## TO OUR STUDENTS

Many requests have come to us from students, asking why Dr. Robinson does not write the story of his life. The reason this story has not been written before is that the movement has grown so rapidly that it has been hard to handle the ever-increasing volume of work and correspondence.

It is possible now, however, for Dr. Robinson to write this remarkable story and the book is in the course of construction now. Naturally most of his many thousands of students will want a copy of this book and we are asking you to send in your order immediately, so that we may have some idea of how many of the first edition to print. Will you please fill in the application blank at the bottom of this page and mail with the cost of the book to "Psychiana," Moscow, Idaho. Please do this as soon as possible. As soon as the books come from the press, an autographed copy will be mailed to you.
