"I Prophecy."

Sept 9th 1938

I prophesy of things to be;
Of war in air, on land & sea,
Pestilence, famine, sword & flame;
Of open murder without shame,
The hounds of Hell upon War's path,
The world steeped in one bloody bath,
These things the future has in store.
Oh God! be with us evermore.

I prophesy that devilish lies,
Shall make nation against nation rise,
And brother shall his brother slay,
And children parents shall betray,
The Church, unfitted for their task
To save the world, shall Science ask,
To teach men what they ought to do —

DO SPURN THE FALSE AND KNOW THE TRUE!

Mr. Frank Stephens
559 U.S. Custom House
Denver, Colo.

My dear Mr. Stephens:

Thank you very much for your wonderful letter. I was happy indeed to hear from you and glad to know that you have increased your health by leaps and bounds and can really enjoy life, that your friends hardly know you, and can hardly realize that it is you. All such letters as this are very wonderful.

Regarding financial benefits, surely the Power which clothed the grass of the field and which clothed the lily is abundantly able to do the same thing for you and will do so in the moment that you recognize the present existence of this invisible Law which is God.

There is one great outstanding fact I want you to recognize, so read this paragraph many times over, for if you do recognize this dynamic Truth, in the moment you do, it will in all probability flash upon you as a blaze of all-illuminating light. In this next paragraph is contained the secret of the power of this philosophy, so think it over and reason it out until you grasp it.

There is only one great Life-Spirit which we may call God, if we choose to use that term. This Life-Spirit is the motivating impulse and is the life behind every created human being. If it were not for the present existence in you and in me of this spirit of eternal life, our physical bodies would collapse and they would carry us out to the undertaking parlor. Now, if this invisible life impulse in you and in me is the life which is God, then do

you not see that all the power, wisdom, and intelligence of this great God-Realm is existing in you every moment of the day and is subject to your demand?

Don't forget that your life is part of a greater life, a greater consciousness which is God. If I can be of any help to you in understanding this stupendous fact, please feel free to write me personally for I'm very much interested in every Student.

Sincerely your friend and teacher,

My dear Dr. Robinson:

Attached herewith are the affidavit and the testimony of both the mother of the child ~~and~~ concerned and the older daughter respectively.

Upon receipt of your letter of persuasion, I took one witness with me and proceeded to the house of the said woman, Mrs. Dominga P. Cruz, and complied with it. But sorry to inform your Dr. Robinson that since these poor people do not have the knowledge of the English Language, the original therefore of the said affidavit and testimony were written in the native dialect, "Tagalog". Sending the originals would mean unnecessary delay of any kind on your part. With this end in view, I took the initiative of translating them into English upon reaching my office, with the same witness that was with me.

Hoping that you will trust me with my natural honesty in this matter which I translated simply word for word,

I remain,

Very sincerely,

R. T. TAJERO

May 10, 1938

TO WHOM THIS MAY CONCERN:

Gentlemen, this is to certify that MR. R. T. TIJERO was at our home with three other companions when the accident concerning my little sister Leonora had happened in the afternoon of the day about four months ago. I saw Mr. Tijero as he rushed upstairs from the barn where he was been alarmed by the commotion cause of the accident that happened to this sister of mine.

The lasp of time had seemed too long that I had already waittedg and expecttedg my mother to pronounce my sister dead as she had seemed to give up hope. This little sister of mine was sleeping at the corner of the floor of the main room of our house when a small round table fell upon her. I did not actually see how the table fell on her but I have hear the loud noise of the table and the sewing machine as they fall on the floor. I was not interested to know which of the two, table or iron machine had fallen on her, but the fact that she had shown some sign of death convinced me that she had been pounded badly.

I saw everybody in the house horror stricken and speechless except Mr. T. Tijero who had entertained in his face a smile of humbleness and confidence.

No more no less to say.

Very sincerely,

(SGD.) SUSANA P. CRUZ

Note: As an officer of law and order and as a member of the Philippine Army, COMMONWEALTH OF THE PHILIPPINES, I have therefore the honor and privilege to administer the oath to the woman concern upon taking her affidavit which although seems informal in nature yet convincing enough. I did this to avoid unnecessary delay. (Sgd.) R. T. Tijero

May 10, 1938

TO WHOM THIS MAY CONCERN:

I MRS. DOMINGA P. CRUZ of legal age and wife of the Barrio Lieutenant, Mandaluyong Estate, Rizal, and with sound mind and sound memory do solemnly swear on this 10th day of May, 1938 upon this affidavit, and to tell nothing but the truth:

That on or about 7:00 o'clock P.M., of the day about four months ago, my 6th child by the name Leonora P. Cruz aged about 4 years old have had her breathing and pulse-beat suspended for nearly 10 minutes.

Her older sister Natividad had carelessly pushed and caused to fall a small round table with a hand sewing machine on top of it to the direction where her little sister was lying past asleep. I was right at the kitchen preparing our supper when I heard the terrific noise of the impact. I rushed to the main room to find out what was the matter, and to my horror and excitement found the table on top of my child's breast and the machine near her. I had in mind that if she was not hit by the iron machine, at least she must be badly hit by the table. I took hold of this child whose face was as black as a mist and swung her to and fro while shouting for help. No pulse beat; No breathing; no sign of life. I have done this for nearly 10 minutes when luckily she moaned and finally cried. Thank God, she is alive again!

