

# YOU HAVE A SOLEMN OBLIGATION TO ME

Dr. Frank E. Robinson

Do you know, my friend, that I took you at 100 per cent of your true value when you enrolled with me? I came into your life with knowledge of the most staggering Power you'll ever know—believe me. I have taken you at your word, and you have received from me the Lessons you contracted for, by mail. You know—I don't know if you have ever undertaken to give your life unreservedly to the God-inspired task of bringing the Power of God to humanity. If you have, you will know just how many hardships follow when those upon whom we relied do not keep their obligations. In all probability you have just simply neglected to keep up your end of the contract. Well—no matter what the reason—may I ask you to keep up your end now? If you don't, you keep others from hearing of this staggering Power, and I don't believe you want to do that. I don't believe you are the type which wants to deliberately keep from us the money which is rightfully ours. Of course, if you do, you can. We never employ collection agencies or anything like that. We take our Members as men and women of their word. We like to be believed, and therefore we have believed you. So won't you decide NOW to send to us the little amount which you owe us? It will make our load considerably lighter, and it will make your conscience a lot lighter. You will be much happier, and the Power of God can then course thru every fibre of your being. Is this asking too much? Thank you.

Sincerely your friend,
