Dear Dr. Robinson:

I am so thrilled with life that I am bubbling over with joy—to think that I am understanding the God-Law or Spiritual Realm clearer, and being drawn closer to it every moment. It gives me joy words can never express. Here is a little sympathy for you in your great work. (Cashier's check for \$20.00 was enclosed.) For it is the greatest blessing that God has ever released to free man from the horrible bondage of fear and superstition.

I send this love offering with the greatest joy in my heart, and hope I can be of greater assistance in the near future. I see God gives very freely when we are in tune with the Spiritual Law, and lets the fullness of the Light guide me. Wishing you all the blessing in the world. That this great Movement goes on in its tireless spirit until it has consumed every living being, is my prayer.

With love,

May God bless you,

Mrs. B—— C——
