THE NEW REVELATION OF GOD

Lead Minist

When a human being enrolls with us and begins to find the Power of the Spirit of God actually beginning to manifest in his or her life and affairs, many strange and new things begin to happen. ~~###~~ The average man and woman without the knowledge of the true God, is in a somewhat muddled condition. The fear complex is predominant. For so many centuries has the false theory of "sin" been embedded into the human race, that it is the natural sequence for all of us to be born under that shadow. And until the truth comes to us, we plug along through life, handicapped by that ghost which, in reality, is not there except in our imaginations and our hereditary nature.

We have been taught by religious(?) organizations for so long, that we can never know God this side of eternity, that we have begun to believe this. Therefore, there is not much hope of achieving the good things of God this side of eternity. "Lost souls". "Hell-fire and damnation". "Sacrifice" "Blood of gods". "Crucifixion of gods". These, with many other equally absurd supposedly religious philosophies have been given to us to digest, until it is a wonder to some of us how we have the moral courage to live at all. With such a background, it is no wonder the human race is making such a mess of itself. It could not do otherwise. Its foundation is not such that any other sort of a structure can be erected upon it. But all that is now changing.

For when the Student begins to grasp the first faint gleams of truth and Light, many marked changes appear at once. The first thing which is very noticeable is that the old hereditary "fear" complex begins to disappear. Where before we trembled at the very name of God, we now don't do so much trembling. Whereas, heretofore, the outstanding characteristic of us was a negative element of fear, that begins to go. Confidence begins to show up on the mental horizon. Instead of being "scared" to do this or to do that, we find that we are "scared" of nothing. That confidence, if encouraged, inevitably leads to an experience of the fullness of the Spirit of God, which experience is a very victorious one.

When this thing called "fear" has been eliminated, we find our horizon completely changed. It is bright now. It used to be dark. Before, we just simply KNEW we never could accomplish anything. Now--we KNOW WE CAN. For have we not begun to discover that this "fear" thing, which religious organizations are responsible for, is but a myth? Do we not now realize that the ghastly thing has its origination only in the human mind? And do we not further know that it was implanted there by our forefathers who were taught by religious sects that "unless they did this, or that, God would plunge them into hell"? Is not that the cause of Fear? It certainly is. And now that we have discovered this theory to be untrue, naturally we are not troubled any more with "fear". We are FREE. And we have been made FREE by the conscious presence of the invisible Spirit of God. This, then, is the first noticeable thing with the coming of the Spirit of God into a human life. Fear goes out. It cannot stay where confidence exists. And nothing but confidence can exist where God is.

Then there is another thing most noticeable. Our material circumstances begin to change. We have money now whereas we did not have it before. The "fear" monster having gone, naturally our whole life changes for the better. We go out after a better job and we get it. We are full of confidence, and the world likes one full of confidence. We build a better home, and we buy better clothes for our loved ones. If this confidence in the Spirit of God continues, there are no limits to where we may not go financially and materially. Everything we need is supplied through the Power of the Spirit of God--IN US. For that is where the Spirit of God really is.

Then we sell the old car and buy a new one. A better job comes along, and we make more money. As we realize this indwelling presence of the Spirit of God, naturally, with the knowledge of such a stupendous Power at our disposal, we just simply cannot be stopped. We do anything we want to do through the Spirit of God. You have noticed in our literature from time to time, drawings signed by Stephen Bern Dahlman. Let me read from a letter which now lies on my desk from Student Dahlman. This chap found the Spirit of God. He was then on W.P.A. I gave him money to help out when his last baby was born. Then, following this Movement of the Spirit of God on the Earth, HE FOUND THE POWER OF THE LIVING GOD. Listen to what he says now:--- dated December 22nd 1939---

8 pt
Dear Dr. Robinson:-

Your Lessons have been the backbone of my life, from the minute I first laid eyes on them. I could tell you of many things which have happened to me since studying with you. Many a thrill have I experienced as I pondered the truths of the REAL LIVING GOD.

10 pt
As this letter is very personal, I'll mention what happened to me now--as I typed the last few lines, there surged within me SOMETHING INEXPLAINABLE..... a happiness overwhelmed me, and I paused till it took its natural course....and here I continue, crying like a baby...tears fill my eyes, and GOSH, I hope my wife and her two lady friends in the next room dont see a big guy like me crying like a baby.

Then Mr. Dahlman goes on in a more personal strain which I wont repeat here. What I want you to know is that while Mr. Dahlman was down and out and on the W.P.A. when he found God, HE NOW IS DRAWING FOR A COMIC MAGAZINE, HAS HAD AN OFFER FROM A NATIONALLY CELEBRATED CARTOONIST, AND IS ON THE ROAD # TO A TRIUMPHANT FINANCIAL AND SPIRITUAL SUCCESS. And all this was done BY THE SPIRIT OF GOD IN STEVE DAHLMAN.

