My dear Mrs. Archer:

Thanks for your good letter. I was happy to hear from you. If you knew how many thousands of people write us as you did, you would know that at long last the actual truths of God are being made known to men and women on this earth.

It pleases me indeed to know that you can report at this time that you have experienced a "wonderful change." Indeed, I am of the opinion, from your letter, that the Spirit of God is doing many great things for you. Your part is to always look on the bright side and to be expecting further help from the God-Power generally. Write in to me soon again with another such good report.

Cordially yours,

Dear Dr. Robinson:-

I wish to thank you for your encouraging air mail letter of yesterday, and especially your gathering together in behalf of Kenneth Hawkinson's condition. Mr Arnold Hawkinson, brother to the injured man just came in and such a broad grin or rather smile on his face was enough

for me for I knew that he
was a bearer of good news.
This is what he said:

"Frank I just had a wire
from Kelley Field Texas
and it said, Brother opened
his eyes and smiled."

"Dr said there was no
fear of coma but they
said his temperature was
normal and that was
all they were concerned
about".

The brother told
me he never prayed more
in all his life for Kenneth.
I told him to have faith
in what Dr Robinson had
requested for Kenneth.

In reply he said. "I
certainly will have faith

I told him I had a book called "Blood on a sail of a Rig" that I wanted him to read and also me lessons in Psychiatria. He is so pleased that I am to hear every day as to his brothers condition. Well Dear Dr. Robinson I don't know where to begin to thank you for all you have done for me in requests for help from the God Law or Life Spirit. I imagine other people may be coming to me from now on for help and I am going to say that I hate to impose on you, but

The God Law wants all its children to know of him, and in this way may be spreading the knowledge of the "right way".

Pardon this long letter, but I want to tell you of my doctor friend whom I sent a message to you for help. He is almost a good as ever but does not practice medicine to date. I have not told him of my request for his recovery but now I feel I should do so. I will then find out his reaction on the subject. With oceans of spiritual love to you and yours I am

My dear Mrs. Berg:

Thanks for your good letter. I was happy to hear from you. Thank you also for the names of your friends which you mentioned enough to send me. The sum of \$1 has been placed to your credit.

It pleases me to know that the Spirit of God has helped you so much physically of late. Your part is to continue to depend upon the Spirit which is God to help you generally. There are no limitations to the God-Power, I assure you. Quite naturally there are different emotions and manifestations which come to these good Students of mine when they begin to recognize something of the Power of the Spirit in them. They are perfectly normal and you are very fortunate in having these emotions and manifestations. What they really mean is that you are for the first time recognizing that the infinite Power of the Spirit of God is in you. Write in to me soon with another good, positive report.

Thanks for your good letter. I was happy to hear from you. The sum of \$2 has been received on the Donation Lessons. Thank you.

It pleases me to know that you received such wonderful help physically. If you knew how many thousands of people write us as you did, you would know that at long last the actual truths of the Spirit of God are being made known to men and women on this earth. All of this goes to show that there are no limitations to the Power of the Life-Spirit to help generally. Provided you will continue to maintain your faith and confidence in the God-Power to help you, all will be well, I assure you.

I am sorry, but we are not sending out literature to Canada at this time because of the war. Provided you will send me the names of your friends later on, we should be pleased to send them some of our literature.

My dear Mrs. Dale:

Thanks for your good letter. I was happy to hear from you. The sum of \$3 has been placed to your credit. I am very glad that you can report at this time that your husband has employment. I can understand just why you are happy about it too. I am very glad that you like your Lessons so well. Be sure to continue to study them carefully with the idea in mind that they are grounded in Spiritual Truth.

Please realize that faith in the God-Law is to be exercised by you. Incidentally, faith is not something mysterious or something hard to grasp. Indeed, we must have faith in many ways in order to live one day of life. Faith in the God-Realm operates in exactly the same way. Your faith in the God-Power should be as natural and easy as eating and drinking--and you may use it NOW.

If we can be of any further service to you in any way, Mrs. Dale, please let me know.

