My dear Mr. Kelly:

Thanks for your good letter. I was happy to hear from you. The sum of \$2.25 has been placed to your credit.

I rejoice with you in the light which you have received as to the way the mighty God-Law operates. I anticipate many future successes for you. There are no limitations to the Power of God that I know of. I shall remember the fact that you have already learned that you cannot use the God-Law as long as you do not presume its existence. But if you presume the existence of an intelligent, unseen, spiritual God-Law the picture changes.

May the Spirit of infinite Power be with you always and if we can be of any further assistance to you with the Lessons please let me know.

Dear Psychiana: -

Weekly

7/10

I am writing to ask if you received the \$5.00 I mailed a few weeks ago, for a year's subscription to the weekly - and I failed to receive the Feb. 24th Number - and also the last one - Mar. 9th.

You asked us to let you know if it did not come regularly - and I don't want to miss an issue.

I am a little worried

about the \$3.00 I sent you - as I (very foolishly)
sent a \$5. bill, instead of a money order, as I should.
So please let me know if you received it,
as my dollars are very scarce. In fact I could
not have subscribed, if my neighbor, Mrs. Flynn
had not gone in with me on it. She put in \$3.
on the subscription. We both enjoy the weekly and
get a great deal of benefit from it. Tell Dr. Robin-
son that his efforts are not in vain - we sincerely
appreciate the weekly, and miss it greatly when it
does not arrive on schedule;

My dear Mrs. Love:

Thank you very much for your good letter and remittance of \$3.00 which has been placed on credit to you. I am happy to know that the Lessons are so wonderful to you.

If you knew how many thousands of people write us as you did, you would know that at long last, the actual truths of God are being made known to men and women on this earth. For too long have the churches told us that we were born in sin and shapen in iniquity, and doomed to hell-fire unless we believe what they teach. What man needs to understand is that he is the very highest production of God, with all the Power of God living in him. With that conception of God is grasped, the earth will be a paradise I assure you.

Just as soon as you recognize the present existence of the Power of the Realm of God in you, that is all you will need because it will not be very long until the consciousness of that Power in you will flow right through you and then everything you do will be the right thing and you will be a very happy person.

May the Spirit of Infinite Power be with you always and if we can be of any further assistance to you with the Lessons, please let me know.

I love her so much I would lay down my life for her recovery any time if it would be necessary. My prayers before I knew of Psychiana were not directed in the right channel. I was praying to Jesus Christ as I had been taught to do. now I know better.

My dear Mrs. Lutke:

Thanks for your good letter. I was happy to hear from you. For your information I will say that "PSYCHIANA" Students use affirmations, not prayers. Study the Lessons carefully for this as well as many other things to be made clear to you.

For too long the churches have told us that we were born in sin and shapen in iniquity and doomed to hell-fire unless we believe what they teach. Dear Teacher:- (3)

I have just finished reading lesson no 5 again. I have read it several times and it is surely great. In fact all the lessons are wonderful. There are no words strong enough to describe them. I am reading them faithfully and understand more each time. To tell you the truth I havnt believed in a God sitting on a throne for a long time, such a God as the orthodox churches preach and teach. In fact, I studied ~~Orthodox~~ ^{Christian} Science for several years but though I was able to demonstrate healing to a certain extent, I could never get out of the rut of

poverty. My husband + I
have worked hard all our
lives and saved and lived
a clean sober life. We do
not believe in drinking
or gambling; yet all we
could do was scrape along.
There was never half enough
money for the things we
needed let alone luxuries.
We raised 6 children 5 boys
and one girl to manhood +
womanhood; none of our children
finished high school. My
daughter is a musician
she played 1st. clarinet in
the Burlington High School Band
she also plays piano + guitar
+ ukelala. Now she has 3
children lives on a farm

and her music is somewhat neglected. We didn't have money to send the children through school. I do so hope I can understand to put the God law to work for me. My husband is working steady since the middle of Sept. He is a carpenter finisher, he said his boss signed up for eight houses Monday last. My son also is working clerking in a food store. And here is the good news. I have a bank account the first in 10 years. already it is in 3 numbers. I will get my teeth pulled, & a false set made very soon now, that will take off some of the account but I will

have my teeth. I have had only 4 teeth in my upper jaw on the right side and 2 in the lower jaw on the left side. They are no use to me as they are. I want to ask you, "How does one pray?" To what does one pray in Psychiana, or does one pray? I believe as you do, if God helped or caused our being here on earth he surely is responsible for our action + health. I can't seem to overcome the necessity of taking physic.