I looked around and was surprised to see all the rest of my children and visitors around me including Mr. R. T. Tijero who smilingly persuaded me to look about the child's body for some bruise, but I found not a single scratch. The next day she played as usual. I could hardly believe such accident to have happened.

With honesty and integrity I sign my name below:

(Sgd) MRS. DOMINGA P. CRUZ.

My dear Friend and Student:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

We rejoice to learn of the splendid results you obtained, and we are absolutely depending on you and those you love so dearly to continue to keep in touch, in tune, and in harmony with the Spiritual Truths of the great God-R Realm. As you do this, confidently and continually realize that the great God-Power which created you and those you love so dearly can still take care of all of you, and will do just this thing if you will but recognize its actual presence and let it be the controlling impulse of your own lives.

As these truths of God slowly unfold themselves to you, it will be necessary for you to pass them on to others. Then, in the degree to which you give them out, you will be refilled. You can most effectively keep the flood-tide of Power coming to you by telling others of this Teaching and then sending their names and addresses to us. In this manner you will find the "secret path" to God.

May the Spirit of Infinite Peace be with you always.

My dear Dr. Robinson

I wrote you some time ago
a rather severe criticism on your book
"Shall we know our friends beyond the Tomb"
and by the way I have never had a

that is real to you. I have received

me word also reached me that my

who was visiting her husband's people
in Pennsylvania was very sick and in
the hospital at New Castle Pa. Her mother
was almost wild with it and I told her
not to worry for our daughter was
going to get well at once. I wrote my

God was going to cure her, but I wanted
her to repeat over and over - I believe
in the spirit of the living God and His
Power to Cure me now. Then I did as
you say. I went into my room
alone. I talked to God & asked
him to cure my daughter. That was
Monday and Tuesday. It has been
in my mind waking and sleeping
and last night about 7 P.M. my
daughter opened our door and walked
into our home - well. Yes completely
well. Do I blame in the Power
of the living God - yes with all
my heart and soul and so. I
know she cured my daughter.

Dear Sir,

I am not much on writing but my heart is so full of gratitude that I just want you to know of some of the wonderful benefits I have received from the study of Psychiana. I know your time is limited and I have so much to tell that I just dont know where

to begin.

Well I was about to
loose my property
I had tried for two
years to sell it I had
listed it with every
Realstate party I
came accross but with
no avail, at this point
I was desperate, I was
making a last trip out to
see it and as I was going
I said out loud as if I were
talking to someone at my side
Now God Law this thing is
up to you I am turning this
whole thing over to you do

as you like with it, it is
too much for me.

at that very moment I
was relieved, it was just
like a heavy load being taken
off my sholders. I felt that
if I lost the property or
sold it I would never go
through such agony, again
and without any physical
evidence I shouted for joy,
in 2 weeks the property was
sold and I received full payment
for it, Thanks to the teaching
of Psychiana.

I wait anxiously to hear you
over KHJ on Sundays but it didn't
come yesterday I was much
dissapointed, I like your talks
they are so human, I like

especially the letters telling of the help others have received for I know it comes from the very depth of their heart as it does from mine. But for those that have never known the teachings of Psychiana it is difficult for them to believe those things, because this thing works so easy.

First I have an absolute faith in this Law, Second I impress my desires into this Spiritual Law and Third I watch for the leadings which directs me aright and this God Law has never let me down yet. I wish the whole world could know of this Teaching. Sincerely Mrs N. C. Ferguson

Dear Dr Robinson

I wonder if you would be interested to hear about me, I had been sick for years & felt life was not worth the effort of living, my husband noticed your ad & read it out to me, I said that is what I need write for it, he sent for it in his name but I am the one that is using the lessons I was ruptured for six years, & my nerves were all shot, & my blood pressure very low, in fact the Dr said he couldn't see what was keeping me on my feet, also my feet were so bad there was times when I could hardly walk, so you see I was in bad shape, I followed your lessons faithfully my rupture is healed my blood pressure is up, & even the bones of my feet are straightening out, & I can walk long distances when called upon to do so, I see in this last lesson, you tell about the amount of work you can do, Well, I have seen

myself feeling so ill I thought I would have
to give up the household task I was doing
but I would leave it for ten or fifteen
minutes & use the affirmations, putting
my whole heart into them, I could feel
the strength that I needed & had asked for
flowing into me, I would go & tackle
that job again & found I had enough
strength to clean the whole house
& that is how I kept on my feet,
I have tried to get other sick women
interested, & altho they see the change
that has been wrought in me, I think
they still think I am crazy.

I got lessons in Truth from Unity,
but my affirmations always ended, through
the power of the living God Law,

Yours Sincerely

Dear Dr. Robinson:-

A few months ago, I wrote to you outlining what prompted me to take your course, namely, my brother's general condition. At that time he was very ill and everything seemed to go against him. He has studied your works with me and you should see the change. His general health now was better, he has put on pounds of weight (something he has desired for some time) and is rapidly developing a different mental attitude toward life.

His whole ambition is for a career as tenor soloist, eventually leading up to the Operatic stage.