Now please dont think this is an unusual case, for I assure you it is not. These experiences come to us in such profusion that we do not even keep track of them any more. We kept 150,000 of them and are now throwing them away as fast as they come in. So I should say that this REALLY IS A NEW REVELATION OF THE POWER OF THE SPIRIT OF GOD ON THIS EARTH. What I want every reader of this magazine to note, and note carefully, is the fact that the Spirit of God, in you, can bring to you everything you need HERE ON THIS EARTH, both spiritually and materially. Mr. Dahlman, by his letter was "moved to tears" as most people are when this overwhelming Power of God manifests itself in any human life.

There are moments in my life, and there should be moments in your life in which the ineffable sweetness and love which is God carries you off your feet. For with the material manifestations there also comes a vast ocean of spiritual Power. In fact, the spiritual experience must come before the material manifestation. But what's the difference....they both come to anyone and everyone who begins to know the Power of the Great God-Spirit in his or her life. All this, of course, is quite foreign to the philosophy which would have us believe that we are "pilgrims along a rough and thorny road, wending our meticulous way, afraid of God, afraid of the church, and afraid of ourselves". Well beloved, there is a glorious freedom in the Realm of God, and you had better get into it.

Now there is one more noticable thing about the one who has found the Power of the Living God in his or her life. That life at once changes for the better in the matter of our dealings with our fellow men and women. You will not drink whiskey and know the Power of God. You will not take advantage of your neighbor when you know God. You will help every soul in need of help when you recognize the Spirit of God in you. You will keep out of pool-halls and saloons, and you will stand 100% behind everything the Spirit of God shows you is right. You will be a 100% better citizen. These other things which used to appeal to you maybe, will not appeal to you any more. You wont go round with a bible in your hand, and you very seldom will be seen inside of church. But you will KNOW GOD, which is far better; for wherever the Spirit of God manifests in a human life, that life is made like God.

And what is God? Well God is the infinite Spirit of Creative Life, capable of existence without bodily or physical form. God is the very acme of wisdom. God is the superlative in love. God is all there is of peace. God can do anything, and you have this God-Power living in you as your very life. Now then, God being all these things, and God being your very life, therefore GOD MUST BE AT YOUR PERSONAL DISPOSAL ANY HOUR OF THE DAY OR NIGHT. Just as long as you live, God lives in you. And just as long as God lives in you, you have God at your disposal. Yea--more than that--you have, through the Spirit of God in you, all the Powers of the invisible Realm of God at your disposal. And these Powers will change your life. No matter what the material circumstances may be, the God in you is far and away superior to those circumstances.

You wont fight me with God on your life. One nation would not fight another nation with God in the lives of its citizens. You can easily see then how this, and any other war can be stopped when God lives in these lives, or rather when God is recognized for the dynamic Power God is in those lives. You will see also how equally impossible it is for peace to come to this earth, if the conception of God given to the world is a conception wherein the Almighty God of this universe was killed on a cross 2000 years ago. Now I know that is the nominal belief of millions. I am soory, but I shall have to expose that "belief" for what it really is----pagan myth and superstition. It is that very belief which has brought the world to the gates of destruction. And this world cannot recover as long as it holds that picture of God. All the Popes, and all the religious leaders this side of purgatory cannot do one single thing to save this world, so long as they teach a doctrine of God being born of a virgin, and crucified on a cross. Yet their entire organizations have been built on just that sort of stuff. It is not true. They may kill me for saying it is not true, but what difference would that make? The world will find it out anyway sooner or later, and I would rather be the prophet who brings the true Spirit of God to this earth, than I would be anything else.

The truth is never found by the "believer". It is the doubter, the inquirer, the hungry-heart-for-God who will find whatever truth there is to be found. And I am saying to you that the answer to the God question DOES NOT LIE IN ANYTHING THE CHURCHES TEACH TO DAY. It never did lie there. Under those religious(?) philosophies, this world has dragged itself to the very gates of hell, and all the gods of all the religions have not been able to do one thing to stop it. TIMES ARE DESPERATE NOW. It takes mighty plain speaking to make any impression. It will take the Spirit of God to bring peace out of this mad world's chaos. And am I to shut my mouth and stop my tongue just because religious organizations do not like what I say? I dont believe I am that sort of a traitor to either God,

my fellow-men, or myself. Before I released this Teaching, I knew, beyond a shadow of a doubt that the message was true. Otherwise I never should have given it to the world. I am more than ever convinced now that it is true, for I have had about eleven years to observe its reactions and its Power over human lives. THIS MESSAGE IS TRUE. IT IS THE ONLY TRUE RELIGIOUS MESSAGE EVER BROUGHT TO THIS EARTH. Therefore, it has to, and it will win its way the wide world round, and through this revelation of the Power of the Spirit of God in the hearts of men, this world will be redeemed from the curse of false religions, and the greatest of all sins--- the sin of unbelief. And its just as great a sin to believe in a false god as it is not to believe in the True God. The only excuse for men and women believing in a false god is that they have never yet had the pictures of the True God brought to them. No one who reads this article can ever make such an excuse again. No Student of "Psychiana" can shelter him or herself under such an alibi.

