My dear Friend:

Thank you for your good letter of recent date. We were happy to hear from you.

I would suggest that Mrs. Magill take her manuscript to an authority on the subject on which she is writing and obtain his opinion of it before proceeding any further. If the report is encouraging, then she would have to get in touch with a publisher and arrange for publication of her book.

If you knew how many thousands of people write to us as you did, you would know that at long last the actual Truths of The Spirit of God are being made known to men and women on this earth. I have been living with Mildred Magill and studying your lesson books with her.

I studied through Lesson no. seven, also studied no. eight some and read lesson no. nine.

I found these lessons helped me so very much; and I will send for a set just as soon as I get some money.

Feb. 25, 1949

Dear Dr. Robinson:

Your Course in Psychiana is
brilliant & easy for me to grasp.

I have been a church member
but for many years seldom see the inside
of a church - the church & the bible
just didn't click. As I read my bible
I thought I saw a little of what you
are teaching. If the learned men of
the church didn't know, then I didn't
understand either the church or the
bible, leaving me neither here nor
there - only confused.

Now along comes you who has
given me what I have been searching

For - a very clear analysis of the bible.

I sent for this Course for the sole purpose of helping a friend of many years, who has gotten herself in a deplorable situation. I am right in the middle of this - not touched other than a terrible heart break. It is best not to interfere in any way other than stand by & give what cheer I can. I just couldn't hold any more when I sent for this Course.

Even tho' my thought & work while studying my lessons has been for her, there seems to be a shower of nice things pouring down upon me, including a \$2400 Coat. But best of all Dr. Robinson, I do not come home & pace the floor any longer. I now know the Truth & see the Light.

My three lessons are out Among
friends which I'll write you about
Another time.

In Grateful Recognition for
your Struggles in Revealing to this
troubled world ~~and~~ me - the Power
of God is living in each one of us.

Dear Mr. Robinson:

Thank you for your thoughtful
letter of April 20th. But oh, what a
sad one.

Dr. Robinson made a statement at
the beginning of the lessons, which
clung to me until your letter came
informing me of his passing. He
knew it was to be. He really gave
his life that others might live.

Mr. Robinson, the Student feels such
force ~~and~~ ^{earnestness} of the Author behind
each word ~~and~~ ^{statement}. He has made
these fundamentals of Truth so very
clear, that even the dumbest can see
through ~~and~~ ^{understand}.

I am now studying my eighth

~~and~~ the Spirit of God are one ~~and~~ the
same thing. It just has to be. There
is no other solution.

May God in His Goodness Reward
all your Faith there in carrying

My dear Mrs. Warren:

Thank you for your very good letter of recent date and for the clipping. We were happy to hear from you.

If you knew how many thousands of people write to us as you did, you would know that at long last the actual Truths of The Spirit of God are being made known to men and women on this earth. When it is understood that man is the highest creation of The Great Life-Spirit, the earth will be a paradise.

It makes no difference whether you call this Power The "Power of God" or not, or whether you go to church or not. This invisible Power of The Creator has always been behind you, nourishing you, and strengthening you and developing you, even through times of doubt and complete indifference. The Spirit of God is no psychic fantasy nor savage superstition. It is as real and regular as the law of gravitation... as universal as the mystery of creation...as near as the last drop of your blood.

He who set the stars in place and made the fields to bloom and men to love and labor is not indifferent to our human pain. We may not see this Power or understand It, but we can find the Truth of It in the smallest blade of grass.

If you attempt to contact this Power as directed, and if you pour out your head and heart, The Spirit of God will take over and bring you your desires. If you are really in earnest, there will come to you strength and courage which He planted in you from the very beginning.

If there is anything further we can do for you, please do not hesitate to write to us.