A preliminary step appears to be opening up. Yesterday, he was asked to try out for the tenor soloist position in one of the largest Toronto Churches, and it would mean much to him should he be successful in obtaining

this position. There are several others being tried, but we have perfect faith in the God-law and we know that if this is the step to higher things then the position will be his.

This is a very important time in my brother's life and if it isn't asking too much, realizing how busy you are, would you help him with your thoughts?

He will be forever grateful to you for bringing this study to our attention. He knows it works and we are looking forward expectantly for new manifestations every day.

Thanking you again, I remain

Yours sincerely,

My dear Mr. Carter:

Thank you very much for your wonderful letter. I was happy indeed to hear from you and you stated a Truth when you said that it was a lack on our part and not on the part of the Realm of God. That is the trouble. Human beings will not trust in this ever present Realm simply because of a lot of false instruction which the churches have given regarding God, and they don't believe that such a Power exists. However, I am very happy indeed to read your letter.

Now that you have had one example of the Power of the great God-Realm, you should live very close to this Realm and tell others about its Power. Please feel free to write me any time you want to, for I am always glad to hear from you.

Attention Mr. C. W. Lemay.

File on
my desk

Dear Friends.

Your letter of the 22nd
in regard to my fifteen year old boy who
was lying in Hospital with a badly infected
face, well I may say it was indeed a
pleasure and great joy to know that here
on this earth or perhaps I should say globe
there dwells a power which I now is actually

working through the realm of thought directed out
on the ether waves and Cosmic rays to the Great
God Law, so in this wise I shall endeavor to
explain just how I learned the truth of this
great Truth, I went to the Hospital between 7 P.M.
and 8 P.M and David was an awful looking sight
all his head bandaged, lips easily three times
their normal size and all discolored, even his
fingers and toe nails were black, I made very
definite inquiries from different doctors + nurses as
to his condition, some said very dangerous, other said
very little hope, nothing but discouragement on
all sides, when I got home I called another Dr
whom I knew very well, having served with him

for about 4½ years overseas during the Great war
and knew he would tell me the truth if he really
knew it, and he said "fact I wouldn't like to say"
Well Dr Robinson + Mr. Tenney I went to bed and
all through the night I was calling silently to
this Great-God-Law, so in the morning I decided
to write you, so I did and went to nearest
post-boy, and the moment that letter left my
hand I knew that the desire was being fully
manifest in that as a last resource I had sent
my message through your teaching to the Great-
God-Law, so my eldest daughter and I went
~~over~~ in the after-noon of that very day I
dropped that letter to you, and what? Bandaged
gone, lips about-normal temperature gone?

normal, sitting up in bed and had eaten his
breakfast, and dinner, and was hounding the
nurses for something to eat again at 3 P.M.

Now Mr Robinson what I wish to
convey to you that it was I who afraid, fearful
and quaking, lack of faith who was to blame
God was there but I was not truly in the
fully required accord with this great law.

Thank you for bring this great course
of instruction to me.

your sincere + faithful
student

The Rev. Chas. Sidney Burke
Lock Box 59
Franklin, Va.

My dear Mr. Burke:

Thanks very much for your wonderful letter, and I was happy indeed to hear from you and glad to know that this Teaching appeals to you so much.

Regarding your wife, you will recall in the Bible, although I very seldom read it, you will recall the man having the wither hand. He walked up to the Master, and Christ looked at him and said "What do you want," or in other words, "What wilt thou have me to do." The man told him that he wanted his withered arm restored, and then note the remarkableness of the statement of Christ. He just simply asked that man to stretch forth his hand. In other words, he asked him to do something which he had never been able to do before, or he thought he had never been able to do before, and with the attempt to obey came the cure. The same thing is abundantly possible with your wife, my friend. I sit here at my desk all day, week in and week out, month in and month out and have thousands and tens of thousands of cases who write to me and tell me what the Power of the great God-Realm has done in every conceivable type of disease from cancer on down. It isn't a case of whether the Realm of God can do it, it is a case of whether we will believe that it can or not.

Somewhere in the Bible is a statement that reads something like this, "When the son of man cometh, shall he find faith on the earth?" I question very much whether he will. Certainly he wouldn't have found it until this Movement started, and it so happens that this Movement, believe it or not, is the one religious Movement on the face of the

earth which actually believes God and which is actually able to manifest the Power of God on this earth.

If you can grasp what I am saying to you now, you can place your hand on the head of that good wife and through the Power of the Living God can order whatever disease there is there to leave, and the Power of the Living God will see that it does, simply because the disease cannot exist where the life-giving Power of God is thrown against it.

No, I shall not pray. I never pray. Instead of praying, I keep absolutely quiet and let the Power of the Realm of the Spirit of God manifest itself to me. I am too little a man to ever attempt to insult God by asking him for any single thing. That isn't prayer. That isn't the way God operates. He knows what is necessary better than we do and already has provided the answer. Now, it is up to us poor unbelieving creatures down here to manifest faith even as a grain of mustard seed. Although I don't know you, I just trust that you are man enough to do that.

When the little boat was storm tossed on the lake, they woke the great Christ of Nazareth and told him that the ship was going to sink and that they were all going to perish, and then note his reply, "Where is YOUR faith?" In other words, he told them that their faith could still the tempest just as well as his could.