Can one use more than one affirmation such as concerns ones health, at the same time one is desiring wealth or a car or a home? Oh we need so much

Dr. Robinson, we were almost
paupers when I wrote you first.
Now we are getting on our feet
thanks to you and Psychiana.
My husband and son want
a car so badly, our car is very
old a 1929 chevrolet and is
needing much repair all
the time also tires. What
could they do about it? I want
to send for your literature
in the near future, But
now I feel I should study
the lessons every minute
of my spare time, for if I
neglect my lessons I
will not get the benefits I
am needing so much. And
too much reading matter at
hand may upset my routine

of study, I am a busy
house wife with everything
to do myself. I canned
150 qts. of tomatoes and
made catsup & tomato juice
of tomatoes, ^{there is} corn, peas, beets,
carrots, & brant and beans
yet to can also comforters to
make beside my housework,
tis about all I can do. I do not
find much time for reading
What makes me so sleepy
when I want to read or study?
Some times I am so sleepy
I have to lay the reading
aside and walk around to
wake up. Well I want to thank
you again Dr Robinson for the
great work you are doing in
bringing people to their right senses.
I am glad I found your teaching
when I did. Yours truly

PSYCHIANA.
Moscow, Idaho;

Gentlemen;

I am receiveing the PSYCHIANA Weekly and also my Magizine. and PSYCHIANA lessons, The Psy chiana Weekly. is simply grand I think, I look foward to these teachings with great pleasure. and I read and study them ahead of anything else. and I might add too that I have gotton more out of Psychiana than anything I have ever come in contact with. infact I wonder some times how I lived this fifty years without it, Take up to much space here to tell of all and the many benfits I have gotton from this teaching, The most pityful thing I can think of is that the masses of people who are hungry to know about GOD dont know anything about this teaching. it is really pityful, I know lots about it myself. but that is not saying much since this teaching is so far ahead of what the different beliefs teach, Yes it is a million miles ahead of it, And so all I can tell them is to get it from Dr Frank B. Robinson, and when they once get it they will have it as long as they live, Once they know their oneness with GOD they cant turn loose, infact nobody would want to turn loose, What? Well, There are servel now whao are taking these lessons from Dr R. on my acct, and they almost shout when I ask them how they like it, They too wonder how they have lived this long with ^{out} any light atall,

Just thought I would drop Psychiana, a line to show them I still appreciat what it has done for me and is doing,

Dear Mr Robison.

I want to say that it has been a year since I completed the twenty lessons. They have enabled me to discard many things that was taught me from my youth up. but by grasping the power that these lessons sets forth they gradually sift away the story of a last willed and crucified redeemer. looks like we had all been kidnaped by the devil and we had to to have a go between to take care of the ransom money, and present us to our father. well the job ant completed yet for the story is that he is still making intercession for us. Well for my part I will take the one way street where there is no obstruction in the road, it is paved by the same power that created me and lives in me which power is inseperable. may God hasten the day when all men may know him. I thank you Dr. Robison, for these lessons thats full of inspiration

I love to read your lessons and Psychiana Weekly. The Spirit of God as revealed thru them is very beautiful and wonderful. I'm trying hard to contact this God Law, for I need the Power of the Living God at all times and most especially now because I am so grieved over my son because he has gone back to "drinking". Please do help to throw the Power of the Living God against that terrible deamon - whiskey - and drive it forever, out of his life.

He used to drink, then quit after taking up the study of Psychiana & did fine for quite a time.

I'm sorry to have to call on you - since you are so very busy but I don't know what else to do.

You will hear from me later.

Corning, N. Y.

My dear Mrs. Menihan:

Thanks for your good letter. I was happy to hear from you. I believe that you will do well to go over the Lessons again for they are grounded in Spiritual Truth and are designed to show you how the mighty God-Law operates.

I was sorry to learn of the illness of your daughter. There are no limitations to the Power of God that I know of. The only thing for you to do is to throw the invisible Power of God against the illness or the disease, for no disease or illness can withstand the Power of God.

I rejoice with you in the fact that you now know something about how the mighty God-Law operates and have grasped "the mighty significance of life," as you put it. I anticipate many future blessings to accrue to you from the God-Law.

I enclose application blanks to my two other courses, which will give you the information you ask about.

May the Spirit of infinite Power be with you always, and if we can be of any further assistance to you with the Lessons please let me know.

Cordially yours

My Dear Dr Robinson -

I have just received my seventeenth lesson in your course and it has helped me so much to grasp the mighty significance of life. I feel as if the whole course has changed the whole conception of "God" and His nearness and am finding my faith strengthened every day. Yet I am not satisfied with my progress and intend this winter to review the whole course and do some intensive study.

I am with you in thought every night as you wished your students to be and as it is at 12 o'clock midnight E. S. T. I am very quiet and I always ask

MRS. LUCY G. MENIHAN

20 EAST SECOND STREET, CORNING, NEW YORK

you to help strengthen my faith and to be able to rely absolutely on the God-Law.

You speak of an advanced course and this is the first I have heard of it. May I be informed more about it?

I believe I am paid in full for this present course. In June I sent a check to pay in full and was to receive a book but it never reached me.

I know you are a very busy man and it may have been overlooked.

And now I am going to ask you to send your healing power to my daughter who has a very peculiar growth on her fingers & thumbs around the nails.

She contracted this in Lima Peru where she lived 3 yrs. She came to the States a year ago

MRS. LUCY G. MENIHAN

20 EAST SECOND STREET, CORNING, NEW YORK

and since then has had many specialists and Xray treatments without much improvement.

At first it was diagnosed as warts but since Xray they tell her that it is like a mold and not warts. She has had all Xray that she can take;

She and her husband & baby are sailing for Rio-de-janeiro Brazil next month and I do not like to see her go away to a foreign country again with her poor hands infected with this mysterious disease; Please Dr Robinson will you use your wonderful God given healing for her. I am using my affirmations for her hands too. God bless you in your wonderful work and may your efforts bring more & more peace into this troubled world.

