

WHAT IS THIS STRANGE POWER

When "PSYCHIANA" first gave its Teachings to the world some eight or nine years ago, it became evident at once that some Power was manifesting through the Teachings. Immediately after its release, letters began to come to us telling of various illnesses and diseases which were being cured and healed through the Power taught by this new Teaching. Letters telling of happiness, peace, joy, came in, too, and new hopes, and it wasn't very long until such letters were coming to us from all over the world. Every mail brought us new evidence that some strange Power was at work.

WE KNEW THE TRUTH OF THE TEACHING WHEN WE FIRST RELEASED IT, and these amazing letters did not surprise us in the least. We expected the Power of the great God-Law to make just such demonstrations and manifestations. And the Law did not disappoint us. For the past hundreds of years, certain religious organizations have told us that they, and they alone, have the sole right to represent God and the truths of God. No one else is supposed to have any right to know or teach anything concerning God, who, they say, came down to earth and was crucified for the sins of the world. They tell us that God cannot be found outside of their organizations. Maybe that's all true—then again, maybe it isn't so true. At any rate, we of "PSYCHIANA" believe that the truths of God exist for all, and we do not believe that they were disclosed to any religious organization to the exclusion of the rest of us. We know that the Power of the God-Law exists here and now, and that it exists for the express purpose of revealing itself to ALL the human race—not to just a few church members.

We believe, furthermore, that an abundance of MATERIAL as well as SPIRITUAL supply can be secured through the Power of the great God-Realm, and, judging by the results to date, our conception of God is the true conception.