The only thing I am sorry is that it will be three or four days before the stenographers get around to transcribing this letter. You will understand that I get in my study early in the morning and work all day and sometimes half the night answering hundreds and hundreds of letters, and at the present time the machines are absolutely loaded and have several thousand letters ahead of them. But I think the girls will get to it inside of three or four days, and then you will get the answer, and I will instruct them to send the answer off airmail.

I will not publish your name in the magazine.

May the Spirit of Infinite Peace and Power abide with you forever.

Sincerely your friend and teacher,

my dear Dr. Robinson:

First of all I want to say "my God bless you."
I have read your teachings in 1-2-3 lessons
and I am now to start on my fourth one
that I received today. May I say I
have done my best thus far. I am a Baptist
minister pastoring here in the city, a small
church of course. but I am frank to say
to you your teachings have confirmed more
solidly my former beliefs, with a field of
new matter and reality of things I never dreamed
of. You are wonderful and God shall continue
to bless you, that He may bless thousands
through you and your teachings.

Please believe me when I say to you
that I do regret I was so long contacting you

Now Doctor on the 13th Inst. when I get
my salary I shall send you at least \$300,
please bear with me. I have had it so
hard; my wife was operated on. her left
breast was taken off. They treated her
before the operation also since, on yesterday
the 3 of this month I took her back to Norfolk
the doctor that gave the radium treatments
also the one that performed the operation, told
me she would hardly live another year! I don't
know what to do I am almost crazy, seemingly.

This afternoon she came into my room,
I told her, as I finished reading 12 pages of
my 4th lesson, that I had a new feeling
altogether, and that I believed in the Power
of the Living God and you! And that I would
write you about her condition, etc. she smiled
and said she believed too. Doctor she is worthy
being saved. she is the person I prayed
for God gave her to me. So please by
the Power of the God Law Help her
she is a saintly loyal wife and very

faithful to me. Although she is able to do light work for me, and looks like the picture of health, but the doctors are keeping her doped that she may not suffer, waiting for the end. But as I can almost feel the very presence of some power now I do believe that you are going to pray and the God Law is and shall cure her as it has others do pray for her.

Doctor as truly as I am writing to you this night at 12 43 A.M. I only believe that the God Law is the only thing to save my wife, since the operation other small cancers or tumors 4 or 5 on the left shoulder near her neck and an area about the size of one's hand on the left side about mid body, also the place where the breast was taken of is worrying her she failed to sleep until they gave her anti-pain capsuls yesterday. Will you please let me hear from you? I feel better now since I have written her condition tonight. Now I find that I have more ease of mind in my church work this

4
since studying your lessons, then I have
for the past 4 or 5 years, during which time
I lost my fine city work and am now in
a small town with a population of less than
800 and only with only about a 3rd or 4th
class church, but by the God Law I mean to
overcome, after my dear wife recovers. I believe
she will by the Power of the God Law Doctor
I am trusting absolutely nothing but the God
Law and you Please don't fail me. I
shall never betray my trust. Even though
I am all in debt my creditors now are very
nice to me. On the 15th Inst I send you at
least \$3⁰⁰ to catch up. I might ask that
my name not be published just now.

I beg to remain your student

P.S.

I send you my photo as per request, in my next letter.

The longing within my soul has never been satisfied. I continued in the darkness alone until "Psychians:" though you came to me, I can even preach with a better understanding of what God is for I am abundantly satisfied myself. "You are God's Moses to me".

For you brought me out of my Egypt. (smiles) by my or the old teachings.

My dear friend and student:

Doctor Robinson has asked me to thank you very much for your good letter, also, your free will donation of \$2.00 for the new "PSYCHIANA."

We are absolutely depending on you to faithfully follow both instructions and study as you keep in touch, in tune, and in harmony with the Truths of the great God-R Realm.

We rejoice to learn of the new position which has already opened up for you. In the meantime, I am sure that you have received my letter acknowledging your donation to the Convention fund.

Remember us to that splendid Dad of yours--in regard to the various colors or manifestations from the great God-R Realm. We asked you specifically to write and tell us about this, because we are keeping a record for research purposes. The great majority of Students write that they have experienced similar manifestations to the ones you described, and this we think is just evidence of the Power of the great God-R Realm trying to make itself known to you. You must not look for these manifestations to recur, for they may or they may not.

May the Spirit of Infinite Peace and Power abide with you forever.

Attention Mr. C.W. Tenney.

Dear Teacher:

Received the balance of my lessons--Advance Course #1,
for which I thank you.

I am now enclosing \$2.00 as first donation for "The New
Psychiana", which is the very best I can do at the pres-
ent time, but may be able to do better later on. Am very
anxious to receive the new lessons. Thank you.

Today I received my first noticeable manifestation--the
stenographic position I have been wanting is to be given
me on October 1. This was it seemed developed right out
of a clear sky, and something which I was told a short time
ago, could not be, then when the opportune time came I was
given a lead, which proved to be the very thing that was
need, so glad I understood and did just what I should have.
Everything developed in just two days time--which surprised
me so that I could hardly believe it possible. I surely
do appreciate the fact that thru you I have been given the
manner in which to use the Power which the Great God Realm
provides for us all. I have many adverse conditions to con-
tend with which make it very difficult for me, but I now
know they will all dissolve in due course of time. Am still
holding the thought for Dad's health, and know this too is
possible to ~~over~~ come the conditions that are not so good.

