

"PSYCHIANA"

Dr Frank B. Robinson, Founder

Moscow, Idaho

Dear Friend:

Doctor Frank Crane once said that, "A man's first obligation is to himself, to see that he does not become a burden upon others." This is where "PSYCHIANA" plays its great part---in showing you the way to that understanding of God's Laws necessary to develop strength and power.

You must have Desire, you must have Faith, Confidence, Belief. You must give in order to get. What costs us nothing is valued less than nothing, and that is one excellent reason for paying up your past due installments on "PSYCHIANA."

"PSYCHIANA" will mean even more to you when you have paid for it in full, and incidentally, you will be making it possible for us to continue this wonderful work. So make "PSYCHIANA" a vital part of your life and your cash budget.

Make your payments in a strong, faithful, determined manner---determined to give and to receive more in return. That is one of the important laws of the Universe. Try it right now.

Sincerely,

"PSYCHIANA"

P.S. Remember "PSYCHIANA" is operated on practically a cost basis. Student payments are all we depend on to finance this Institution.