So forgive me for this lengthy letter and thank you for your interest in me. Sincerely Lucy Menihan

Dear Dr. Robinson:

Will you or any of your more efficient helpers please help me out of my difficulties?

If there are any other Psychiana students at McPherson, Kans. or Hutchinson Ks. or even Wichita, Ks. may I somehow contact them as I feel so alone in this work and wish for help in this great work of Psychiana.

A Mrs. Basset of Austin Minn. writes me about their study group and of their progress in all undertakings.

Please tell me how to solve this: My little boy (in spite of my almost constant work against it) is a mouth breather, has adenoids and his teeth are becoming so prominent that it means braces for two years and removal of adenoids which will cost at least \$250.00. Is there a law which will give him an open clear nose with teeth in order, or am I to consent to ^{operations & braces} it and know that the expense will be rightly met?

I have been a Psychiana student for almost two years and feel that such problems should not arise. I have been able to understand the God-law and avert troubles many times, but this problem seems to grow larger and makes me unhappy.

Will you please help me?

My 18 year old daughter is having almost

serious trouble cutting her wisdom teeth, another thing which I do not meet nor she either.

My ^{oldest} son sent me \$1.00 for Easter. Please send me your weekly Paper until the dollar expires I have been needing more work to read and study and understand. I hope to live closer to God and understand his laws better, and I do want to give out more to others. If I cannot master my own difficulties how can I expect to help others?

It seems to me that a weekly message will help all of us who are working in the Great God-Realm to understand the laws of success better and accomplish more for the great principles for which Psychiana stands.

Please find stamps for a reply and the dollar inclosed. Thanks very much.

My dear Dr. Robinsen,

One of my Psychiana-students here in town, a certain Miss C.H. Raket, who follows the lessons is very badly handicapped by illness of her eyes. She asked me if it will be allowed to call on you for help in her awful physical condition. I told her that you have been always so kind to thousands of people who were in distress, so there will be no reason ^{to} ask your assistance in this question. One of her eyes is as good as out of order and the other is very bad. Her heart-desire is to find through the Psychiana Lessons the power of the Living God to cure her blindness, which is still making more progress.

The defect is a chronic one and she has it since a long time. She has tried all and every things from the best known medicine. She is a nice and good old woman, has in a certain way a deep conviction in Psychiana. I am absolute sure that this good lady, who is unmarried, an ex-teacher with keen intellect, good education, good language with a great erudition, would be in whole different physical condition, if she had the luck to have been a married woman and a mother of a dozen children.

I believe that the unsatisfied womanly desire has put a bad trick on her constitution, which is the case of so many unmarried women, nervousness and all different kind of neurology is often the trouble of many old maid.

In whole her manner, action, in the way as she expresses her feelings, her will is always the great power which is the tractor of her way of proceeding, to become the things of her desire. I told her that the way to come in contact with that great omnipotent Godpower of life, is the absolute believing in that Power. She has to plant this believing deep into her heart. This believing must be the tractor and not the human will, but the human will must come behind the case and then it would be a motor of great help, not otherwise. This ^{is} to me the great hinder in her good results, what the case is with so many people, putting the will in front instead of the faith in the Godpower.

This lady is of Jewish origin, I tell you that regarding her chronic eye-disease. Hoping that these informations will give you some hints if you will answer her letter for your help. I am sure that you will try all what you are able to do for she is a very good lady and in her trouble so dependent on other assistance. I am if I can in any way willing to assist her, as a diligent pupil.

I receive the Psychiana Weekly in good order, my best wishes with your paper also for your and Mr Tenney's work and efforts.

It seems to be a great pity that you are so often on the slippery road of the politic. You brought the world a particular nice and beautiful message about the Power of the Living God. My dear Dr Robinsen, "The cobbler mustn't go beyond his last. Germany the cradle of the present world democracy founded by a German Jew Medahay, who has found even as Italy a new world-vision, seems to be not quite in your line. Youself told the world that Mezes makes such awful mistakes and do you Medahay, even if he call himself Marx, is perfect in his world-vision? Be careful Dr on that slippery road. With friendly greetings, also to Mr Tenney, Yours very truly H. Lagge.

Dear Friends-

At this writing I am very sick with influenza I must have slipped up some where. But I have not give up, and could not if I wanted to for such courageous men as you are. I am more than pleased with the "Psychiana Weekly" I think it is wonderful for one thing sure I can pass it on to others to read. Because I cant get any of my home folk to read it, they only nock me and say while I am sick I better apply my Dr' Robinsons Psychiana. I mention this as just a little of what I am up against. I feel like I am a failure some times & then I take courage and say I am one with God. There cannot be two powers, and I thank God for courage and makes me follow through. Please pray for me that I may overcome all my trials & obstacles & be well & helpful to all who may need help. Sincerely yours Mrs D. P. Pruitt.

Thanks for your good letter. I was happy to hear from you. Thank you very much indeed for the donation of \$2.