Hope you received the last donation I sent you, and think you
have, as this was about a week or so ago, and no doubt is in
your hands by now.

I shall doo all possible to assist in this wonderful work,
as I know this is the greatest truth ever written, and should
be more widely know.

With very best wishes to you for your constant widespread
circulation of your good work.

Very truly yours,

Dear Dr. Robinson:

For some time I had in mind to write you and was delighted to receive your letters, your kind invitations for joining your new course and to the National Convention in Portland, Oregon on October 2nd to 4th.

I studied your first course quite faithfully and must confess that I derived great benefit from it spiritually as well as materially. In any case it improved my lot considerably. At the time when I took up your first lesson, I felt that you were giving something to people which no other teaching had. It gave me enlightenment on many matters, it helped me when I thought that there could hardly be any other solution.

Several years ago I was connected with another firm in the same line of business I am in now, but the conditions there were unbearable and I did not know what to do, because I had been with this firm for 7 years and had a well established trade build up, and yet I had to suffer great agony through a certain person, who seemed to be determined to make things tough for me all around. I also may confess that I suffered under home sickness and wanted so much to see my old folks again on the other side of the pond, whom I did not see for 13 years. But there seemed to be no hope as I was working at that time under such unfavorable conditions as far as my business was concerned.

Well, it was then that I took up your lessons and through application of your teachings I was surprised how things began to shape themselves in my favor. I was able to bring up enough courage to seek a business connection elsewhere and happy to say, I did make a good connection with another Manufacturing firm, for whom I established a branch office and warehouse in Chicago. In spite of the fact that I had to start all over and work on a commission basis, ~~and it worked out~~ it worked out alright. The same time I became independent and did not have the heel of the other fellow on my neck. This was in 1935. Now I have established a very nice trade and in spite of the dragging business conditions I am making a fairly good living under happier conditions than before.

Two years ago conditions shaped themselves in such a manner that I was in position to go with my family (2 boys) to Germany, to visit the folks. I certainly was happy. Without exaggeration I wish to say that your teaching was solely

responsible for accomplishing this. I always feel thankful to you and I certainly like to study your new lessons.))

I hope that I did not go into ^{too} many details, nevertheless I am certain that my story will interest you.

When things go well, it seems it is human to forget the good spiritual teachings and confess that I drifted away temporarily during the last year until now. However sometimes I picked up your lessons, but could not help feeling that a certain amount of fascination was missing in my heart for your lessons. The little I used, always benefited me, it is true. I asked myself the question, "Did I get too materialistic?" or ^{hearts} did I only scratch the surface of the great truth. With humans it is like with flowers, if they are not watered when they need it, they die away. But I found out however that when we are trying to do without the great spiritual force, things do not go so well. Therefore I feel that I do best to take up the study of your new lessons, it will make me feel better and happier, it will help me in my business and with my friends and my family.

With reference to your invitation to the National Convention in Portland, Oregon I wish very much to be there. Right now I would not know how I could manage it, but will do my best to work towards this point to make it possible.

Enclosed please find my application for membership of the "NEW PSYCHIANA".

With kindest regards, I am

Yours very truly

PS. I noted in one of your lessons that you also visited Nuernberg during your trip abroad. It may be of interest to you to know that you were visiting the place of my birth. You wrote also about the "Folterkammer" with all the gruesome torture instruments they are showing and which were used in the middle ages. These were used especially during and after the 30 year war, everything at that time was going to pieces and with it the moral of the people and the only livelihood of many was made by waylaying the merchants and the farmers. They claim that by using such implements it was their only way to scare people who were tempted to go robbing others. I enjoyed the trip very much over there and was delighted ~~to~~ to see the great change and improvements which took place during my absence.

My dear Miss Barton:

Received your letter in Saturday's mail, but was too late to get the parcel in the mails, so same will go forward Monday morning.

I am not going to attempt to tell you just how much good this has brought to us in every way. If you remember when here on your visit, you saw in me a badly broken body. Given up to pass on in 1932, but was still hanging on by a thread fighting for a few more weeks or maybe months of life. Today I do not use a cane. I am strong and almost normal, my wife is in better health than she has been for many years. The material things have not manifested themselves as yet so strong as the health which of course we wanted most of all.

To say that it is due to some other treatment or belief and to not give PSYCHIANA credit would be a lie. This is the most powerful teaching the world has ever had the opportunity to grasp, but - I am afraid that only a few persons will exhibit common sense enough to lay aside their superstitious, pagan ideals and take up this great work. I want to purchase this course from Dr. Robinson as soon as possible. Also the course that follows so we can have them on hand at all times. I want his books, and I want everything that he has to offer when I am in position to pay for it.

The paper inclosed came out of one of the lessons. I would like to have this if you don't mind, so am sending it in this letter so you can send it back if you want me to have it. I cannot write to the Doctor yet as I would like to do, because I cannot say how I received my lessons.

