
Is This Your Chance?

• • •

Civilization is threatened. A despot is trying to rule the world. He ruthlessly destroys not only beautiful cities, towns and villages, but human lives by the hundreds of thousands. This man is the incarnation or everything evil, and the manifestation of that sort of creature was a foregone conclusion. The "Psychiana" Movement has been brought into existence to bring this man to his knees; not by the force of arms, but by the Spirit of God. For eleven years now I have been fighting alone, waiting for this moment to come. This Movement, under God, and by the Power of God, can stop any man who, by brute force, tries to rule the world, ruling God out of the picture. During these eleven years our growth has been amazing. It reads like a fairy story. We have had the opposition of religious bodies, because we do not believe all the things they teach about God. Our progress, therefore, has not been as fast as it could have been.

I am laying all my cards on the table. I have never done otherwise. The time has come for definite world-wide action, and there exists now a wonderful opportunity for someone who has material means, to help me bring the Power of God to the world, and, through that Power, triumph over these mad despots. Our operations should be many times as large as they are. We should have \$500,000 at our disposal. I am asking every Student who has means, to send some of those means to us, for it seems to me imperative that all who believe in the existence of God, and the triumph of right over wrong, stand fully behind this Movement. Perhaps you can do something substantial yourself. Perhaps you know of someone who would like to put substantial money at our disposal. In either case, I ask your cooperation. Not for me, for this is a non-profit Movement. I get nothing but a salary. It is very essential that every thinking, peace-loving, and God-fearing American get behind the only Movement which has the vision, the Power, and the fearlessness to challenge Hitler through the Power of the Great Spirit—God. Will you help me bring to this world, the only Power that can save it?