Congressional Record

PROCEEDINGS AND DEBATES OF THE 77th CONGRESS, FIRST SESSION

War, Peace, and Trade

REMARKS
OF

HON. ROY O. WOODRUFF

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, August 4, 1941

Mr. WOODRUFF of Michigan. Mr. Speaker, Mr. George N. Peek was special adviser to the President on foreign trade and president of the Export-Import Bank through 1934 and 1935. He was the first Administrator of the Agricultural Adjustment Act in 1933. He resigned from the administration at the end of 1935 because of irreconcilable differences in point of view on the farm and foreign trade policies of the administration.

For the past 20 years he has given a large part of his time to the study of farm and foreign trade matters. Prior to that time he was in charge of trade—foreign and domestic—for one of our largest corporations.

He was a member of the War Industries Board in 1918.

It is generally agreed that Mr. Peek is one of America's outstanding authorities on foreign and domestic commerce, especially with reference to the exchange of agricultural products.

Recently Mr. Peek, at the request of the America First Committee, prepared an answer to the claims of the war interventionists that we cannot live in the same world economically with Hitler in the event of an Axis victory. He submitted his answer to the committee on May 14, 1941.

He was invited to present his views on the same subject to a meeting of Town Hall in Los Angeles on July 14, 1941.

In connection with these recent presentations of his views, he has directed particular attention to the addresses of the President and Secretary Hull on the occasion of the celebration of National Foreign Trade Week. At that time the President stated:

International commerce in a world dominated by totalitarianism would never be carried on for the mutual benefit of all. * * * Therefore, it is idle for us to talk of future foreign trade unless we are prepared now to defend the principles upon which it is and must be based.

At the same time, Secretary Hull set up five peace points:

1. Extreme nationalism must not again be permitted to express itself in excessive trade restrictions.

2. Nondiscrimination in international commercial relations must be the rule, so that international trade may grow and prosper.

3. Raw-material supplies must be available to all nations without discrimination.

4. International agreements regulating the supply of commodities must be so handled as to protect fully the interests of the consuming countries and their people.

5. The institutions and arrangements of international finance must be so set up that they lend aid to the essential enterprises and the continual development of all countries, and permit payment through processes of trade consonant with the welfare of all countries.

Mr. Peek's views are especially timely, and on July 21 I inserted in the Record his remarks before Town Hall in Los Angeles, Calif., on July 14, 1941, to which I call the attention of the membership. The address follows:

ADDRESS BY GEORGE N. PEEK

The war interventionists, in their campaign to involve this country in foreign wars, have made some broad and unsupported assertions respecting our foreign trade and our de-

pendency upon it which they ask us to swallow whole—hook, bait, and sinker. A short time ago Wendell Willkie, in an article published in a national magazine, appeared as an advocate of the view that participation in the war was necessary to save our foreign trade. No reasons were given, however, why his views should be taken seriously on account of any special knowledge or experience in the field of trade, foreign or domestic. His statements again may be regarded as just campaign oratory—this time in a campaign to involve us in a foreign war. On May 17 the President, and on May 18 Secretary Hull, added their voices and the prestige of their high offices to this same view and this same campaign, seemingly oblivious to the fact that for 7 years past they have been acclaiming their foreign-trade program as a great instrument of peace. Nevertheless, the high prestige of their offices will not overcome this inconsistency. Enough to say that the arguments of one are the arguments of all. They stem from the self-interest of a few. They are built on a false theory of trade. Their case will not stand up before a jury of American informed opinion.

The American people are entitled to hear both sides of this question before being stampeded into war and they should be afforded an opportunity to make up their minds after full and open discussion, in their own forum, the Congress of the United States. So far, that opportunity has been denied them just as it was in the 1940 election.

The assertions of the interventionists fall into three general classes:

That Hitler can impoverish America by causing our economic collapse by cutting off our export markets and by denying us access to the imports of vital materials we need;

That if Hitler controlled a large part of the world politically, thus increasing his bargaining power, he would be in a position to dictate terms to us; and

That we cannot compete with his slave labor, his barter system, and his goldless economy.

the sour grapes. But even if we had no gold in this country we could still lead the world in trade on account of our unrivalled resources and the productive labor of a free people.