Also many other blessings are coming our way. I have located my son that I have never known. My first wife left while I was serving in France during the war. The child was born and she divorced me, and I never got to see my boy. This was part of my reward for my service. I also was badly injured, and have suffered out the years in poverty. We own our home, we have what we want, and my son is coming to me after 22 years. My wife is happy, I am happy, and we have found the power in part, but we are still working hard to accomplish all we can.

In the parcel I am sending tomorrow you will find lessons one to seventeen. The other three will go forward Tuesday or Wednesday morning by insured parcel post. I trust that you will not be delayed in your class work. Keep it up, it's a great study. I'd like to talk to you regarding this study, and our work together in this field.

We have to re-read the last three lessons, and on account of so much illness we could not get off to a good start. I was too near blind to read, but I can read fine now. We lost our friend and neighbor across the way, (Dr. Allen). He always liked to talk to us, and his passing took from us a fine man, but his ideals and ours differed on religion.

I can show my picture in wheel chair, on crutches, and the records of the Government hospitals give me five fatal disabilities, with no chance of recovery. PSYCHIANA is fast bringing me out of that shadow of the grave, and who knows perhaps but that I will be restored to normal life in time. If this fact materializes, I want Dr. Robinson to know about it. I want your class to know what has come to us. Tell them not to doubt, but to have faith. We believed in the power of the living God.

We received from that power the things we wanted.
We thank thee oh Father that thou hast heard us.

You cannot doubt one line of this letter. You know it's true. No one can doubt this letter and believe in the power of the Living God-Law.

I am pledged to secrecy regarding this study for the time being until I have the authority from you or Dr. Robinson about how we obtained our lessons. So until I hear from you again regarding the matter I will say that if a person ever worked to help another, I am going to try to send unto you every blessing in my power.

To say, "Thank you" or to try to "pay" you would be far from any manner in which I would like to compensate for the wonderful help your favor has done for us.

At present our income is not sufficient to pay for more than the bare needs of life, but we haven't asked for wealth. If and when it does come, I want more of these lessons, and the books listed on the paper.

Let us hear from you soon, and in the meantime in the words of PSYCHIANA, We are finding the power of the Living God. The God-Law has made us happy, and into that great Spiritual Realm we extend to you our sincere thanks with a full heart.

Yours in faith,

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

We certainly appreciate your loyal cooperation, and rejoice to learn of the good things which are coming to that dear friend of yours. Again this demonstrates the fact that there is no limit to what the Power of the great God-Realm can do for you if you will but recognize its actual presence and let it be the controlling impulse of your own life.

As these truths of God slowly unfold themselves to you, it will be necessary for you to pass them on to others. Then, in the degree to which you give them out, you will be refilled. You can most effectively keep the flood-tide of Power coming to you by telling others of this Teaching and then sending their names and addresses to us. In this manner you will find the "secret path" to God.

May the Spirit of Infinite Peace be with you always.

Dear Mr Robinson

I am enclosing a letter rec'd from Mrs Thompson of Haskell Okla. Last May I was visiting in Haskell and met Mr Thompson and found him in very poor health he was shot five times and gassed during the world war. After talking to him I found he thought along same lines as I. and knowing Psychiana would help him I felt I should offer him your first course of lessons, and you can readily see by his letter what a blessing it has been to him.

I asked him to earnestly study
it and put it to work. Then -
return lessons to me which he
did this past week. After you -
have read his letter please send
it back to me and value it very
much, now that I have my
lessons back I am going to
begin all over again and try
very hard to put the God law to work
I have had so much bad luck
and disappointments in the
last year just couldn't get down
to it, my health is all right
but in a terrible financial -
strain, some day I hope to go
on in my studies with you

My dear Friend and Student:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to receive your remittance of \$2.25 which has been placed to your credit.

We rejoice to learn of the new hope and better days that are already coming your way, and we are absolutely depending on you to realize that the great God-Power is right where you are and is all around about you. You know just as well as we do that this same Power which created you, can take care of you, and will do just this thing as you recognize its presence and let it be the controlling impulse of your life.

Then do your best, hopefully, trustingly, expectantly, in your home, at your work, with your associates, and with all others who are in a position to cooperate with you. Count on us to help in a spiritual way, expect complete victory, never give up, and let us know just as soon as the new hope and better days begin to come your way.

I wonder if it would be asking too much, if I asked you to mention this Teaching to a few of your friends, and then send us their names and addresses on the enclosed form. This Movement will grow through the individual contacts each Student makes, and both Doctor Robinson and I will esteem it a personal favor if you will do this for us.

Your Psychiana certainly is wonderful, it has given me a different idea of God and also the Creation.

A few days after receiving my Third Lesson, The Power came to me so strong that it almost scared me for a minute. I also had a few faint glimpses of it before.

But I am satisfied that I have a lot more to learn about about the Spirit God and how to use it. Ever since my wife passed on two years ago, I have been very much troubled with Constipation and pains in my head. And to some extent effected my left eye.

But can you imagine since my experience mentioned above, both afflictions has left me.

Its wonderful. I'll be looking for my fifth Lesson today.

My dear Friends:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

Confidently and continually realize that the great God-Power is right where you are and is all around about you. Then you know just as well as we do that this same Power which created you, can take care of your dear brother, and will do just this thing as you recognize its presence and let it be the controlling impulse of your life.