It pleases me much to know that you have been quite successful in contacting the God-Law. You say there are times when things do not "come clear". A ship at anchor when surrounded by fog is just as near us as when the atmosphere is clear. So it is with God. He is always near—yes, within us for our need. Won't you keep this in mind and apply the great Power which is God?

May the Spirit of Infinite Power be with you always. If we can be of any further assistance to you with the Lessons please let me know.

Dear Dr. Robinson:-

|| I wish
to tell you how we enjoy
the "Psychiana" Magazine.
Every week there seems
to be some article which
especially helps us in
our study of The Spirit
of God.

My husband and I
have found the Spirit
of God and know
who he is and where
he operates. Psychiana
has been our help to

to do this. We are very thankful and grateful.

Perhaps we are too ~~conf-~~ ~~usions~~ ~~ious~~ but sometimes it seems that things do not come clear and while we know that the Spiritual Power is trying to tell us what to do or say it seems hard to understand the message.

Any thing or any words you can give us to help will be gratefully received.

When our friends try to persuade us to come to their church we tell them we attend our church in Gods Temple

which he builded. We also explain to them that we work with God and study of him every day not just on Sunday.

It seems hard to get people to see the Truth of God even when they are so hungry for it. They still want to operate the material way.

We have had many manifestations of Gods Spiritual Power and it is surely "wonderful". I am using that word that is so overworked but it is the best I have to describe it with.

Our good thoughts go to
you and your staff and
enclosed please find
\$2.00 to help for whatever
you need it most.

PROLOGUE.

D. R

Mr. Robinson:-

I have taken the liberty to transform your own headings into verses as to show you my literary versatility and original conception of your meaning.

This machine is "bumz as you'll see. P.R./
"PERHAPS."

Perhaps your problem lacks SUCCESS-
Which as it nears you, always fails.
"Perhaps, - "What chance in life have I."
You ask yourself, with loud bewails.

2.

Perhaps, Down deep in hidden self,
An inner urge to up and at it.
No guiding hand your doubts to purge
Until despair's your daily habit.

3.

Perhaps, not Midas, your touch makes dross.
'Tis not because you're doomed to fail.
Went to call daily gains a loss;-
While drear mis-givings you assail.

4:

All wealth of this, our earthy ball,-
Is owned by only ten percent.
Thinking for self they o'ercome all-
Leaving the ninety's lives mis-spent.

5.

That inner-man, called soul or God:-
The GOD-LAW, as I'D have it known,-
Like peas, well cradled in their pod,
By other means cannot be shown.

6.

Let's PSYCHIANA now embrace,
In understanding love e'er walk
And take the chance to see God's face,
And even with our God to talk.

Pardon the suggestion, but this has turned into a mighty good circular letter in verse.

I have many such, buried deep in my mental "ocean caves."

Hoping that you can use it I hereby give it to you.
Please credit it as far in your lessons as you value it.
It is written in your own first person, thereforee valueless to anyone else.

With the best of LUCK, I am sincerely yours,
Paul G. Rogers.

I am sending another article written against Mr. Coughlin, but our local paper said it was too sectarian.

Mr. Robinson:-

The following lines were furnished to show you my ability to transform verse into prose

Perhaps your problem lacks success -
Which as it nears you, always fails.
Perhaps, "What chance in life have I?"
You ask yourself, with fond bewails.

Perhaps, Down deep in hidden self,
An inner urge to upward as it.
No guiding hand your doubts to purge
Until despair's your daily habit.

Perhaps, not hidden, your touch makes cross.
'Tis not because your's doomed to fail.
Went to call daily giving a lesson:
While great mis-givings you assail.

All wealth of this, our earthy ball, -
Is owned by only ten percent.
Thinking for self they overcome all -
Leaving the ninety's lives mis-spent.

That inner-man, called soul or God:-
The GOD-LAW, as I'd have it known, -
Like peas, well-ordered in their pod,
By other means cannot be shown.

Let's a PSYCHIANA now embrace,
In understanding love e'er walk
And take the chance to see God's face,
And even with our God to talk.

Paraphrase the suggestion, but this has turned into a mighty
good original letter in verse.
I have many such, buried deep in my mental "o-
cean caves."

Hoping that you can use it I hereby give it to you.

PERTINENT LOGIC.

It is with pleasure that I see where a very powerful influence on the radio is to be "gagged". Centuries ago religion and state were found to conflict, creating persecution, cruelty and torture.

The population of this country was started by those wishing to escape from the horrors of that time, and to be free to worship as they pleased. Through the American freedom of speech, a door has opened so wide that through it comes utterances that insidiously endanger the very foundation of our government, and also foster a secret hatred through adherence to religious beliefs.

If given privilege to air political opinions, from the bias of religion, it wouldn't be long before the church would become the nation's octopus in lobbyism, perhaps even usurping the presidential chair; an event that would bring us back to the days of Cromwell and the accompanying disturbances of his day. Watch your votes--curb your tongue and listen--listen well, before you believe the sophistry of a religions "spell-binder".

My dear Mrs. Rue:

As Dr. Robinson is away in California the best that I can do for you today is to tell you that your good letter will be on his desk when he returns.

