GUIDE

We are now in Moscow, Idaho. The journey has not seemed long despite our anticipating. Can we who come carrying nothing but doubt and fear, and pain, find at last - peace and comfort? There high on that hill is the home of Dr. Frank B. Robinson. It stands as a symbol of what we seek. Sturdy is its foundation - secure in an atmosphere of peace and tranquility. (ORGAN MUSIC IN) Do you hear that music -- the very power of its tone sends forth a hymn of thanksgiving --. There sits Dr. Robinson at the console of his magnificent organ.

(MUSIC SWELLS) (FADES)

Somehow courage is reflected from every sunlit corner in this study. Dr. Robinson - we have come to you that you may light our darkened way. Tell us how to see that light Doctor -- how to understand and discover miracles. What are miracles?

DOCTOR

~~They're not really miracles. Miracles? Do not call it that~~

~~THEY ARE~~ ^{actual} call ~~it~~ the God Law in operation.

There are no such things as miracles

What we call miracles are nothing but the G-L in ^{actual} operation

GUIDE

The God Law?

DOCTOR

I CAN

~~Let me~~ explain that best -- by reading you a letter from a student of Psychiana who lives in Granby, Connecticut. An excerpt from his letter states: "Dear ^{Dr.} ~~Dr.~~ - Health is what I want the most, all other things being secondary and to be had later. Once I have regained my strength, I am certain I shall step out to success."

GUIDE

And you say that it will not take a miracle to help this man regain his health so that he can step out to success.

DOCTOR

Well let me ask you a question: "Do you not think that the POWER which brought life to this earth in the first place, and which moment by moment sustains it, cannot sustain that life in perfect physical health?" Why should it take a miracle to do that? A miracle is something that reverses the natural processes.

GUIDE

Of course. That is true isn't it?

DOCTOR

As a matter of fact, the invisible life impulse, which manifests in your physical body is the same life as God. Now don't misunderstand me. I don't mean that your physical body is God, but I do mean that the invisible life impulse which gives you the power to think, to work, to eat or to do anything - that invisible life is God.

GUIDE

Then if that is a fact - all the wisdom and intelligent power of the God Realm is at our disposal here and now -

- 4 -

DOCTOR

Exactly - here and now, because the motivating spirit in your material body is the Life of God!

GUIDE

Once that fact is realized -- thoroughly, I can understand how it happens that you receive so many thousands of letters from thankful persons Doctor.

DOCTOR

Thousands of letters -- and telegrams, radio grams -- calls for help from all over the world. Here's an example of what transpires. You see this wire?

GUIDE

Yes?

DOCTOR

Read it --

GUIDE

"THE POWER OF THE GOD LAW HAS WORKED. MAY GOD BLESS YOU."

DOCTOR

In that case -- a mother had a request. I assured this good mother that the God law could and would respond to her request. And it did!
Now Here's a letter from a friend who writes: "Dear Dr. Robinson. I feel so grateful to you. Am improving in every way. Am looking better, feeling better, and I actually am better. I get up in the morning after having had a wonderful night, and a good sound sleep -- I have a flush on my cheeks and I carry it with me the entire day. I can't tell you what thrilling experiences have come to me through my knowledge at last, of the power of the ~~Living~~ God. - LAW.

GUIDE

I notice another letter on your desk here Dr. - a man who says "I want

- 5 -

you to know that I have regained my health so that I feel 20 years younger."

DOCTOR

That man lives in Dordell, Oklahoma -- he and his wife have written to me many times that they are at last -- on the road to health and happiness. But - I don't want you to get the impression that Psychiana is any divine healing movement. It is nothing of the sort. You see when these letters telling of such amazing results first began to come to me, inside of 30 days from the date on which I released this teaching, I was extremely surprised at the number of persons stating their health had been restored. ^{gently} I ~~could~~ ^{CAN} only explain it by virtue of the fact, that this must be only one of the many phases of the operations of the God Law.

GUIDE

But Dr. Robinson -- when one is really ill --

DOCTOR

Get the best medical advice you can and follow it. Do that because the knowledge of medicine itself comes from the invisible realm of the spirit of God. If a remedy for an illness already exists, how foolish you would be to expect the God Law to do something it had already done.