Sincerely yours,

Dear Dr. Robinson,

I am now beginning my 16th. week of study with you. So many letters I have written you in my mind but none on paper. Some day soon I hope to boil them all down. I am stopping to write now because I am sending a list of names. I sent a small list of friends a while ago, but now I am including the whole faculty at the school I teach. Knowing that my name will not be mentioned I am willing to do this. I have not yet had the courage to be an evangelist openly for Psychiana. I do not feel qualified to do so. I must become stronger and surer myself. Even my husband does not know I am studying this course. The way I do is to discuss your philosophy without naming it. Then if I see one is interested, I can go on from there. This I do believe, that I have helped others indirectly thru my own belief, and actions toward them. So my knowledge is not really going to waste. Surely I see its good effects on my children at school which is my first direct aim. But soon now I am going to divulge Psychiana to my husband when I give him my reasons for not caring to attend our church anymore. It has been just in the past few weeks that attending our church service has meant nothing to me. For years I had a sort of religion but no church to house it. Thru friends two years ago at the university I found the Episcopal church and thought I had my answer. It did serve me at that time to get over a "hump". It was the best I had found so far. But it was not able to give me the practical help I needed and so I could not get interested in becoming confirmed. And I had judged right, for your lessons came to me at the psychological moment and gave me real meat for thought. Now as I sit in the church and repeat the prayers in the prayer book, they no longer have the same meaning for me. In some of them I do not believe after studying with you, so I find it now a hollow gesture. The sermons give me nothing compared to your lectures. How much better that I spend that hour in church at home

studying my lessons. I hope I am not wrong in my decision. I hope Psychiana can live up to my expectations of it. I hope I can live up to the expectations of Psychiana. This is my last chance. If this fails I will have nothing.

I look forward with excitement when a new lesson is coming up. As I have the whole course with me I find it hard to resist a peek into the next lesson before the two week period is over. In your lectures I find the answers to almost all the questions I have ever thought of. Often I say to myself, "I hope in some lesson he will discuss so and so, and sure enough you do. I find them so easy to understand and to remember. There have been a few things you have talked about that I have questioned, but they are for a later letter. I do not expect you to have time to answer them, but it will do me good to write them to you. The biggest one of course is about Eternal life on this earth. I am not interested in it for I only want to live as long as I can be useful. But even if I wanted it I don't see how millions and millions of people could go on living here when science has proved that even now the rest of world could not have as high a standard of living as we do have here in U.S. even - and then it is not high for all. There would not be enough ground to raise food or enough natural resources. I wonder how God would manage that one if suddenly everybody from now on could really believe in Eternal life, and God would be forced to come thru with his promise. This sounds vulgar as I put it, but honest. I do believe in life more abundant while we live it, but surely there must be a limit somewhere and God have some other plan. So here, of course, is my confusion, but I did not mean to go into it this far. Whether there is life, another purpose for our soul after death, does not interest me or seem important unless God reveals to me that it is important. It is this life, right now, for as long as it lasts that is all important to me - how to live it more abundantly.

I have had many experiences in my studying and thought out many things for myself which have been very revealing, but that for another time perhaps. I did

want to thank you for and tell you how thrilling it was to receive my certificate of life membership in Psychiana. I had not expected anything like that so soon. When I opened it I received that same glow as on the day I opened my master's degree from the university. I felt I had worked hard and deserved that master's degree, but I hope you have not been premature in sending me this certificate in Psychiana. I imagine my growth will be slow. It is hard to overcome set habits of 36 years standing - but of course I have the rest of my life to do it in.

. The reason I am sending this list of names from my school is because I have thought that if every teacher over there could believe right now just half of what I believe then I know we could all work together better and make it a good school. It is a hard school with its many racial problems, but I am glad now I am a part of it. Then I thought that ever so often I should keep sending you the names of the faculties of other schools until all in Saginaw were covered. Now just imagine if every faculty member in every school would study your lessons - I am sure we could really make something of the Saginaw school system. What a dream! It seems big to me, but only a dot to you, perhaps, who dream of world enlightenment. But for all I know maybe you have all the names of Saginaw teachers. I do not know how you got mine. Often I am curious to know. Or perhaps it would just be simplest to send you our school directory. Why not. Yes, I think I will do that, under separate cover.

