that we have lived in ignorance of this power to date. Limitations? -- No, not in the spiritual realm, for limitations cannot exist there. An abundance of "power"? Yes! All the power you can ever need, and, why, just simply because this power is a divine power. It is the power which created this universe in the first place, and which more than that, created you and me and do you not think that the power which created you and me knows how to sustain us, and more than that, knows how to bring to each one of us the things we need? -- I think it does, I know it does. I just wish you could see the changed lives I've seen in the past nine or ten years.

You ask me if these lives have been changed through a change in mentality and I say most emphatically not -- these lives have been changed because the owners of those lives knew that there exists a power, a spiritual power, which can take complete charge of a human life and regardless of how empty it has been to date, can bring into that life an abundance of peace, happiness and material as well as spiritual supply.

ANNOUNCER: 1 with the dynamic power of the God Impulse,
 2 establish intelligent communication with the
 3 source of power, we could abolish all this, and
 4 direct our steps into a brave new world where such
 5 things as poverty and suffering were impossible.
 6 You can have anything in life that you want, and
 7 have it most abundantly, if you will but stretch
 8 forth your hand to seek the pulsing, dynamic
 9 power of the God Realm. It is all around you as
 10 you listen to it. Its mighty impulses are pulsing
 11 through your being right now, going to waste because
 12 you are not in tune with the God Law. Those same
 13 dancing flashes of power can perform miracles for you,
 14 can raise you to high places, can overwhelm you with
 15 an abundance of wordly possessions, can enter into
 16 your soul with the peace that passeth understanding.