There are many considerations involved in trade besides price. Design and adaptability of products for the work desired, terms, delivery dates, personal equation between buyer and seller, and numerous other things. Frequently we hear the phrase, "Quality is remembered long after price is forgotten." If price were the sole measuring stick the manufacturer with the lowest price would be selling all the goods, be they automobiles or what, but this does not happen.

The answer lies in the diversity of human demands and in mutuality of interest between nations and regional economic areas, all things considered. Under these circumstances there is only one intelligent procedure for us to follow, and that is to recognize the conditions under which trade is now conducted between nations, and then, so long as governments control the foreign trade of their nationals, to negotiate country by country for the terms and conditions under which goods may be exchanged satisfactorily. Each country must recognize frankly the needs of the other.

If regimentation is to result, as the war interventionists say it will, my answer is that I would prefer to regiment the 5 percent of our economy which is represented by our foreign trade, than the 95 percent which is devoted to our domestic needs.

We must recognize the fact that we cannot prescribe the rules and regulations for all the world. Rather, if we are going to engage in trade with other nations, we should use our strategic advantages to negotiate in our own interest.

We should, of course, keep ourselves in a position to join with other nations in improving methods of trading if and when the time comes that the rest of the world is ready to consider a change. But, in the

406016-20943

meantime, we should refrain from playing Santa Claus and from opening our markets recklessly to nearly all the world and so exposing our national economy to influences from abroad over which we have no control. Our need is for more defense of our national economy—not less.

The preservation of our free institutions is essential, not only for the peace and welfare of our own people, but as an example to the rest of the world of the success of the American way. Nevertheless, any attempt arbitrarily to impose our way upon other peoples, regardless of the social and economic structures of their own making, would be futile and foredoomed to failure. It should be resented just as we resent propaganda antagonistic to our form of government.

Earlier in my remarks I referred to the arguments of the war interventionists as stemming from the self-interest of a few. Generally I referred to the 18 percent shown by the Gallup poll of the people constituting the interventionists. More specifically, I referred to those who profit most from international trade—the international bankers, ocean transportation companies, marine insurance companies, exporters and importers, and so forth, as distinguished from the business concerns who do some foreign business incidental to their domestic business but whose business is primarily domestic. All of the latter group, if compelled to choose between a prosperous American market and one periodically shot to pieces by foreign events, in times of peace and war alike, as ours has been, would choose the American market.

I think that all of our foreign policies, political and economic, should be related definitely to our American needs and ideals, with the objective of protecting and perpetuating the form of government and the economic policies which have made our country great. Our aim should be to make possible to all Americans the fullest benefits of our form of government as granted

by our Constitution and the Bill of Rights. The first requisite to this aim is knowledge based on reliable and comprehensive information, so that we may know what the problems are and consider them fairly. The second is a realization of the principle that foreign policies, whether political or economic, must not be permitted to destroy or impair either our form of government or our standards of living.

The question boils down to this, Shall we take advantage of our position of geographic and economic security and contribute to world peace and prosperity by developing our own country and by attending to our own affairs, or shall we involve our Nation in foreign wars under the guise of protecting a theory of foreign trade which, as has been shown, is detrimental to our welfare? Shall we dilute our Nation's strength with the world's weakness? There rests our choice.

My dear Mr. Jackson:

Thanks for your good letter. I was happy to hear from you. The sum of \$1 has been received for which we are sending you my book, WHAT GOD REALLY IS. Thank you for your order. I am very glad that you agree with me intellectually and that you like your Lessons so well. Be depending upon the Spirit of God to help you generally and know fully that there are no limitations to the great Life-Spirit to do this.

Please remember that it is not a case of making a contact with this great Power Realm which is God, for that contact was made when you were born and has existed in you ever since. I am very glad, however, that you understand this somewhat at this time. Too, I am glad that you have appropriated and applied the Spirit of God to your physical needs and that you are able to report that you are "no longer afflicted."

If you knew how many thousands of people write us as you did you would know that at long last the actual truths of the Spirit of God are being made known to men and women on this earth.