Carry on--with your doctors, your nurses, your associates, and with all others who believe in you, say a word in your behalf, or cooperate with you. Count on us to help in a spiritual way, expect complete recovery, and write again--brave letters like yours make the work seem more helpful and more hopeful.

May the Spirit of Infinite Peace be with you always.

Sincerely your friend,

My dear Friend and Student:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

We rejoice to learn of all the good things that have come your way since we began the study of this teaching. We are absolutely depending on you to continue to realize that the great God-Power is right where you are and is all around about you. Then you know just as well as we do that this same Power which created you can take care of you and will do just this thing as long as you recognize its presence in your life.

Then do your very best, hopefully, trustingly, expectantly, in your home, at your work, with your associates, and with all others who are in a position to say a word in your behalf or cooperate with you. Count on us to help in a spiritual way, expect complete victory, never give up, and let us know as the new hope and better days continue to come your way.

Dr. Frank B. Robinson; -

Dear Sir,

I just must let you know what Psychiana has done for my wife and myself. I read my lesson No 2 and I received a job and worked ever since. I surely am very thankful for that, for I didn't work for over 2½ months and work being so slack. We both have the most sound and restful sleep, due to doing our relaxing exercises nightly. We cannot thank you enough for what Psychiana has done for us and will do. Dear Dr. Robinson as yet I did not receive my 2nd lesson for September, that is lesson No 5.

I am anxiously looking forward for
your early delivery, for your lessons
are so interesting it just seems one
cannot wait until we receive them
to see what is coming next.

We want to thank you again,

My dear friend and student:

Doctor Robinson has asked me to thank you very much for your good letter enclosing \$5.00 which has been placed to your credit.

After carefully noting all you say, we rejoice to learn of the improvement that you have made and we are depending on you to confidently and continually realize that the great God-Power which created you, can take care of you, and will do just this thing as you recognize its presence and let it be the controlling impulse of your life.

Then do your best, with your friends and associates, and with all others who are in a position to cooperate with you. Count on us to help in a spiritual way, expect complete victory, never give up, and write again when time and mood allow.

As these truths of God slowly unfold themselves to you, it will be necessary for you to pass them on to others. Then, in the degree to which you give them out, you will be refilled. You can most effectively keep the flood-tide of Power coming to you by telling others of this Teaching, and then sending us their names and addresses. In this manner you will find the "secret path" to God.

May the Spirit of Infinite Peace be with you always.

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

We rejoice to learn that "it works." We are absolutely depending on you to confidently and continually realize that the great God-Power which created you can take care of you, and will do just this thing if you will but recognize its actual presence and let it be the controlling impulse of your own life. As soon as Doctor Robinson is back in the office again, I am going to call his attention to what you say in regard to the World's Fair. I do not know just how it could be done.

Please write again when and whenever time and mood allow and tell of the progress you are making for yourself and on this new idea of yours.

I wonder if it would be asking too much if I asked you to mention this Teaching to a few of your friends, and then send us their names and addresses on the enclosed form. This Movement will grow through the individual contacts each Student makes, and both Doctor Robinson and I will esteem it a personal favor if you will do this for us.

May the Spirit of Infinite Peace be with you always.

My dear Friend and Student;

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you.

We are also grateful for the list of names, and shall gladly send our literature to these people at once. I wonder if it would be asking too much if I asked you to mention this Teaching to a few more of your friends, and then send us their names and addresses on the enclosed form. This Movement will grow through the individual contacts each Student makes, and both Doctor Robinson and I will esteem it a personal favor if you will do this for us.

We rejoice to learn of the wonderful healing which came your way, and we want you and those you love so dearly to confidently and continually realize that the great God-Power which created you can still take care of you, and will do just this thing if you will but recognize its actual presence and let it be the controlling impulse of your own lives.

Please write again when and whenever time and mood allow, for some way, somehow, your good letter has already made the day seem shorter and the work more helpful, more hopeful, and more happy.

My dear friend and student:

Doctor Robinson has asked me to thank you very much for your good letter. We were happy indeed to hear from you **once more.**

After carefully noting your brave and beautiful testimony from start to finish, I am absolutely depending on you to confidently and continually realize that the great God-Realm is right where you are and is all around about you. Then you know just as well as we do that this same Power which created you can take care of you, and will do just this thing when ample faith is manifested. Be sure to remain steadfast in your faith, for it is only through faith that the results you are seeking can be brought about through the Power of the great God-Realm. Do your very best, hopefully, trustingly, expectantly, in your home, at your work, with your associates, and with all others who are in a position to cooperate with you. Count on us to help in a spiritual way, first, last, and all the time, expect complete victory, and let us know just as soon as the new hope and better days begin to come your way.

May the Spirit of Infinite Peace and Power abide with you forever.

Wolf Point, Mont. P. Terney
(1) Aug. 28 - 1938.

Dr. Frank B. Robinson,
Moscow, Idaho.

