

"Psychiana" Inc.

MOSCOW, IDAHO

TO THE PUBLISHERS OF THE LEADING NEWSPAPERS AND MAGAZINES IN THE UNITED STATES:

The brochure you hold in your hand was produced in order that you may not be in ignorance of the greatest spiritual awakening of all time. It is being distributed to the leading newspapers and magazines only.

In these days when civilization seems to have gone completely mad, and when humanity is witnessing the most ghastly human slaughter of all time, it was but natural that someone think his way through tradition and theory, to God.

This we have endeavored to do, and, staggering as it may seem, we have been able to bring to humanity, not a theory ABOUT God, but the actual and literal Power of God. That is something epochal. That is what will save a sadly muddled and confused humanity. That is something never done before.

All man has ever needed is the plain, simple facts of God, untarnished by theory, ritual, and unprovable tradition. The "Psychiana" Movement is bringing these truths to humanity. Before too long, these truths will sweep the world.

The few minutes you will spend reading this brochure will repay you many times, for the significance of this astounding demonstration of the Power of God has not yet fully dawned on members of "The Fourth Estate."

This is a direct revelation of the Power of God to the human race. It is the first time such a revelation has been received. No other age could have grasped or comprehended the magnitude of God as this age can, and will, now that the simple facts of the relationship between God and man have been definitely established, and abundantly proved.