If we can be of any further service to you in any way, Mr. Jackson, please let me know.

Dear Doctor Robinson

X Found God (at last) file

Please except my apology for being a little skeptical and not writing you sooner. From the very first lesson, as a matter of fact from the first bit of literature that I received from you, impress me greatly in the way you directed ones own thoughts. Although I could not help seeing from the very first, that your description of God was closer to the real truth than anything I have read or heard from the time of the apostles to the present day teachers of theology, Never once has there been a doubt in my mind that God could not perform the so called miracles in my life, the trouble was do to my ignorance of the right ^{away} to contact him, I was seeking a God in a place that wasn't there. I felt as though I had a personal connection with God, and yet the force of his power did not seem to flow. It has taken the reading of the tenth lesson of your instructions, to bring to me in full view the switch to make the contact. Thank you Doctor, you probably never will know what this has meant to me, for I have had a secret affliction for a good many years but, now through the Power of God its gone. I shall not try and describe it, for I wish it to remain a secret between God and myself, the important

thing is, I am no longer afflicted.

Doctor if you think you have received
 great blessing by your own thoughts and prayer, I wonder
 what your benefits shall be, now that I have added
 mine in your direction, I am sending forth a stream of
 thoughts for your success, that if you receive only
 a part of the benefits that I pray for you, you shall
 be one of the greatest men in future history that
 the world shall ever heard of.

Again Doctor Robinson, I thank you for
 guiding me in the right direction.

My dear Mrs. Kelley:

Thanks for your good letter. I was happy to hear from you. I am very glad indeed that you and your husband like the Lessons so well and that you are getting so many good intellectual things out of them. Your part is to continue to study these Lessons carefully, and to depend upon the Spirit of God to continue its help in your life as well as in the life of your husband.

If you knew how many thousands of people write us as you did, you would know that at long last the actual truths of God are being made known to men and women on this earth. For too long the churches have told us that we were born in sin and shapen in iniquity and doomed to hell-fire unless we believe what they teach. What man needs to understand is that he is the very highest creation of God with all the Power of God living in him. When that conception of God is grasped the earth will be a paradise, I assure you.

If we can be of any further service to you in any way, Mrs. Kelley, please let me know.

My dear Mr. Kendrick:

Thanks for your good letter. I was happy to hear from you. The sum of \$2.25 has been placed to your credit.

Quite naturally there are different emotions and manifestations which come to these good Students of mine when they begin to recognize something of the Power of the Spirit in them. They are perfectly normal and you are very fortunate in having these emotions and manifestations. What they really mean is that you are for the first time in your life recognizing that the infinite Power of the Spirit of God is in you.

Yes, I am of the opinion that the Spirit which is God has been very good to you, and it seems to me that your letter is proof that the God-Power has been operating in your life. If you knew how many people write us as you did, you would know that at long last the actual truths of the Spirit of God are being made known to men and women on this earth. Won't you write in to me soon again, Mr. Kendrick, with another good report?

Dear Dr. Robinson;

Two years ago three doctors had given me up and gave my husband absolutely no hope of my recovering from a very severe heart attack. However I recovered enough to be up and around, but I was of absolutely no use to myself or anyone else. I went around like that until last September, when in desperation I turned to "Psychiana".

Now I am very happy to report that although I am not completely recovered I have recovered sufficiently to be able to do most of my housework again, and I am very thankful to "Psychiana" for this improvement. I also hope to be able to report to "Psychiana" soon of a complete recovery.

Sincerely

What happiness + fullness

off I so much desired
a supreme happiness.
I have always had a

am thrilled to say that
I have acquired domestic
happiness. I certainly
couldn't ask for anything
more.

I am twenty years

my accomplishments

that. Incidentally, sir,
I would like to acknowledge

more than glad to hear from
you. I suppose the reason
I wrote to you at that
time was that I had
temporarily lost contact
with the God-Law &
its life giving power, and
had allowed negative

of me. But now that true
happiness has again
taken hold of me, I

know I'll never let it

Dr, Robinson,

Dear Sir,

67 file

I am so happy to be able to write you this morning, and tell you, my life has so changed and the God Law is really working for me. I have had so many wonderful manifestations of its power, in the past few days. The other evening a very strong drawing in my very being to write and tell you a few of them, I do not know where to begin, and do not wish to tire you, as I know you are very busy.