As you and yours relax, study, or review confidently and continually recognize the Omnipotent Presence which created you, lives in you, and still sustains you. Talk with it. Follow its lead. Depend upon it, and realize what the Indwelling Spirit, which is God, can mean to you and do for you.

Work with those who know you best, and believe in you most. Let us help spiritually. Write again, as the new hope and better days continue to come your way.

I am going to give a word of thanks for the faith or power we receive thru your teaching. Our neighbor went thru an operation at the tongue several days ago and last week had one kidney taken out. But he is getting along alright. I can't say the thoughts I send to him help any but I am hoping he will soon be back home a healthy man. Dear Dr. Tenney:

Several days ago I ask your help for a little child stricken with Eukemia - This little child passed on, Saturday. The parents thot it was God's will that the child should be taken, so rather the mother died - She is Catholic, the father has no time for religion of any kind. When his little boy (died) (their only child) he said "Had God take my child? I am hoping the child's death does not ^{(completely) (them) (being)} He must believe some how there is a God, or why should he of made such a remark - asking why God took his child. Some day surely death will be conquered -

In January I ask that you continue sending the grand little paper Psychology Weekly (in which you died) and that I would recd \$2.50 by March 15. Please find this amount enclosed \$2.50 for payment of 6 months, beginning with the first January issue. I will mail the remaining \$2.50 for the remainder of the year in about 6 weeks.

I do appreciate your kindness. I merely drew upon that great God Law. I knew you would do so. - We want a new home. and I know to etit

Dear Doctor Robinson -

It was with a great deal of enthusiasm that I read the first half dozen of your lessons and started to apply them, but in getting your Weekly Magazine must confess my enthusiasm is not what it was at the beginning.

For 23 years I have been paralyzed from the hips down from polio, being unable to walk, and in this last year have had what I term a "divine urge" to be healed. This has entailed an examination and for that matter application of healing philosophies from California to New York. Prior to that my leisure and inclination led me to a home study of languages, including the NT Greek, which in turn was but a step to an interest shown in a current concordant translation. This "concordant" method has revealed truths that I know are almost completely hidden from the more accepted versions. Now I would say that despite your adherence to the popular English version, you have consciously or unconsciously sponsored a number of things that are true according to this more scientific version. For instance, the illusion of "free will" is abundantly upheld, as is the illusion of the "fall of man" in Genesis. However, you have no real support for your use and implication of the word "eternal". Meaning "without beginning and without ending" as it does, it is an impractical word, and really can convey no meaning to our practical finite minds. God doesn't use words of this type. Again and of course the crux of my objections to your development of theory is your denial of the Christ. In the light of the precision of these new translations with their subsequent understanding this is untenable. It will not stand up. The biggest aspect of this scientific revelation of God's Word is the supernatural origin of these writings; their greater-than-human construction. THEY BEAR WITHIN THEM THE EVIDENCE OF SUPERNATURAL ORIGIN. An unbiased study of the infinite (I was going to say) interlocking of the word, the verse, the chapter, the book, will speedily

#2 Dr. Robinson

convince any unprejudiced mind that here is something in its own way as remarkable as anything you describe of the nebulae, marvelous and true as they are. If the one causes you to rhapsodize, as I cannot blame you, so will the other. If the one bears internal proof of your contentions, (and I do not disagree with you an instant), so does the other.

So what are we going to do; what and whom are we going to believe? You say that God has no mind; is essentially not of a personality; you rule out the existence of our Lord, the Christ, as being shall we say superfluous or contrary to your findings. What are we going to do with the plain statements, buttressed as they are by this internal proof of supernatural origin - what disposition are we going to make of them? The Scriptures say the eons were formed in Christ (incidentally the Greek word "eon" is mainly translated everlasting, eternal, etc. in the KJ version). As a matter of fact it states that the whole universe was headed up in Him. What of God's various dispensations, offices, aspects? What of His love, His ~~wrath~~, His grace, His patience, His judgment, to mention some of them? What of faith; what of divine premonition that comes to some souls? How CAN you eliminate the personal qualities that go to make up this matchless Being, one in Whose image we are created?

As stated before, you have so much of truth as verified by this modern uncovering of God's Word that it is a pity it has to be sullied by such a wholesale denial as you appear to feel the necessity of making. I personally don't feel the need to eliminate these facts in order to drink of the spring of your unfoldings.

To conclude, it seems a pity to me that you should confuse man's actions with God's rock-like word. Pure human logic, which after all is a non-existing entity, would uphold you; those of us who revel in the unfoldings of God's revelations, exclaim inwardly as it were - "so THAT'S the course of His operations -- I could never have reached that conclusion with my unaided intellect". It is at that point that you fall down so miserably to those of us who take up this imperishable yardstick.

Doctor, I only wish you could see this; and what is perhaps of more importance, I wish you had not committed yourself so publicly and so violently; you have taken a stand so uncompromising that it would require almost a superhuman being to revoke it. You in all truth have become a veritable slave of your pronouncements. I say this in all kindness. Sincerely yours,

Samuel Saywell

Dear Dr Robinson.

Just a bad penny bobbing up again.....

I've been reading the last Magazine and a thought came to me which I am going to pass on..for what it is worth.....

