

Kass:

If I recall correctly, there is a mailing to go to the grads after the old names have been circularized by the VOLCANO circular.

Now here's the next one. Don has it all ready to run. It will go to the 1944-5-6 names exactly as the VOLCANO did. It will contain a specially marked ~~goldend type~~ application blank, (regular) and it will contain the testimonial circular which is printed on both sides. I believe it is used in the regular "one-shot". In addition, this same approach can also be sent to the grads after the present mailing, but in their case use THE NEW PSYCHIANA blank. Gottit?