I am alone most of the day, and as I was doing my work, all at once it sounded like some one was in the room with me, and these are the words, What do you want, that was before I had fully made up my mind.

You will remember I told you I had ^{7th} centred my thoughts on health, as with out good health, one cannot be really happy.

I visited my Dr, last, Jan, 3rd, and each week sense then I have noticed a change for the better, and today my health seems perfect, and I have no fear in my mind at all, but a sweet peace.

I used to have a headache often now if I have one, I just dont keep it at all and do not take pills eather, such little things as that are taken care of in short order. I cannot begin to tell you how much these lessons have ment to me, and I spend one hour each day with the lesson on hand.

Last Sat, night I did not go to sleep till after three in the morning, just thought these words over and over again, The Living God is makeing me whole, and did not want to sleep, it seems foolish to tell you about it, but it is the truth just the same, and sense

then I have had such a wonderful happy feeling in my whole
being, maybe you will understand, I can not tell any one else
as they would think me very foolish, but I know better.

Sincerely your friend and student,

Ella L. Newcom,

My dear Mrs. Newcom:

Thanks for your good letter. I was happy to hear from you. I have been expecting to hear from you with a good report. So I am not surprised, therefore, that you have written me such a fine letter.

If you knew how many thousands of people write us as you did, you would know that at long last the actual truths of God are being made known to men and women on this earth. The only thing to do, of course, is to keep in mind at all times that there are no limitations to the Spirit of God to help you generally. Won't you do this?

May the Spirit of Infinite Power be with you always. If we can be of any further assistance to you with the Lessons, please let me know.

Cordially yours,

~~Dr. Robinson,~~

I do hate to bother you again, but think I must explain to you some things that have happened to me during the study of these lessons.

Last Tuesday when I wrote you such a worried letter I did not understand what was wrong, but I believe I have found the answer, yesterday morning I still felt depressed and something told me to go see a lady down the street, and I took her some of the messages you sent me in the beginning of this course and left them for her to read, we talk about this course, and she has noticed the great change that has taken place in me the last few months, I think I have been too timid to talk about it to others, after I left her house I felt like I was walking on air and have felt all right sense.

In the study of the sixteenth lesson I am sure I found a part of IT only I did not hear the still small voice or see the view before me. So I am not worried this morning at all because the Spirit makes itself known to me most of the time and in the quiet hour I take each morning I feel the Power going through and through me so strong there can be no mistake about it.

Back to the first lesson, I heard the still small voice but have kept it to myself for fear of others not believing me or thinking me crazy, I was alone at the time and had been studying, it asked me very plain What do you want, I just looked up but did not seem surprised to not see any one and I knew it had to be God or the Life Spirit it could not be any thing else.

I have told those that I have talked to that this course is the most wonderful thing that ever came in my life, I have received some wonderful experiences that money could not buy.

Sincerely
Ella L. Newcom.

My dear Mr. O'Connor:

Thanks for your good letter. I was happy to hear from you. The sum of \$2.25 has been placed to your credit.

It pleases me very much indeed to know of the progress which both you and your wife have made through the operation of the Spirit of God in your life. I am not surprised at this, for thousands of my Students write in and tell me how much the Spirit of God helps them generally. When you realize this, you will know that at long last the actual truths of God are being made known to men and women on this earth. The only thing to do, of course, is to continue to depend upon the Spirit of God to solve your problems and those of your wife.

If we can be of any further service to you in any way, Mr. O'Connor, please let me know.

Dear Dr. Robinson:-

It is high time I write you as to our progress and benefits received after having studiously and faithfully perused (hardly missing a day) your most outstanding and wondrous lessons. We are in the seventeenth lesson now, it having arrived September 2nd.