Very Sincerely yours,

(Mrs.) Dorothy E. Warren

Today's Talk—

By GEORGE MATTHEW ADAMS

Power Within Us

I have just read a most unusual little book that a friend handed me to read. It is called: "The Power Within Us," by Haniel Long. It is the brief story of a Spaniard—"Cabeza De Vaca's relation of his journey from Florida to the Pacific 1528-1536." The expedition started out with 580 men, and was reduced to but four, after shipwrecks, hunger, and privations from the coast of Florida to the shores of the Gulf of Mexico—and on the Pacific—an eight year story.

But the significant thing was what happened to this lone Spaniard, the story being related to his King. "I saw a far off light, heard a far off strain of music," he said. Something happened inside of him, and the author of the little book asks: "What can describe a happening in the shadows of the soul?"

I quote again from the little book: "While we were subjects of your Majesty, we had everything life offers, and now we have nothing. To understand what it means to have nothing one must have nothing." The sick and suffering, among the Indians came to them. They prayed—and the sick became well. Said this Spaniard: "Those eyes . . . they thrust me out of myself, into a world where nothing, if done for another, seems impossible."

To this human being came "a self-directing power," and he wrote: "But after one accustoms oneself to the idea, it is good to be able to give out health and joy whether one man have it, or whether we all have it." The little book closed with this reflection: "The power of maintaining life in others, lives within each of us, and from each of us does it recede when unused. It is a concentrated power."

The lesson is that we all have this unused power within us, but that it leaves us, or lies dormant forever, if we do not use it. It is the power of faith of prayer, and of spiritual appraisal, which is the heritage of us all. How little we know of the real quality of life.

Dear Sirs;

I am now on my twenty-fourth lesson and can truthfully say that I have learned a great deal and I do mean something worth knowing and a benefit to me.

I can also say I have followed instructions as told to do. Read each lesson every day until the next one came.

I always thought and told others that the temple that God meant was our own bodies. I read an article which I think very interesting so I'm passing it on to you.

Humanity can be divided into three groups:

- 1-Those who, through ignorance or folly, work against the Creative Law of the Universe, and suffer misery and sickness in consequence.
- 2-Those who know something of the law, but are too mentally **lazy** to co-operate with it, and are therefore frequently among the sufferers.
- 3-Those who understand the Law, work with it, and live a life of contentment and health.

I still say a number of the affirmation every hour.

Sincerely Your Student

Dear Sirs:

About two months ago I received my last lesson of the first course. After those two weeks of the last lesson, I have been reading one lesson of the course every morning, when I finish all the way through till the 26th. one, I return to the first one again. So far I have re-read the complete course over twice and am on the third round. I still seem to learn something new each time and also enjoy the reading.

Wish that some day in the near future I can resume with the next course.

Dear Sir: I received three of these lessons, and oh! how I do like them. I really believe in them. They have Statement in them from the Bible, who can help but to believe in you.

After receiving my first lesson I had so much faith, until the first night that I retired and relaxed my whole body would shake and quiver, without my control, and what few pains that I would have every night were soon shaken out of my

Student No. 10-1858

body. I rest well ever night now and don't have to get up every night.

Before I started your lesson it was a pity how much I would have to get up every night.

I received a statement of my account, but I really don't have the money at all right now, but as soon as I get some money, I will send you some. I am expecting to get a check every month from my step son who is in the Army. When I get one I will pay you some money then.

I hope that you will continue on sending my lesson if you

possible can, because I sure will
pay my Credit Accounts.

You see I don't have any
money that is the reason I
have not sent you any more.
I just had that one dollar
that I sent to you with my

another dollar since. It is
all my husband can do right
now is to keep a little food

We have not barred any

So I do hope you can send
my lesson on until I can
pay you some.