GUIDE

In other words you refer, for instance, to the anti-toxins that are now available.

DOCTOR

Precisely. The men who discovered the various anti-toxins that today exist, received their knowledge from the power of the great God Law. There can be no question about that. All knowledge in its final analysis comes from the power of the great creative life spirit which is God.

- 6 -

GUIDE

And that would apply in the realm of engineering and science as well as medicine, I suppose.

DOCTOR

Right. In other words, the power of the God Law provided THROUGH the illuminated mind of some medical man, the fact that Diptheria could be cured by the manufacture of an anti-toxin. Every discovery, whether it be in the field of science or medicine, comes directly from this great source of all intelligence.

GUIDE

If however, cases exist which medical science does not understand, or which they admit they cannot handle....?

DOCTOR

Then you can go direct to the realm of the God Law and from there secure ~~the healing~~ ^{whatever} you so much desire. But you would be making all kinds of a mistake to expect God to manifest ~~the~~ ^a healing in you, if he had already opened up the way and placed the remedy at your disposal through competent, qualified medical practitioners.

GUIDE

And I suppose too there are many cases Dr. Robinson where it is not the body which is broken but the spirit.

DOCTOR

I have had many letters telling me of cases like that. One woman wrote to me that her surgeon told her, her spirit was broken, and that ^{WAS} the one reason she was suffering physical disability.

GUIDE

How would you explain that -- one's spirit being broken?

- 7 -

DOCTOR

can it?

I say it cannot happen. When you talk about ones spirit being broken you are talking about the life impulse ^{or} the spirit of the great God Law -- and that of course cannot be broken. Look at it this way. Man is a combination of the physical body with the life spirit which is God. This life Spirit which is God, first brought life to this planet.

GUIDE

Does that include ALL LIFE --

DOCTOR

All life, both plant, animal and human. As humans, we, moment by moment derive our invisible life from the great source of all life -- which is God or - Life Spirit. ^{Quantity 1518} It is the recognition of this fact which puts at our disposal all the Power of the God Realm. But never forget that the motivating impulse of your human body cannot die -- can never be broken.

GUIDE

Then what did happen in the case of this woman who wrote to you for help?

DOCTOR

^{HAPPEN IS} What ~~happened was~~ just simply this. A sense of fear so completely dominated ^{YOU} ~~me~~, so completely permeated ^{YOUR} ~~her~~ entire life, that the present existence of the power of the Great God Law ^{IS} ~~was~~ absolutely forgotten. ~~if indeed she had ever been conscious of it. She probably was under the impression that the power of the great Law could never be found on this earth at all.~~

GUIDE

That's what happens when one dares
It was obvious then that she didn't know that a dynamic spiritual power does really exist here and now --

- 8 -

DOCTOR

Let me illustrate ^{that fact} ~~a little here~~. You go into a room which is absolutely dark. It has no windows. It is what you call "pitch black". Now you couldn't shovel out that darkness of course. ^{But} You couldn't, because as a matter of fact, darkness doesn't exist. It is only the absence of light. Well then, ~~that~~ -- fear too is only the absence of the knowledge of the present ^{to} existence of the living God Law.

GUIDE

And without fear -- all obstacles can be overcome - no matter how great. All problems can be solved....conquered or removed. Dr. Robinson you have given us a message of power -- a new meaning for the understanding of God. As we go on our way Dr. - please play one song to make this day completely full.

DOCTOR

That request is gladly granted. I often sit here alone -- playing my ~~beautiful~~ pipe organ. (ORGAN MUSIC IN) The power of its melody brings me closer to every one of my students. I feel their faith and it spurs me ^{WITH} on ~~in~~ an eagerness to reach every traveler on the troubled path of Life.

GUIDE

Let your songs pour out in gladness then....reaching with a glorious voice all who seek the truth. And as you play I'm going to read your personal message. Your words addressed to all earnest seekers of the truth. Whoever you are - whatever you want to become - Dr. Robinson has this message for you. He wants YOU to know that no matter how rocky and jagged the road you traverse...no matter how stormy the sea of your life - there is a POWER near you now - a divine power you may draw upon for life, spirit, and sustenance, for material and spiritual fulfillment. You can discover this power if you will write to Dr. Robinson for his free 6000 word digest..

where is he close?