As I wrote you the early part of the year, I had not been in good health for several years. I did not emphasize there that I have not been able to earn any substantial amount of money since July 1938, due to this health condition and that I was in a most deplorable state of mind when we discovered your ad in the Chicago Herald American. These financial circumstances of course, and our former lack of spiritual understanding, caused us to reduce our cost of living to about one fifth or one sixth of the amount we were normally spending.

I am making the above illustration as a comparison to our attitude now, under a slightly smaller income, since we have been reading your lessons. Personally, it took me four or five months of reading your grand lessons, to finally find myself quieting down. Looking back, I really do not know just how Mrs. O'Connor could sleep in the same room with me, (for we have only a small apartment) I was so nervous and just couldn't help it at the time. This condition as I look at it now, seems to have been a build up of over a period of years, which I will not go into here as it would take too much space, but I trust I will have the good fortune to meet you face to face at some not too distant date and reminisce a little relative to this condition.

We are both finding so much more actual courage and piece of mind and future optimism as to the possibilities

in our surroundings that it would not sound logical to most people. The thing that I have ^{made} the greatest effort to manifest has been health and now, Dr. Robinson, it is hardly believable the rapid strides I am and have been making recently. Later on, when I can afford to have some pictures made I will mail you one and I feel sure my marked improvement over the one I sent you sometime ago, will show in them. Six months ago it was an effort for me to remember and concentrate upon anything like to precision and those were the things I formerly prided myself upon. At the rate of progress it will not be long now until both Mrs. O'Connor and I will be in the finest fettle and rarin' to go places.

As we live within 200 feet of one of the busiest Street car arteries in the city and facing an automobile traffic artery, it is almost impossible to have anything near quiet only between the hours of one to six A.M. For this reason it has been impossible to follow your relaxing exercises as we would like to. However, Dr. Robinson, I do think I made my Cosmic connection about six weeks ago. Off and on after retiring, for about a month, I would see a beautiful display of flashes and beautiful cluster star displays at the end of my spiral Cosmic vision while looking into the white spot while the eyes were closed. Sometimes I had to grit the teeth to see this beautiful display. For the past couple weeks it comes every night without any effort whatsoever, as well as some times in the day time when I desire it in meditation upon some subject. But especially have I had the experience of a most beautiful display, as if the heavens had opened in their mighty beauty, several times in the past couple of weeks.

I didn't want to write you until I felt sure that this was my Spiritual Cosmic connection, which I feel is now.

Mrs. O'Connor has had one connection within the past week but she got so excited about it that she lost her contact in opening her eyes to tell me about it. We are both very sure it will come back in due time. She is an excellent student

and most deserving.

As this letter has about reached the epistle stage
I will not write more at this time. With kindest
regards and wishing you every happiness from Mrs.
O'Connor and the writer.

I beg to remain.

Verily

William O'Connor

X general help

Dear Dr. Robinson,

I'm inclosing \$2.25, my monthly fee.

Thanks for your nice letter about my new home. I am very happy knowing that I am able to apply the God-Law. Nothing on Earth can make me change my present belief in God as you taught me.

Friends and relatives have called me an hopeless infidel. I just laugh at them and show them proof that I am right with the only God that ever existed. Just one year ago I was on County relief actually starving in a cubby hole of an apartment. Since then I've been married I mean since I started to know of God from you, I am now in my own home - have life insurance and good health, happiness a wonderful husband - not a worry in the world. I need a little more furniture and will have that soon. I pointed that all out to my friends and relatives as proof.

Because they know that all my life has been spent in poverty and ill health. That does not make one happy, it made me irascible - hence my new pleasing disposition that they all notice the change. It also took off about ten years in my appearance. All due to knowing God and applying God-law.

If you are ever in San Francisco on a visit I hope you'll find time to visit me. You can notify me before hand when to expect you as I am deaf and would not hear the doorbell.

As soon as possible I intend to contribute to "Psychiana" I always keep my promises - and never make a promise that I can't fulfill.

Thank you Dr. Robinson for showing me the light that will ever be turned on.