Dear friend and teacher
first a line of thanks for the wonderful kindness you have
shown me and the happiness you have brought me through
showing me the true light of God of which I suppose it is
natural for me to seem to not be leaving as fast as he
would like to leave as I told you at the start of my letter
that my heart was almost half again as big as it should
be now I know the power of the living God has made me
whole still at times my heart seems to run away
with its self my sister that I wrote you about her
health is better than it has been for years and her
business is better than it ever was and improving all
the time oh don't misunderstand me I have improved so
much physically and mentally but I don't seem to be
able to get enough of the power and wisdom of God I know
God has given you so much of the power and wisdom of
God and I want to so much to be able to preach and
teach the power and wisdom of God through the world
I am leaving through you I know you can help me in
health and help me also find the wisdom and
power to teach and preach to the people of the world
the power that is God please help me be able to do this
work through God for God I have tried to help a fellow
prisoner one who is also studying the ~~psychiana~~ psychiana
religion with me I sent in his name and now you he needs
help I have helped him as much as I have been able to
I have talked to God about his condition in my talks

with God and he really seems to believe and study
and I talk to him and encourage him his left hand is
almost completely paralyzed he got nervous and
shaky at times till he can hardly stand up you see
we need the help we know you can give us through the
the power of God has given you I am trying to get a big
class started here am going to have another talk with the
Myersden and try to get to see the preacher we have here
this coming week I know I have your blessings
because I haven't written isn't because I haven't been
studying I study and talk to God quite often during
the day and night some time we will meet in person
and I can thank you personally for what you have and are
doing for me in the party I just spoke about his

Dear Dr. Robinson :-

It has been

a long time since I received
your lessons, so I thought I would
drop you a line or two. I have
been very busy working since
I received your lessons, and
I haven't put as much time
on them as I would like to.
but I am spending more
time on them now. I am only
at my six lesson now but
I am not rushing them as
I want to understand them and
get the fullness of the facts
of truth. I am a single man
Dr Robinson of protestant faith
and my age is 26 years old.

I was very nervous before I received your lessons, but what I have studied of your lessons they have relieved this situation and I am not bothered with my nerves any more. your study of the God's law and your affirmation of spiritual thoughts have made me very happy, healthy and successful. I have ^{been very} ~~never~~ fearful before I received your lessons. I use to worry because I use to think too much about how things would turn out in the future for me and this help to bring on the fear too, but since I have studied your lessons of the God-law it has brought me much comfort and cheerfulness.

(3)

Dear Dr Robinson. I think it is very wonderful how you explain things in your lessons about the planets etc. I did not (~~have~~) ever experienced such explanation about the God - law as I never knew it exsisted, I work for a paper company in Ottawa and I receive a very good wage and I like it very much. I received this job since I studied your lessons as I was unemploy- ed for about three months before that. I am sure the great God - Law was reponsible for me getting this job and I am going to let it guide me always. as I know it will not

let me ⁽¹⁴⁾ down in any way
shape or form. Dear Dr.
Robinson before I close this
letter, I want to thank
you for writing such wonder-
ful lessons that can help
anyone. So I will close
this letter now Dear Dr.
~~Robinson~~ wishing you the
best of luck and I will
never forget you.

your very sincerely
Eddie White

(P.S.) Dear Dr. Robinson ^M
I have mislaid my 10 and 13
lessons and I cannot find
them. I would be very
please if you would write
me and let me ^{know} how
much it would be to
have them replaced.

Church Project

All churches have projects for the betterment of mankind which loyal members support. Below is one being handled by the Christian Scientist church which really touched our heart. On the eve of our hospital opening it is timely reading.

A Desperate Need To the Christian Science Monitor:

The war left many American veterans so badly disfigured that they could never again appear in public. Many of them came to the Republic of Mexico where they could live isolated lives, and I am spiritual adviser to such a group. Fact is, I also am disfigured, having been wounded while serving as

.....
a chaplain in the war.

