## YOU MAY BUILD FINANCIAL SECURITY AND SPIRITUAL AND SOCIAL STANDING

"Psychiana" is a religious institution. It operates under a religious charter. It is chartered in the State of Idaho. Its ministers are in a position to render a devotional service to mankind, and are also in a position to make themselves an outstanding success in their respective communities, both spiritually, socially, and financially. "Psychiana" International Headquarters always keeps itself on a sound financial basis, and, excepting unexpected demands on it, has always been such. It will always try to be financially independent, for more effective work for God can be accomplished when a sound business basis underlies it.

Students who cannot give full time, can use their spare time to increase their earnings. We allow a very liberal commission on all works sold. We will furnish instruction and literature to you to help you get started. If you rely on the Spirit of God for guidance, you cannot help but succeed.