What do you think of sending to all churches..all thinking people Your students ect ect this affirmation..to be in turn to be sent to the waring Nations..England included.(for I think England isnt too hot herself..with so many little slum children ect....) anyhow send it to all including our own HEADS of Government...This ONE affirmation..."PEACE...HARMONY...LOVE..." That's all.Dont you believe if the millions of people who really have the good of the world on their hearts would be willing to send a thought of this kind, (and it's my opinion that a THOUGHT of love and peace will do more good than any guns or anything else..BUT it MUST be a building up affirmation).then it will wing itself a way on that Cosmic Ray and reach the peoples in our MINDS...What do you think??????????????

After all Dr Robinson..God is in Hitler..Stalin and the "umbrella man..Chamberlain...and even F.D.R...ha..lets try..shall we..... to reach the God in each with this thought....

One time not long ago you wrote an article in which you said you did not like to preach funeral services..I have such a beautiful poem that an old preacher friend uses almost entirely without any thing else..I dont know the author..but it is beautiful so I am sending it to you.....

Hope all is well with you..I could relate many wonderful things which have happened to us in the past few years..but then you know about what they are SINCE I am still a good Psychiana.... student..may God bless and keep you and yours....

Sincerely...

TO THOSE I LOVE

When for my soul the messenger of God
Has come, and I have left you for a while,
Although you miss me in the paths we trod
So joyfully together, let the smile
Of glad thanksgiving take the place of tears
At every memory sweet, and think of me
As waiting for you through the happy years,
Until God's angel shall your spirit free.

And as you gather 'round the silent form
Where once I dwelt, let no regretful thought
Nor sorrowing word be yours, but true and warm
With hope may all you say or do be fraught,
Rejoicing that my eyes are seeing now
The wider outlook of a higher plane,
That I have soared to find a loftier bough,
To sing to God a more transcendent strain.

Not with the hushed footsteps, nor with looks of gloom
Come ye, dear friends, the last farewell to say
To my deserted house. But let the room
Be filled with sunshine and the glorious play
of outer air and light. For it is meet
That we should realize with exultant joy
The weight of earth no longer stay my feet,
And songs of triumph should your lips employ.

There is no separation. You and I
Shall have sweet concourse as in the days of old,
And often in the silence, standing by
Your side, our hopes and wishes shall enfold
In quick vibration, and our hearts shall know
Such glad at-one-ment with the Father's will,
As proves that spirit nevermore can go
From spirit, God must be our union still.

You will not think nor speak of me as dead.
There is no death. God's messenger is LIFE,
Who takes us by the hand, as soft we tread
across the border without pain or strife.
So let this day of my departure be
To each of you dear hearts, a joyful day,
For, since the Father is in you and me,
We all are one - there can be no "away".

New York City, New York

My dear Miss Shelton:

Thank you for your good letter and the remittance of \$2.25 which has been placed to your credit. I am happy to know that you are feeling so much better as a result of these Lessons.

If you know how many thousand of people write us as you did, you would know that at long last, the actual truths of God are being made known to men and women on this earth. For too long have the churches told us that we were born in sin and shame in iniquity, and doomed to hell-fire unless we believe what they teach. What man needs to understand is that he is the very highest production of God, with all the Power of God living in him. When that conception of God is grasped, the earth will be a paradise I assure you.

Each one of these Lessons is grounded in Spiritual Truth and has demonstrated that fact in tens of thousands of lives the wide world round. So as these Lessons come to you study them carefully, for they are designed to show you how to use the Indwelling Power of the God-Paw against all undesirable conditions.

Cordially yours,

Frank B. Robinson: Dear Sir.

I want to report my first real help from psychiaura. I was accused of slander and other things and I was so worried. I was just sick couldnt eat or sleep and the more I tried to straighten this matter up the worse it got. I was so desperate I then thot of psychiaura and used it as I was taught and this morning when I went to see my lawyer he said There wasnt any case they could bring against me. at all. I could shout and I cant tell you the ~~relief~~ relief I am feeling over this victory

I knew there was no God Law I
had broken and that. The realization
of the God Law could and would

I felt that God had all ready answered

she can use my lectures and
later she can send for her own

she wants them. can you give
her any advise or help in this
matter as she will be sick if it
can't be straightened out for her.
Thank you for every thing.

Moscow, Idaho,

Friends:

I received the first copy of "Psychiana" Weekly this A. M. and like it very much, ofcourse I liked the Quarterly but it was such a long wait for it, just know I am going to like the weekly much better as the articles are equally as good as the ones in the Quarterly and they will come more often . I sent my subscription in for the weekly during the first part of December I think but, understood the subscription was \$3.00 three dollars for six month's so that is the amount which I sent.

I notice for the first time the person who addressed it saw fit for some reason to add the letter n on to my name, now you know that will never do for then it becomes a man's name instead of a lady's .

We are well and healthy here and also my daughter her husband and baby and my other daughter who has always wanted to become a trained nurse went in training Sept. 13th she likes it very much and just completed her four month's there and received her cap last thursday you may know she was pleased and ofcourse you may be sure I want her to be successful .

I shall join all those of Psychiana in the evening thought.

