

“The Beginning of a Busy Day”

Dr. Frank B. Robinson

This picture shows Dr. Robinson at his desk early in the morning. Note the sheaf of personal letters and telegrams before him. Each Student's letter is answered personally, and when he is away, Dr. Tenney and two capable assistants look after the mail and wires. Requests for help in illness come from all parts of the world, and in every case where the Spirit of God is allowed to operate, a recovery is sure. Very few business executives receive as much mail as Dr. Robinson receives, yet he gives the very best advice and help to all. This is perhaps the secret of the success of "PSYCHIANA"—it shows men and women the present existence of the greatest spiritual Power this world has ever known, and it demonstrates that this God-Power can be used by all here and now. No wonder it succeeds.