Many of these men have married native Mexican women and many are alone with only a servant. I must confess that most of these men have lost their faith in Christianity and I must further confess that I am on the border line of losing mine. Christianity as it is widely professed has failed us, and although I do believe that true Christianity can never fail, I find that such is hidden from our view and seemingly cannot be contacted.

These men, through me, recently sent out an appeal for literature and proper books for use in saving our faith. The Christian Science people sent us a subscription to the Christian Science Monitor and some other literature but not a single other group responded. A recent other appeal was answered by most of the fanatic people who heard of us but the letters received actually told us that because we had gone to war we must be punished, etc. Between the hell-fire doctrine of those letters and the failure of rational people in aiding me, I have very much fear for the future of these fine veterans.

I am therefore appealing to the readers of the Christian Science Monitor. Won't you who have proper books for these men please send them? We do not want the ordinary salvation or hell type books. These men have had hell enough for one lifetime. What is now needed are books which will show them how to find a God of love who understands what they are suffering.

Dear Dr. Alfred B. Robinson, -

I think you will remember that some time last August or September I wrote you concerning my son and his eye trouble. I was in California at the time. You asked me to write back as to how he would get along.

At that time I had to leave my Lessons go for quite some time as I was traveling back and forth and could not study them properly so I was as much as three months behind in studying them - Then I took them each for the two weeks and the year of study was prolonged considerably - I just recently finished them and feel that I ~~now~~ deserve my diploma which I received some time ago - So I thank you and am proud to own it and feel I have graduated in Psychiana -

Last summer you suggested we find the best doctor we could get for my son's eye trouble - so my doctor daughter took him to a fine specialist

who was stopping in Los Angeles for a convention. He was recommended by an optometrist friend. My son was very anxious to follow his advice for an operation, but as he was near twenty-one I delayed till his Birthday. Then we came back to Chicago where he could better come under the doctor's care. The doctor resides and has his hospital in Marshalltown, Iowa, and comes into Chicago regularly to care for patients. So, my son has been in his care now for about seven months, healing a degenerative condition of the cornea but before he would operate for the cataracts. My son has no iris and his trouble is quite complicated. But this doctor is known to have done some wonderful work and my son says he is considered the best eye doctor in the United States. Now the cornea condition seems to be very well and he has now an appointment to go to Marshalltown for the operation on May 23. So this has been a long drawn out business for us and took plenty of patience. It isn't much to let you know

but I wanted to let you know we are following your advice and the doctor's advice to the best of our ability - All during this time I have been working regularly on my Lessons which helped considerably to pass the long winter that we used the medicines to heal this degenerative cornea condition - The doctor said we are rewarded - And so before we take the next step I wanted to let you know our progress. And to tell you how much I appreciate the opportunity to study these wonderful Lessons - I would not be without them for anything. The Truth must be out, and God is All. No matter what else -

I was also greatly shocked at Dr. Robinson's passing which I did not know of till December and for two days became actually ill - tried to keep my thoughts on the right road, and then was pleasantly shocked out of my bad mood by a telegram from my daughter from California saying she would be with us in two days which was Christmas, on her way to London England for a new government position. She had not been home for Christmas for many years, so I picked up and cleaned and prepared for the event and my illness was gone and we had a most wonderful Christmas -

and so - Dr. Alfred Robinson, I hope for Psychiana's best success -

I hope to do more my self when I get my own personal troubles in hand - I have a tense nervous condition too, I am trying to overcome - I do not see many people that seem to be interested in these Truths, but have been very little out amongst any people at all in the last months - Relations are very hard to interest, and I have very few friends - I have had much tense work and many problems to overcome over many years - and with God's help I have had many successes -

And so, again I thank you for your good advice, and for the Wonderful Lessons -

Sincerely -

Frances Whyte

Mrs. Katherine K. Wingate
Nacogdoches, Texas

My dear Mrs. Wingate:

Thank you for your good letter of recent date. We were happy to hear from you.