About the Pegler articles they are in our local paper here every day and I used to read them, but did not see the articles about Dr. Robinson as I had quit reading Pegler articles some time ago.

If you remember some time ago I stated that I hoped to have one of each of your books, that still goes. I recently ordered two am expecting them to come next week I just consume every thing written under the heading of

"Psychiana" eventually I will have one of each of your books.

In course no 1 you ask that your student after completing that particular course read Lessons In Truth by Emelie Cady I could not get same at the time I finised the course ,but did get it two or three weeks ago and could readily see that you agreed with it in part,so did I and the part that I did agree with was an inspiration to read . As time rolls on I am more thouroughly converted to "Psychiana" .

Oh yes one of the books I sent for was, shall we know each other beyond the toomb, that particular one I want to read because you claim it to be one of the most learned written by yourself .If nothing ever worried or bothered me^{other} than beyond the toomb I can truthfully say nothing would ever bother me,I dont see any need for taking any thought for beyond the toomb since becoming converted to "Psychiana"

If at any time I feel that I can make a suggestion which possiably would be helpful in the magazine you may be sure it would soon be on its way to yuu .

Weekly

Friends:

I have been thinking several days of writting to you what I want you to know is this, that I am enjoying the weekly and look forward to it weekly with pleasure. Seriously thinking and speaking lets dont kid ourselves into thinking there is only one power in this world for if you face the facts you will know there is tve.

One being among other things Good, it is life, it is love, and truth, truth being a very important and mighty power of what I would call Ged .

Then there is the ether power which is lies and ~~call~~ the bad things that goes with lies and deceit and that also is strong but truth wins its way while lies and deceit always tangle themselves up sooner or later but any one facing facts must admit it to be a power which does much harm.

All through your teaching you point to the teachings of all past religion as being false and forgery yet they are organized and are to some extent a power.

I am going to ask the Editor or Manager of our local paper here if he cares to publish some of the articles from the Psychiana weekly I notice that you have an advertisement in the weekly to the effect that newspapers may copy providing they give proper credit ,if you have any back copies of the weekly and care to send ^{three} me three or four for that purpose I assure you I will take them down to the newspaper office . I do not mind to lean one of my copies to any one to read but I want to keep every word of Psychiana sent to me and usually when any one is good enough

to loan such things, folks are careless about returning them and some times never return them, I loaned out one of the books which I bought from you which has never been returned. At present I am reading a library book the Author Browne the title being "This believing world" perhaps you have read same it is on religion I would call it a good exposure as far as it goes. I found one some time ago by Bruce Barton title The man nobody knows that was amusing it was refering to Christ.

I wish you every success in exposing any and all false religious teaching and truly hope you will be able to continue until it is all wiped out.

Weekly

Membership No. 14-171.

Dear Mr Robinson.

I have never let you know how much I enjoy reading the weekly magazine, I must say that Mother and I were very disappointed that the Quarterly was stopped, but reading this new weekly has ~~stopped~~ the disappointment, and we are glad now that you changed it to the weekly. We like it better than the lessons all tho the lessons are nice we prefer the weekly so we would like to discontinue the lessons the

for awhile as Mother & I are both short of money and would like to save the money for the weekly when it expires: so I will not send the money for the next lesson I am sorry to do this but I am sure you understand why, (it is always money)

Oh Dr I wish you could visit with Mother once how wonderful that would be she is so thrilled with this study she tells everybody about it who she meets, but at the same time they won't send in there address, and the most

wonderful part of it all is
that she has talked to you
on the telephone by long
distance. of course this
meeting you, will never come
but if it should happen
she sure would have a
lots to talk to you about
If we only had money we
sure wouldn't hesitate to
send it to this great money
but it just isn't there.

Now Mother asked
me to write to you for
her, you see she is 82
years old and she naturally
thinks of death. she said
to the other day if death comes
to her she wouldn't know

who to ask to speak the sermon at the funeral as she doesn't want a minister of any other religion so could you please advise me what to do about it so I could let her know. I know it would help her so much at her age. and what music and songs have you got to go with this movement of (Psychiana) we are so anxious to know will you please write to me if you have a little spare time, I know how busy you are, I hate to take much of your time but maybe you could send me a few lines on this

matter. I may reader the
lessons at a later date.

and thanks for the Weekly
I read it and reread it again
and again I wish it was
still bigger. I guess I would
never stop reading then, that ^{much}
I like it

Thank you.

I do not know whether you

it is way past due. It might
have been lost in the transfer as
one other lesson was, and which
you mailed the second one, thanks.

Right now I haven't very much, but I would gladly give it all rather than loss one of these lessons.

Now I want to tell you that since I returned home from the Hospital, that I am gaining fast in health and weight. The sun is beginning to shine once more for me. The dark clouds of despair through illness and failure are beginning to break away. Thanks to you and Psychiana.

The Hospital care and medicine that I took while there might of had something to do in straightening me out, but I am giving you all the credit.

Please note again that Lesson No 7 has not arrived as yet, and my mailing address is as

3) was. I hope it will not have
to be change again till I have
completed my studies with you.