My dear friend and Teacher - I, Moses White Horse Sr., a full blood Assiniboine Indian of the Fort Peck Indian Reservation, Montana, do hereby make this testimony. My father told me that my mother died when I was a small baby and he left me from this world when I was six years old. I left my people at an early age immediately after my father's death. I went ^{to} an Indian School at Carlisle, Penna. in June 1892. I stayed 9 years and forgotten my Indian language. While in school I was taught that super-natural religion never knew that I was being lead in a wrong direction. I kept on this religion of a God in Heaven up to a year ago, when I saw an advertisement in a magazine and then I got in touch with you but prior to this I had trouble with my wife, I told her of things which she must look out for as it will surely come to pass if she did not listen to me and how I come to warn her is something I do not know to this day. She left four small children and her home with out any cause to me. Here is the part where I now believe that there is no such a thing as a God in the sky. After she left my small baby

^{to}
 bay, [^]cries in the evening and the rest of them would
 join their brother in crying and I would break
 down myself. I use to go to ^{the} hills with them and pray
 to that God in the sky. Nay in the night I would ask
 for relief and comfort and early before sun rise I
 kept it up for several months but no response, finally
 I wrote you in January 1938 this year and you was kind
 to let me join with you and to day I am glad to say
 that the Creative Intelligence has witness my thoughts
 which I am now putting in writing. Since I have had
 these lessons I have had visions showing my future
 I have experienced considerable change since I tried
 to forget the super natural religion. I have been doing
 my part when circumstances permit, to talk to others about
 the Great Life Spirit, and I am glad to say that there
 are some of my Indian people beginning to see the light.
 I'm in a material way going to the top and I hope the day
 will come when my Indian people all over United States
 will know the real God and which I have found with
 my own efforts earnestly, sincerely and faithfully since I
 have studied the lessons and help my self. just as I have

said before in my former letter that every thing is working against me but I realize that I will overcome all these things, I am letting the spirit lead me right now as I know the God Law will lead in right direction, I shall never regret that I accepted this message.

I will not be able to be at the Convention as I am not financially able to go, but I am or at least asking the Life Spirit that we shall all receive benefit and the enlargement of our movement.

May the Infinite Peace and Power abide with you all. I am your friend and student.

My dear Friend and Student:

Thank you very much for your good letter. I was happy indeed to hear from you and certainly glad to know that you are in perfect health at the present time. There is no question but what the Power of the great God-Realm can do this every time we need it done.

If you haven't progressed as rapidly as some, I think it is probably because you may not be grasping just what I am teaching here. I am going to give you a couple of statements which may help you a little bit.

There is one great outstanding fact I want you to recognize, so read this paragraph many times over, for if you do recognize this dynamic Truth, in the moment you do, it will in all probability flash upon you as a blaze of all-illuminating light. In this next paragraph is contained the secret of the power of this philosophy, so think it over and reason it out until you grasp it.

There is only one great Life-Spirit which we may call God, if we choose to use that term. This Life-Spirit is the motivating impulse and is the life behind every created human being. If it were not for the present existence in you and in me of this spirit of eternal life, our physical bodies would collapse and they would carry us out to the undertaking parlor. Now, if this invisible life impulse in you and in me is the life which is God, then do you not see that all the power, wisdom, and intelligence of this great God-Realm is existing in you every moment of the day and is subject to your demand?

If you are having difficulty in "contacting" the God-Realm, this shows me that you are not quite clear on

the picture as it exists. It is not a case of making a contact with the God-Realm which has never existed before, but it is a matter of recognizing this contact which has existed from the moment of your birth and which moment by moment demonstrates as Life in you.

There may be a misprint in that "Crucified Gods Galore." I'll look it up the first opportunity I get, although the plates are already made for it, and there is a sheet somewhere at the end of the book which calls attention to those little misprints.

Regarding the swallows, there is nothing unusual about that, because it is only a demonstration of the Power of the great God-Realm. I have had in my backyard for years two bluebirds who come back on the same day, and I think you will find that wherever birds of any type migrate, they always come back on the same day. It is just simply proof of the existing Power of the great God-Realm.

Don't forget that your life is part of a greater life, a greater consciousness which is God. If I can be of any help to you in understanding this stupendous fact, please feel free to write me personally for I'm very much interested in every Student.

Sincerely your friend and teacher,

FRANK B. ROBINSON

Dear Dr. Robinson,

A few weeks ago I sent you a telegram asking you to do what you could for my heart trouble, which was caused by over-exertion and was very serious, as there was soreness in the region of the heart and pain with every beat, a choking sensation and extreme weakness and I staggered when I walked and I am glad to tell you that all those distressing symptoms have gone and I am in perfect health, and I thank you very much for your kindness in giving this help, I have finished The Advanced Course No. 1 and should be able to master these things myself and not bother you, but for some reason I have not progressed as rapidly as some, probably I am over-anxious I mean to keep everlastingly at it as I find new and wonderful truths each time I go over my lessons, which is continually. I am not blessed with the mentality of the gentleman who wanted all his lessons at one time though I am considered above the average intellectually, which is not saying much.

I do thank GOD that HE has given us you to show us the folly of the old superstitions and dogmas we were blindly following.

Dr. Robinson I would like to call your attention to a reference on page 205 Crucified Gods Galore 2 Chron. V22. there seems to be a misprint, I find no verse 22.

I am enclosing a clipping about the swallows of San Juan Capistrano.

May the power of the LIFE SPIRIT be with you always,
Again thanking you for your kindness I am ever
your pupil.