Rayet. Blanche Puccinelli,

My dear Mr. Valentine:

Thanks for your good letter. I was happy to hear from you. Quite naturally there are different emotions and manifestations which come to these good Students of mine when they begin to recognize something of the Power of the Spirit in them. They are perfectly normal and you are very fortunate in having these emotions and manifestations. What they really mean is that you are for the first time in your life recognizing that the infinite Power of the Spirit of God is in you.

It pleases me to know that the Spirit of God is helping you definitely in certain ways. Now, just as the Spirit of God has helped you in some respects, so are you to expect help otherwise. Indeed, you may depend upon the Spirit of God to help you NOW. I shall keep you in mind spiritually here.

Dear friend and teacher, I am now on lesson thirteen, and I am getting wonderful results, my health is so much better than it was six months ago, that I can hardly believe it, my self.

I have been asking for health, wealth, and wisdom.

Health and wisdom are manifesting so fast that I can actually see it, and feel it, my self, so I am sure that wealth will follow. you said to write and tell you if I experience any strange vibrations. I have been conscious of them almost from the beginning. But I did not know what it was,

I don't know how to explain the feeling, it is almost like a wave of electricity only different. perhaps you will know what I am trying to say. It does not feel like electricity, but that is as near as I can tell you. some times it is like a chill and goose pimples raise all over me. I also see some colors while contacting the spiritual realm. The spot before my vision is most always blue if I cover my eyes. If I don't cover my eyes I do not see any colors.

I am always grateful to you and psychics for showing me how to live.

Dear Dr. Robinson:

Received my 4. lesson on Saturday, Sept. 13. They were 2 days late, I was worried, but glad as they arrived, I certainly believe everything you say and love this lesson as part of my daily living, could I do without them now? certainly not, this is the nicest religious service I ever had all my life long, I wanted to know the truth, about God and Jesus Christ, and that is exactly what you're telling me. I was restless, in the inside of me was something I could not account for or longing, but in the minute, after I even received your free booklet it seemed to be gone, I can not see why not every human being on this earth, should believe you. I have the book "Lesson in Truth" by Dr. Emily Cady, you see I did some searching myself, that is why for many years, I have read the "Daily Word" which also comes from the Unity School from Kansas, City, could you arrange my surprise so I read my 4 lesson that you mentioned this book here, now I am sure that I am on the right

road at last, and found the teacher, who tells me the truth. It was easy for me to put my religious belief a side, I did this right, because it was stuffy and interestless, but your lesson are full of good, you know I am so happy and fuller than all day long, sleep seemed something in the past, I practically can work all day and still feel not sleepy, but I have to go to sleep to do my exercise, but by 5 o'clock in the morning I am right up, and my thoughts are all my lesson it comes so naturally, I do not have to force myself, I am in an expectant mood, and things to happen, I am only a housewife, but I wanted to be a great singer all my life long, do you think I can, I am a soloist in a church, but I still wanted to make my livelihood out of singing, do you think I can, tell me how? I can write like you, dear teacher, but I try to make you understand that my heart is so full of joy. I have never believed that God is a person? I always believe the way I live, and behave that is God, I see in your lesson, that I am more right than wrong, but I never believed in sickness or diseases, I think they can be overcome if humans want to. Thank you from the bottom of my heart for opening my eyes

Sincerely your friend and student,
Claire Hazel Williams

My dear Mr. Woodall:

Thanks for your good letter. I was happy to hear from you. It pleases me to know that you are able to send in such a nice report at this time. I am glad also, Mr. Woodall, that you can say that you are "finding an understanding of the mighty God-Law." Thank you for the many nice words which you have spoken about me and about the Movement.

Your part is to keep your mind absolutely clear and free from any preconceived notions of the Spirit of God. When you do this the natural, indwelling Spirit which is God can flow through you unhampered and unhindered. Then you will find it leading you along the path which leads to a perfect fullness of all the God-Power is.

If we can be of any further service to you in any way, please let me know.

Cordially yours,

FRANK B. ROBINSON

Dear Teacher, I am very proud
of your lessons, also your book.
Through them both I am
really learning to know
God. I believe every word
that you have taught me.
I believe ^{I am} finding and under-
standing the mighty God Law.
The book of your life cannot
be excelled.

Yours for truth,
William B. Woodall.