Dear Dr. Robinson,

Tonight as I lay in bed, my mind centered on a spiritual plane, my body relaxed, but without having my thoughts concentrated especially I heard a murmur as of words in which it seemed your voice and your name were dominant. I have concluded that your research in the power of mind and spirit and my attempts have brought our thought powers of concentration closely parallel. I am convinced that only conscious effort is lacking to establish a true thought telepathy or in other words trans-communication of thoughts between us. It seems to me an interesting possibility. Should you be

equally interested perhaps the
aforementioned communication
may be establish for our own
interest and possibly furnishing
material for study from
a scientific standpoint.

Please do not send me

Thanks for your good letter and I was happy to hear from you. Thank you again for your remittance of \$2.25.

If you know how many thousands of people write us as you did, you would know that at long last, the actual truths of God are being made known to men and women on this earth. For too long have the churches told us that we were born in sin and shame in iniquity, and doomed to hell-fire unless we believe what they teach. What man needs to understand is that he is the very highest production of God, with all the Power of God living in him. When that conception of God is grasped, the earth will be a paradise I assure you.

Dr Robinson

I think it is about time I write to you, as you say, the only way you know how things are going is by writing to you. But there are so many things I would like to tell you or ask you that I cannot write them all at this time. There are so many kinds of Religion but they all work different, from what I have seen and heard, especially the last few month. I had neuritis in my arms and could not work for six weeks, and that gave me lots of time to think. I have experienced many things since that time many times I lay in bed just thinking, and before I can say beans, somebody out in the street will repeat what I thought. That small voice I hear nearly all the time when

I am not busy. I had been very nervous for a while up to a few weeks ago, but am pretty good now. Some things sure have me guessing such as, when I go into a place where there are some people. I guess I dont need to tell you what happens. after a while I will hear one say to the person in charge, why dont you put nerves on, or something else. Sometimes I hear something like a rasp. Some wish I would go out even if I dont talk to anyone. But there are other things I hear and see ~~to~~ but I can help others much better then myself. Once in a while but not very easy. Some of my friends (if I can call them that) say I am to good natured that is what is keeping me down

I am not going down but I¹³
am not going ahead. I might
say just standing still. I did
not force things very hard yet
as you say in one of your lessons
to do a thing my conscience
tells me not to do I am sure
to lose. But some little things
come my way to prove to me that
the law works. I have experienced
the things you said such as
being called crazy or a fool
and many more. But my hardest
problem is right here at home.
I will not write about it at
this time. I am sure you know
about home problems so I will
leave it up to you. But I am
holding out pretty good against
all of them.

as I said before there are ⁴
so many things I would like
to ask you, but will leave
them until some other time
If I did not word some things
right I think you can fill
in for me. Now I want to
continue my studies, so I am
enclosing \$3.00 for the first 6
months.

My dear Friend and Student:

Your remittance was duly received on March 4. We certainly appreciate your kind words for Dr. Robinson's Weekly.

The manifestations you describe are perfectly natural. They may come again, or they may not. In either case, we are depending on you to confidently and continually recognize God's omnipotent, helpful, healing, loving Presence.

Work with those who know you best, and believe in you most. Let us help spiritually. Plan now to expect and report complete victory.

Dear Doctor.

Received my thirteenth lesson yesterday. I am always so happy to get the new lesson.

I also enjoyed the week very much. and wish I could get it. But I hope before long that I can get it. It seems that I am just a ^{little} slow in getting this work. It is all so different to any thing I have studied before. You speak of expecting

the thing I need or want, that is
just grand. Now don't think that
I am not trying hard. But this ^{is} what
comes up. how are you going to get
it, better plan for it. I have lived
nearly fifty eight years, and to have
any thing I had to see the other
end of every thing befo I could want,
and that is the thing that makes
trouble for me now. But it will,
I hope, come out in time.

I have no vibration. But I have the
Colors, a lot of the time. Mostly Blue.
It don't ever stay to one while spot
as you stated. It is always Electrically

I did not think it mattered
so let it go. Did you get my
last payment. It was sent March
the second. There was a mention
of it in the lesson, I hope
it was not lost. It was two. One
Dollar Bills.

yours sincerely

My dear Mr. Wilkins:

Thanks for your good letter. I was happy to hear from you. The sum of \$1.25 has been placed to your credit. We have made a note of the change of address which you gave us.

I am very glad indeed that you have made great progress already and have learned something of how the mighty God-Law operates. Indeed, I rejoice with you in the fact that you were able to get a good job. I feel quite sure that you and your family will find success and happiness in the future. I anticipate many blessings upon you in the future.

May the Spirit of infinite Power be with you always; and if we can be of any further assistance to you with the Lessons please let me know.

Cordially yours

Dear Mr Robinson:-

I have had some of your writings and read them very closely and enjoyed following your point of view and I have read from other writers too so I wish to call your attention to the article in Liberty dated April 13th 1940 by Mahatma Gandhi.

Would it be asking too much to spare a few minutes ~~in~~ writing ^{as to} ~~me~~ how this article appealed to you? I don't see any of your work in news stands in this section.

Seems a book form of your teachings could reach the general public at less cost. Liberty for one sells for 5¢ and what a store of information, how much is true, time only will tell. Best regards to you Mr Robinson.

Yours truly