If you do not obtain, through the Power of the Spirit of God, an abundance of whatever you need, both spiritually and materially, the fault is yours, and not mine. First grasp the picture of God, existing in you. Think that statement out, for its a big one. God--the invisible Spirit which made the heavens and the earth, and yon millions of stars--ACTUALLY ABIDING IN YOU. And what for. Well just so that you, while on this earth, may find and know that Power, and, having found it, MIGHT MAKE YOUR LIFE LIKE THE LIFE WHICH IS GOD, THROUGH THE SPIRIT OF GOD. That's what "Psychiana" teaches. It is a God-given message coming like a beacon-light of liberty to a world that does not know which way to turn for help. My heart bleeds every time I think of those poor Finns, fighting against a power which never should have been allowed to raise its ghastly head ~~anywhere~~ anywhere. Yet it did. And its doing it here in these United States. We had better get rid of the Bridges' and their ilk, and try a bit less to deport such men as I am. The C.I.O. is another organization which should be carefully watched.

In Russia, while Communism was being built, that country had a powerful church--the Greek Catholic church. It was the rottenest political organization the world has ever seen. Yet it masqueraded as being of God. And, while this Catholic church was making itself rich at the expense of the poor Russians, Communism was born. I'm not so sure the Greek Catholic church did not breed so much dissatisfaction that Communism HAD TO BE BORN. A priest CAN know the Power of the Living God. But the Living God never ~~###~~ yet masqueraded round in the garb of priest of any church. The Living God lives in the hearts and lives of man--His greatest creation, and any attempt to place God within the confines of ANY system of theology, will bring disaster. I am sorry to see the Roman church putting across so much propoganda here in these beloved United States. To play further with this outfit invites disaster. For the United States are not yet ready to accept Roman Catholic doctrines. And these United States never will be ready. There are too many people here who know the fallacy of the teachings of that system of theology, and history speaks very plainly to those who would read. I have read.

Let it not be inferred here that I hate the Catholics. I have them working here and in the printing plant. The manager is a Catholic. I have just made a nice donation of Xmas candy to the local Catholic Academy---36 three pound boxes of chocolates. So say not I hate Catholics. BUT I DO HATE THE SYSTEM, AND THE REASON I HATE IT IS BECAUSE IT IS COMING TO THIS WORLD, IN THE NAME OF THE TRUE GOD, AND IT OFFERING TO THE WORLD AS A PANACEA

FOR ITS ILLS, A GOD AND A RELIGIOUS PHILOSOPHY WHICH IS AS FALSE AS HELL ITSELF IS FALSE. I hate everything which hides the truths of the Living God from men and women. And the Roman Catholic church certainly does that. It's a "dictatorship" in the Realm of true religion, and God never yet was dependent upon any "dictator" to reveal His truths to the world.

HO EVERYONE THAT THIRSTETH...COME YE TO THE WATERS OF LIFE...AND COME BY YOURSELF...YE DO NOT NEED EITHER PRIEST OR PREACHER TO ACCOMPANY YOU... FOR THE YOKE OF GOD IS EASY...HIS BURDEN IS LIGHT...THEN COME, WONT YOU. GOD'S POWER IS NOT SOLD, IT IS FREE AS THE AIR WE BREATHE. IT CANNOT BE PURCHASED WITH MONEY...NOT IS TO BE OBTAINED UNDER THE CLOTH OF THE PRIEST. Nor did God ever go away, promising to come back at some other time, leaving the spiritual doom of the world in the hands of the Pope of Rome or of anyone else. What this world needs is to find God. The true God. Not the god of the Roman church. Not the god of the Baptist---but the God of the universe, Whose Great Life exists here and now for all of us.

We of "Psychiana" know something of that Power. We are the instrument through which God is speaking to this world. You are a part of this great Spiritual Movement. Then keep close to God. Let God be the motivating Power of your life. For God is your life. Then realize that, and go on to greater heights than you have ever attained before. These things are for you. Take them, and then join with me in bringing to this world a picture of God which can save it, for peace can come. It can come only through the recognition of the Spirit of God on this earth, and through no other channel.

Each Student of this Movement has a big responsibility. The responsibility comes with the knowledge of God. For if you do not work for the salvation of others, the Power of God may not manifest in you. You are like a sponge. You absorb from God, you give out to others, and you go back to God for a refilling of His great Power. But you MUST join me in bringing to this world the liberating truths of God which can and will make of earth a paradise, instead of the ghastly thing it is today.
