

# THE New "Psychiana"

"PSYCHIANA" has been completely re-written. Dr. Robinson has, for months been quietly re-writing these Lessons and adding new ones. Our complete approach to the public has been changed. Formerly, a definite charge was made for this Teaching. That has been discontinued and our Students are now asked to do what is right by contributing to the support of the Movement, to the degree they feel they should.

Some criticism was levelled at us from time to time, and the charge was made that we were too commercial for a religious institute. This criticism did not worry us too much as we know better than anyone else, just what the motive of this Movement is. We are interested only in bringing to the human race, the new conception of God. That conception is rapidly winning its way round the world. Best of all, human beings are finding that the actual Power of God exists here and now, and they are using it, to their joy.

All we want is that enough money come in to meet our heavy overhead. It cost us over \$100,000 to operate in 1937 so you can see that this is not a small organization. Formerly, this Teaching consisted of several different sets of Lessons, each of a definite length. The new "PSYCHIANA" is one continuing study. It continues for years.

Up-to-date modern methods of spreading this new conception of God are employed. We use the radio, magazines, and newspapers all over the world. We have a very vital message for humanity. It is our business to spread this message by the most effective means. This we are doing. We trust you will understand this little note of explanation.

C. W. TENNEY, Ph.B., LL. D.  
*Assistant Director.*
