Dr. Robinson is a true mystic. He is what is known as an "adept." It seems that every once in a while God brings into the picture a man or woman who seems to be able to get just a little bit farther into the invisible Realm of God than most of us can. Such souls are gifted with true spiritual insight. They are true prophets. We believe Dr. Robinson to be such a soul. His work proves that he must be. In this strange book, you will read about his childhood, his youth, and what he reveals to you will, in all probability, amaze you. No man ever born has had a similar struggle. The book is just teeming with experiences which none but Frank B. Robinson could have outlived. It has 48 full-page illustrations, including his wife, his son and daughter. It also shows early childhood scenes, and views taken abroad. But the main thing about this book is that it lays bare the innermost experiences of this remarkable man. His trials, his arrests, his deportation proceedings, attacks upon him, etc. It may be that Dr. Robinson is the one chosen by God to reveal the Power of God to this universe. If he is, you certainly should have this book. Orders for this book will be filled as we receive them. So, as the troubled times on this earth get worse and worse, read about the true life story of the man who may, ere long, stagger this universe by the Power of the Spirit of God.
