IN THE PUBLIC INTEREST

Ind lead July 20

It is only to be expected I suppose, that a great deal of antagonism to this Teaching should be aroused. The realm of religion is a very dangerous ground to pioneer in. The reason for that lies in the fact that as we know religion today, the realm religious is a realm of pure unadulterated superstition. If it were a true realm of religion, everyone in that realm would be open-minded and would welcome any and all new facts which might make of religion a greater power, and which might throw a little more light on the subject.

But when all we have in the religious realm is superstition, at once there goes up a great howl when someone comes along and advances a theory of God somewhat different from the theory held by religious organizations. I think this is because these good religious folks are suspicious that their theories will not stand up under the light of an investigation, and they therefore are not at all in sympathy with one who might easily prove these old theories to be untrue. If this is done, the one holding those theories of course, is proven to be in error. And no one likes to be publicly found in error.

But there is a far greater responsibility resting upon my shoulders than allegiance to, or sympathy for any individual system of religion. In fact I do not care if what I write upsets every system of religion in existence. I expect it to do just that. It must do just that if I am correct in my teachings, which, of course, I am. Therefore, I bear the brunt all the time of attacks, scoffs, sneers, and attacks from every single system of religion in the United States. That, I say, is but natural. It could not be otherwise. I feel quite sure though that in these perilous times, I shall be abundantly vindicated, for unless some Great Spiritual Power comes into the world picture, it never can be straightened out. No human power can do that. No church organization can do it either. It will take the Power of the Spirit of God, actually and literally to do that.

In view of the very evident failure of the church, both Catholic and Protestant, to reveal the Power of God to this earth, I have taken it upon myself, through the wisdom and Power of God, to bring to this earth what is the truth of God. This picture is not one of my own making. It is a direct revelation from the Realm of the Spirit of God. Therefore, it is a true revelation. Also, with the revelation has come, and will ever come, the power and the ability to teach the truths of God as this revelation has brought them to me. Of course, being a new revelation from God to man through me, it must be opposed to what we have as religion today.

If religion today were potent, and if it were able to disclose the Power of God to the world, the revelation given to me would not have been necessary. But it has been necessary. Therefore what I am teaching is being very rapidly received, to the eternal joy of the multitudes. I am, of course, very sorry if I hurt anyone's religious feelings. But others' feelings do not matter where the truths of God are concerned. For my message is a message to the whole world, not to the church. If the church cares to receive it, it may. But it will be the last organization on the face of the earth to accept the truths of God, as opposed to the pagan traditions being taught as the truths of God today by the churches.

This Movement of the Spirit of God on the earth is in the public interest. The churches have advanced a theory of God, and a philosophy of God, and the world has given the church the benefit of the doubt as to the truth of the story it has brought to the world. But as the years have rolled by, and as the discord, the pain, the suffering of the human race has

increased in spite of anything the churches or the god of the churches can do to stop it, a very marked skepticism has come to every thinking American. We doubt the truth of the church story. We have cause to. It has done nothing, and indeed can do nothing to stop this horrible slaughter abroad. It cannot even bring peace to America, let alone the rest of the world. It has been weighed in the balances and found wanting. God ~~##~~ has, therefore, raised up a man who is bringing to this world, revolutionary truths of the Spirit of God. It is ~~the~~ the interests of the human race that those truths be universally taught and accepted.

They will not be accepted by the church as a whole for a long time. But they ~~will~~ will be accepted ere long by everyone. Let therefore, none who call me "heretic" "atheist" "blasphemer" do so too vigorously, for if the Power of the Spirit of God be behind me, and it is, you will only make yourself look foolish when the true Spirit of the True God becomes universally known. That Spirit cannot be known as long as you advance a false theory of God. Time alone will tell which of us is right. In the meantime, it is, I repeat, a matter of public interest that all men know the truths of God as rapidly as possible.

I shall need, and I do need now, the united help of all members of "Psychiana". I am only one man, and while all the Power of God is behind me, I still must impress upon you, your duty to God and to humanity. The public interest demands this Teaching, because it is true. You have a wonderful chance to take an active part in the spreading of this message of the Spirit of God, if you will but take advantage of it. It is the only message which can save this world. Let me put that another and better way--let me say that the picture of God being brought to the world by "Psychiana" is the only picture which has sufficient Power of God to actually and literally manifest in human lives.

What the church offers is good for "after you die". What we offer is good for you while you are alive. ~~And~~ if you live fairly and squarely, and if you find the presence of God while you live, you need have no thought for the morrow, or the future. Certainly what goes on "after death" can have no possible bearing on the man or woman who knows God here and now. This Movement needs you. You need us. So then, in the Power of the Great Spirit, shall we not all work together to the one end that this staggering picture of God be brought to this world in the shortest possible space of time. By so doing, countless lives can be saved, countless horrors stopped, and this, of course, cannot happen under the theory of God we now have. It will take the TRUE GOD to do that. IT IS IN THE PUBLIC INTEREST THAT "PSYCHIANA" BE FLASHED ROUND THE WORLD AS RAPIDLY AS POSSIBLE.