If you knew how many thousands of people write to us as you did, you would know that at long last the actual Truths of The Spirit of God are being made known to men and women on this earth. When it is understood that man is the highest creation of The Great Life-Spirit, the earth will be a paradise.

Keep in mind that you may depend on The Spirit of God to help and guide you at all times, to solve your problems in the right way, and sustain you in time of trouble. Above all, you must keep encouraged, continue to look on the bright side, and be expecting great things from The God-Power. Remember that The Spirit of God is sustaining you and will not fail you.

May the Spirit of Infinite Peace be with you always.

Dear Friend:

I was so sorry to hear of the death about Dr. Robinson a year or more ago. I began studying his lessons that completely changed my life. The way seems much brighter, happier, and more prosperous, at that time I was in perfectly wretched health, and was so nervous I couldn't hardly stay in my clothes. But now I feel and rest much better. Things have happened since studying Physicians that have been so surprising to me. and the presence of the Lord have been so much closer to me. I think we have lost a mighty powerful, and great Leader. please pray for my husband as his health, isn't good. he has been ill, Thanks to you good friends in Christ. Dr. Robinson spirit through Jesus Christ, will all ways strive with me. your friend in Christ Mrs Katherine K. Wingate.

Dear Dr. Robinson:

I am indeed sorry to have kept you
waiting as I have for the next payment.
It was due to the fact that I did
want to take advantage of your
splendid offer, and send \$34.00 all at
once. However, the way did not seem
to open, so will send \$3.00 each month.
Perhaps it was too close to Christmas.
Enclosed is the January payment.

I want you to know it is a
wonderful work you are doing and
I am grateful for this opportunity
to become further enlightened.

I have derived benefit already.
The bright spot for me seems to come
and go in flashes. Perhaps it will
remain steady with further effort.
I definitely feel the power, and my
breath at times feels charged with
electric vibration — like a wave of
deep devotion. I also notice there is
healing power going from me when
I feel that way, and pain has dis-
appeared instantly from certain
people.

God bless you in all your
endeavors. The world needs you!

Sincerely your friend and

hope and say every one has
to stand on his or hers own
bottom. One night I took
to read one of my Lesson

Bible it is there. And I
ask him when do you
read it? My Affirmation of
Faith it is not so convenient
for me to say a word I say

with Affirmation of Power! Power!

Church to day Repeating
The Lord Pray a nother

be others who will see our
good works and be one as
a follow. I am right and I
I began to know that God
is working through the good
things I do. My Faith began
to get stronger. So keep the
good work going. I am praying
God will speed this Great truth

Dear Dr. Robinson:

It has been several years now since my dear wife has wired you for help regarding my heart attack (Coronary Thrombosis). This was in April 1942 when she applied this Creative Life Power as you have suggested.

Then again in 1945 I had another very bad attack, but by this time I have assimilated enough of your teachings to be able to overcome this dreadful disease once again.

I do not wish to bring back memories of the past nor renew the tragic event, only to say that I KNOW if I had'nt had your teachings, I would not be writing this letter to you now.

My Membership No-29-1391. Certificate of approval issued May 29, 44

I cannot find words with sufficient power to express my sincere thanks and appreciation for your teachings. I am just a young fellow of 61 and really, I do not feel any older than I did 30 years ago. And, since I had these two heart attacks I have done much more hard work last year than I did in any one other year during my whole life. O but surely, I never let go of the hand of this Creative Life Force.

I realize that many of your students write in to you telling of their experience. I too have several mighty amazing true stories I could tell you, and perhaps some day I will tell you, you are just about the only person I know of that could or would believe me.

I read some part of my lessons quite often and just the other day I happened to turn to lesson 13 and read the whole lesson over again, and the results that followed after reading it, I am presenting to you for approval or otherwise. I am no Poet, although I have written many good articles since I have studied with you. In the event you wish to keep or use my little chatter piece you may do so. If you feel that it is worth some reimbursement I would appreciate it very much.

Hoping to hear from you at your convenience.

Yours very truly
